Existentialist Ontology and Human Consciousness William L.

McBride,2013-09-13 *Existentialist Ontology and Human Consciousness* The majority of the distinguished scholarly articles in this volume focus on Sartre s early philosophical work which dealt first with imagination and the emotions then with the critique of Husserl s notion of a transcendental ego and finally with systematic ontology presented in his best known book *Being and Nothingness* In addition since his preoccupation with ontological questions and especially with the meanings of ego self and consciousness endured throughout his career other essays discuss these themes in light of later developments both in Sartre s own thought and in the phenomenological hermeneutic and analytic traditions

The Book of Consciousness Dr. Bara H. Loveland,2011-01-19 *The Book of Consciousness* by Dr Bara H Loveland Have you ever wondered what Consciousness is or the mind the unconscious or Archetypes and Symbols how they work and how to define these Without arriving at the reach of Consciousness there are numerous books on consciousness there are conferences held and groups searching for consciousness with dictionaries attempting to define it Why have they not found the ultimate definition of Consciousness to this day of the publication of *The Book of Consciousness* in January 2011 Could Bara s new book *The Book of Consciousness* hold the answer Can it deliver the ultimate in Consciousness There are many other questions which science has not positively answered yet Why is it that our brain cerebrum seat of the mind has to be calmed from 40 Hertz to 8 Hertz or less literally put to sleep in order to reach highest states of awareness although the cerebrum is supposed to be the seat of the world s highest intelligence Why is this seat of highest intelligence polluting the earth to the brink of dying of life Why is the unconscious called unconscious when it is able to construct meaningful dreams and is there a difference between an Archetype and a Symbol appearing in dreams and myths Could a neurosis not be a disease And what is it the mind really knows

Profound contemplation of Consciousness must lead to further questions about the origins of Archetypes and Symbols about wisdom and similarities of ancient Stone Age Symbols East Indian and Egyptian scriptures Runes Mayan glyphs and biblical Symbols or world religions in general One may wonder why an Egyptian god is frequently named in

Christian churches and is mentioned in both the Old and the New Testaments Is God He and could He exist Could there be a different world behind our visible one and could we have Bio Modulators to sense the other world What can we learn from a Germanic king Is it possible that we have more than five senses and how many diseases could naturally exist Can the DNA communicate and how many laws exist in the universe What is the meaning of certain Bible verses and what could have been the message Jesus gave the world on the cross Is New Age wisdom contained in the Bible and could it be that common science limits itself when excluding miracles it could perform with ease protecting the animals from harm Are there more levels of logic than one How could we realize or activate them What is the role our belief plays in our life and in science The Book of Consciousness begins where common science ends Be surprised by the innovative answers with some published about 30 years ago by this author Be captivated by the author's authentic new style by the insights humor and vivid experiences enjoy the 40 figures and tables as well as exercises to reach altered states of awareness naturally and at will May The Book of Consciousness raise into Oneness the conscious of all those who read its 640 pages may they be the igniters inspiring divine Oneness and Love in the perception of all Genre Specialty Books **Unity** ,1900 Trauma and PTSD Cathy Chapman, It is difficult not to be emotionally involved in this human realm since emotions are a critical part of this planet You already know the best way not to experience trauma Remain in your heart source Trauma begins in your life when you come into your physical body before birth Trauma is held in your body even before your soul enters it Because trauma affects your energy bodies typical psychological therapy cognitive or behavioral does not cure those effects Trauma must be addressed in layers that include all your bodies energetic and physical This is why resolving trauma takes much time On the emotional level you begin to doubt who you are You might experience anxiety or depression and forget who you are You worry about what is going to happen in life and whether things will ever get better What does that do It causes problems on the emotional and the spiritual levels because you forget the marvelousness of who you are Your happiness and contentment come from within It does not depend on your situation After experiencing a trauma everything has changed and you have to find the new you What you believe about yourself is going to assist your recovery If you believe you are only useful if you can walk and now you can no longer walk your life loses its meaning based on your beliefs You need new beliefs Focus on yourself during this healing process You are the most important individual in this whole practice When you do this for yourself your healing affects others increasing the light in the world **The Sound of Bells** Norah Moore,2013 This book brings together the teachings of Meher Baba and the teachings of Carl Gustav Jung for the first time Many people would wish to bring together their inner experience of spirituality and psychological development Meher Baba did not come to bring a new religion but a philosophy that brought all religions together In this first book The Sound of Bells and Eastern Mysticism I looked at C G Jung's Analytical Psychology in the light of Meher Baba's book God Speaks In the second book of the trilogy Glowing Embers for the New Humanity God can only be Lived I brought a more detailed account of how this might be

accomplished In the final book of the trilogy I turned to a more personal account of how I followed this path myself and summed up how the path has been followed throughout all the avataric ages *Soul to Soul* John Mundahl,2015-06-09 Poems prayers and stores from beloved spiritual teachers perfect for ending a yoga class or for personal inspiration
