Picasso Leo Steinberg,2022-06-24 The fourth volume in the Essays by Leo Steinberg series focusing on the artist Pablo Picasso Leo Steinberg was one of the most original art historians of the twentieth century known for taking interpretive risks that challenged the profession by overturning reigning orthodoxies In essays and lectures ranging from old masters to modern art he combined scholarly erudition with eloquent prose that illuminated his subject and a credo that privileged the visual evidence of the image over the literature written about it His writings sometimes provocative and controversial remain vital and influential reading Steinberg s perceptions evolved from long hard looking at his objects of study Almost everything he wrote included passages of formal analysis but always put into the service of interpretation This volume brings together Steinberg s essays on Pablo Picasso many of which have been studied and debated for decades such as The Philosophical Brothel as well as unpublished lectures including The Intelligence of Picasso a wide ranging look at Picasso s enduring ambition to stretch the agenda of representation from childhood drawings to his last self portrait An introduction by art historian Richard Shiff contextualizes these works and illuminates Steinberg s lifelong dedication to refining the expository interpretive and rhetorical features of his writing Picasso is the fourth volume in a series that presents Steinberg s writings selected and edited by his longtime associate Sheila Schwartz
