Selected Writings from Mikhail Bakunin Mikhail Aleksandrovich Bakunin,2010 A collection of writings from the champion of Anarchism Mikhail Bakunin Includes God and the State Marxism Freedom and the State The Policy of the International and The Paris Commune and the Idea of the State Preface gives a brief biography Anarchism and the Crisis of Representation Jesse S. Cohn,2006-09 Anarchism and the Crisis of Representation is intended to provide readers of literary criticism art history political philosophy and the social sciences with a fresh perspective from which to revisit dead end theoretical debates over concepts such as agency essentialism and realism and at the same time to offer a new take on anarchism itself challenging conventional readings of the tradition The anarchism that emerges from this reinterpretation is neither a musty rationalism nor a millenarian irrationalism but a living body of thought that points beyond the sterile antinomies of post modern and Marxist theory BOOK JACKET **We Do Not Fear Anarchy—We Invoke It** Robert Graham,2015-06-23 From 1864 to 1880 socialists communists trade unionists and anarchists synthesized a growing body of anticapitalist thought through participation in the First International a body devoted to uniting left wing radical tendencies of the time Often remembered for the historic fights between Karl Marx and Michael Bakunin the debates and experimentation during the International helped to refine and focus anarchist ideas into a doctrine of international working class self liberation An unprecedented analysis of an often misunderstood history **Communism in the 21st Century** Shannon Kurt Brincat,2013-12-12 A compelling three volume exploration of the philosophical social and political facets of the theory and practice of communism within the conditions of 21st century world politics and late capitalism The world has changed significantly and so has communism This groundbreaking three volume series comprises contributions from over 30 experts that thoroughly address the past present and future of communism The entries assess the modern re articulation of the notion of communism and its potential emergence against the backdrop of recent historical conditions and contemporary world politics taking into account the ongoing global financial crisis recent revolutions throughout the Middle East Occupy protest events and anti globalization movements The first volume reexamines Marx s ideas from many distinct viewpoints while the second volume considers the numerous challenges facing existing communist parties including those in China Cuba North Korea and Vietnam The last volume explores the future of communist thought and practice in the context of the modern world and the recurrent crises of capitalism **Direct Struggle Against Capital** Peter Kropotkin,2014-04-15 This is the most extensive collection of Peter Kropotkin s writings available in English Over half the selections have been translated for the first time or salvaged from long out of print pamphlets and newspapers Both an introduction to classic texts and a recontextualization of Kropotkin from saintly philosopher to dangerous revolutionary Direct Struggle Against

Capital includes a historical introduction biographical sketch glossary bibliography and index Peter Kropotkin was one of anarchism's most famous thinkers His classic works include *The Conquest of Bread* and *Mutual Aid A Factor of Evolution* Iain McKay has edited *An Anarchist FAQ* volumes one and two and *Property Is Theft A Pierre Joseph Proudhon Anthology*

Means and Ends Zoe Baker, 2023-07-25 An expansive and accessible account of anarchism as a theory of practice A new in depth look at the revolutionary strategy of anarchism in Europe and the United States between 1868 and 1939 Zoe Baker creator of a popular Youtube series on radical history and political theory brings her trademark clarity and accessibility to this debut book Cutting through misperceptions and historical inaccuracies she shows how the reasons anarchists gave for supporting or opposing particular strategies were grounded in a specific theoretical framework a theory of practice The consistent and coherent heart of anarchism Baker shows is the understanding that as people engage in activity political or otherwise they simultaneously change the world and themselves Put another way the means that revolutionaries propose to achieve social change have to involve forms of activity through which people can become individuals capable of overthrowing capitalism and the state as well as building a better society Behind this simple premise that anarchist ends can only be achieved through anarchist means lies a wealth of fascinating historical and theoretical detail that Baker presents clearly and engagingly

Karl Marx and the Anarchists Library Editions: Political Science Volume 60 Paul Thomas, 2013-04-15 This study examines Marx's disputes with and attacks upon those anarchist theoreticians he encountered at various stages of his career Marx's attacks on Stirner Proudhon and Bakunin are shown to be of vital importance to his career as a theorist and revolutionist The formative influences upon Marx's writings and his political activity are discussed and analyzed The author re-situates Marx's thought in the context of the 19th century when Marxism was not an unchallenged orthodoxy but a doctrine and method that needed to be defended against rival revolutionary impulses
