Modern History of European Cities Rosemary Wakeman, 2020-01-23 Rosemary Wakeman's original survey text comprehensively explores modern European urban history from 1815 to the present day It provides a journey to cities and towns across the continent in search of the patterns of development that have shaped the urban landscape as indelibly European The focus is on the built environment the social and cultural transformations that mark the patterns of continuity and change and the transition to modern urban society Including over 60 images that serve to illuminate the analysis the book examines whether there is a European city and if so what are its characteristics Wakeman offers an interdisciplinary approach that incorporates concepts from cultural and postcolonial studies as well as urban geography and provides full coverage of urban society not only in western Europe but also in eastern and southern Europe using various cities and city types to inform the discussion The book provides detailed coverage of the often neglected urbanization post 1945 which allows us to more clearly understand the modernizing arc Europe has followed over the last two centuries **Cities and the Making of Modern Europe, 1750-1914** Andrew Lees, Lynn Hollen Lees, 2007-12-13 A survey of urbanization and the

Sacred Communities Dean Phillip Bell, 2021-10-01 We all live in a community and it was no different for the Jews and Christians of medieval Germany or was it This book draws together disparate threads of Christian and Jewish communal development in an effort to give a deeper understanding to the complex tapestry of Jewish and Christian interaction In the broad examination presented herein it is possible to compare the general transformations that affected Jews and Christians both as residents of a shared German society and as residents of their own separate communities Jews and Christians interacted in a variety of ways in numerous settings and at a multitude of levels that defy simple categorization To label late medieval Germany a period of crisis is too simplistic the Reformation should not categorically be viewed as the central development in the shift between medieval and early modern times This book seeks to recontextualize the world of Jewish and Christian relations by bringing together divergent sources not often taken together but equally important to inform one another and offer a fuller picture of Jewish and Christian notions of each other and themselves than has been possible up to this point
