Robots Won't Save Japan James Adrian Wright, 2023-02-15 Robots Won't Save Japan addresses the Japanese government's efforts to develop care robots in response to the challenges of an aging population rising demand for eldercare and a critical shortage of care workers Drawing on ethnographic research at key sites of Japanese robot development and implementation James Wright reveals how such devices are likely to transform the practices organization meanings and ethics of caregiving if implemented at scale This new form of techno welfare state that Japan is prototyping involves a reconfiguration of care that deskills and devalues care work and reduces opportunities for human social interaction and relationship building Moreover contrary to expectations that care robots will save labor and reduce health care expenditures robots cost more money and require additional human labor to tend to the machines As Wright shows robots alone will not rescue Japan from its care crisis The attempts to implement robot care instead point to the importance of looking beyond such techno fixes to consider how to support rather than undermine the human times spaces and relationships necessary for sustainably cultivating good care

Digital Government Svenja Falk, Andrea Römmele, Michael Silverman, 2016-11-09 This book focuses on the implementation of digital strategies in the public sectors in the US Mexico Brazil India and Germany The case studies presented examine different digital projects by looking at their impact as well as

their alignment with their national governments digital strategies The contributors assess the current state of digital government analyze the contribution of digital technologies in achieving outcomes for citizens discuss ways to measure digitalization and address the question of how governments oversee the legal and regulatory obligations of information technology The book argues that most countries formulate good strategies for digital government but do not effectively prescribe and implement corresponding policies and programs Showing specific programs that deliver results can help policy makers knowledge specialists and public sector researchers to develop best practices for future national strategies **CMJ**
