The Soviet Photograph, 1924-1937 Margarita Tupitsyn, 1996-01-01 Tupitsyn challenges the view that the Soviet avant garde peaked in the 1920s and was subsequently forced to conform with Bolshevik politics Instead she asserts that photography during this period represented the last great experiment in the search for the most effective ways to connect art radical politics and the masses Investigating the means by which the new visual tools for disseminating revolutionary messages were adapted to the needs of Stalinist propaganda Tupitsyn relates major examples of single frame photography and photomontage to such events as the implementation of the New Economic Policy Lenin's death and Stalin's first and second Five Year Plans and to mounting censorship of the arts She also establishes a link between the writings of critics and the development of photography and photomontage at this time The book presents previously unpublished material from Klutis's letters Rodchenko's public lectures Lissitzky's late writings on the mass media and Kulagina's personal diaries as well as many previously unknown photographs

Architectural Theory, Volume 2 Harry Francis Mallgrave, Christina Contandriopoulos, 2008-08-11 This second volume of the landmark Architectural Theory anthology surveys the development of architectural theory from the Franco Prussian war of 1871 until the end of the twentieth century The entire two volume

anthology follows the full range of architectural literature from classical times to present transformations An ambitious anthology bringing together over 300 classic and contemporary essays that survey the key developments and trends in architecture Spans the period from 1871 to 2005 from John Ruskin and the arts and crafts movement in Great Britain through to the development of Lingang New City and the creation of a metropolis in the East China sea Organized thematically featuring general and section introductions and headnotes to each essay written by a renowned expert on architectural theory Places the work of starchitects like Koolhaas Eisenman and Lyn alongside the work of prominent architectural critics offering a balanced perspective on current debates Includes many hard to find texts and works never previously translated into English Alongside Volume I An Anthology from Vitruvius to 1870 creates a stunning overview of architectural theory from early antiquity to the twenty first century A Dictionary of the Avant-Gardes, 2013-05-13 A Dictionary of the Avant Gardes recognizes that change is a driving force in all the arts It covers major trends in music dance theater film visual art sculpture and performance art as well as architecture science and culture **Gan's Constructivism** Kristin Romberg, 2019-01-08 This compelling new account of Russian constructivism repositions the agitator Aleksei Gan as the movement's chief protagonist and theorist Primarily a political organizer during the revolution and early Soviet period Gan brought to the constructivist project an intimate acquaintance with the nuts and bolts of making revolution Writing slogans organizing amateur performances and producing mass media objects define an alternative conception of the work of art no longer an autonomous object but a labor process through which solidarities are built In an expansive analysis touching on aesthetic and architectural theory the history of science and design sociology and feminist and political theory Kristin Romberg invites us to consider a version of modernism organized around the radical flattening of hierarchies a broad distribution of authorship and the negotiation of constraints and dependencies Moving beyond Cold War abstractions Gan's Constructivism offers a fine grained understanding of what it means for an aesthetics to be political **Modern Sculpture Reader** Jon Wood, David Hulks, Alex Potts, 2012-08-21 In many anthologies of art sculpture is given short shrift in relation to other media if it is treated at all Modern Sculpture Reader aims to rectify this situation by presenting a collection of important texts that have defined sculpture's radically changing status and role since the end of the nineteenth century a time marked by a general reappraisal of the forms and functions of art From the rigorously theoretical to the experimental and poetic Modern Sculpture Reader offers a lively discourse on the medium by a range of artists writers critics and poets Marcel Duchamp Louise Bourgeois Claes Oldenberg Andr Breton Ezra Pound and Clement Greenberg in a variety of genres poems lectures transcribed interviews newspaper and magazine articles and artists statements These diverse text selections offer valuable insight into the development of the critical language of sculpture and its connections to other media in an era of increasingly conceptual artistic practice Many of the essays highlight key ongoing concerns such as sculpture's physical properties and conditions of display both of which have important implications for the viewer's tactile and emotional

interaction with sculptural works **Varvara Stepanova, the Complete Work** Aleksandr Nikolaevich Lavrent'ev, Varvara Fedorovna Stepanova, 1988 In this first extensive study of her life and work Varvara Stepanova 1894 1958 emerges as a remarkable artist whose versatility energy and contribution to the Russian avant garde matched and in some cases exceeded that of her husband Alexander Rodchenko The book is written and designed by Aleksander Lavrentiev who is the grandson of Rodchenko and Stepanova and the curator of their archive Lavrentiev's text is accompanied by excerpts from Stepanova's own diary with its fresh insights and lively commentary on Soviet art and a memoir by her daughter But the real discovery is the 370 illustrations 45 in color nearly all of which are published here for the first time which reveal an artist startling in her accomplishments Like Rodchenko Stepanova was among the founders of Constructivism a contributor to the famous Moscow 5 x 5 25 exhibition held in 1921 and significant in shaping Russian's visual culture during the turbulent years following the revolution Lavrentiev covers every aspect of Stepanova's production against the complex background of the period The comments in the little oilskin notebook that she kept almost continuously during the 1920s keenly revive the events of the time the illustrations allow us to discover and enjoy the wide range of Stepanova's talents as expressed in paintings and geometric constructions sets and costumes fashion designs posters and typography John Bowlt who has edited the text and written a critical introduction to the book is a leading authority and well known writer on Russian art and culture He is Director of the Institute of Modern Russian Culture at the University of Southern California **Theatrical Costume, Masks, Make-Up and Wigs** Sidney Jackson Jowers, 2013-10-15 This is the first bibliography in its field based on first hand collations of the actual articles International in scope it includes publications found in public theatre libraries and archives of Barcelona Berlin Brussels Budapest Florence London Milan New York and Paris amongst others Over 3500 detailed entries on separately published sources such as books sales and exhibition catalogues and pamphlets provide an indispensable guide for theatre students practitioners and historians Indices cover designers productions actors and performers The iconography provides an indexed record of over 6000 printed plates of performers in role illustrating performance costume from the 18th to 20th century **Landscapes of Memory and Experience** Jan Birksted, 2012-12-06 It has been argued that the history of landscape and of gardens has been marginalized from the mainstream of art history and visual studies because of a lack of engagement with the theories methods and concepts of these disciplines This book explores possible ways out of this impasse in such a way that landscape studies would become pivotal through its theoretical advances since landscape studies would challenge the underlying assumptions of traditional phenomenological theory Thus the history and theory of twentieth century landscape might not only once again share concepts and methods with contemporary art and design history but might in turn influence them A complementary sequel to *Relating Architecture to Landscape* this volume of essays explores further areas of interest and discussion in the landscape architecture debate and offers contributions from a team of well known researchers teachers and writers The choice of topics is wide ranging and features case studies of modern and

contemporary schemes from the USA Far East and Australasia Reorientalism Nariman Skakov, 2025-10-28 It is commonly believed that Stalinism ended a vibrant period in Soviet avant garde art and literature The triumph of socialist realism in this view curtailed experimentation with aesthetic form and replaced it with a call for clarity accessibility and ideological conformity But Stalin's formula national in form socialist in content gave artists an opening for officially sanctioned formal innovation as long as it drew on the national cultures of the Soviet Union Nariman Skakov offers a new way to understand Soviet modernism showing how writers and artists looked to the East to renew avant garde experimentalism under Stalin He traces how figures such as Victor Shklovsky Aleksandr Rodchenko Varvara Stepanova Dziga Vertov and Sergei Eisenstein responded to the Soviet state's ideological demands by engaging with the traditions of the new socialist republics in Central Asia The concept of national form gave these artists a sanctuary for aesthetic innovation yet this experimentation relied on exoticization of the strangeness of the Soviet East and a fascination with ethnic others Recasting Soviet aesthetics from the vantage point of Central Asia Skakov rethinks orientalism and its relationship to socialism Challenging conventional narratives of the fate of the Soviet avant garde Reorientalism provides a deeply original decentering of modernism

Blueprints and Blood Hugh D. Hudson, Jr., 2015-03-08 Analyzing totalitarianism from below in a crucial area of Soviet culture Hugh Hudson shows how Stalinist forces within the architectural community destroyed an avant garde movement of urban planners and architects who attempted to create a more humane built environment for the Soviet people Through a study of the ideas and constructions of these visionary reformers Hudson explores their efforts to build new forms of housing and settlements designed to free the residents especially women from drudgery allowing them to participate in creative work and to enjoy the songs of larks Resolving to obliterate this movement of human liberation Stalinists in the field of architecture unleashed a little terror from below prior to Stalin's Great Terror Using formerly secret Party archives made available by perestroika Hudson finds in the rediscovered theoretical work of the avant garde architects a new understanding of their aims He shows for instance how they saw the necessity of bringing elite desires for a transformed world into harmony with the people's wish to preserve national culture Such goals brought their often divided movement into conflict with the Stalinists especially on the subject of collectivization Hudson's provocative work offers evidence that in spite of the ultimate success of the Stalinists the Bolshevik Revolution was not monolithic at one time it offered real architectural and human alternatives to the Terror Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Art Books** Wolfgang M. Freitag, 1997 Expanded to twice as many entries as the 1985 edition and updated with new publications new editions of

The Experimental Group Matthew Jesse Jackson,2010-07-15 Matthew Jesse Jackson s writing and quality of mind put him in the forefront of the next wave in modern art studies Thomas E Crow Institute of Fine Arts Revolutionary Acts Lynn Mally,2016-11-01 During the Russian Revolution and Civil War amateur theater groups sprang up in cities across the country Workers peasants students soldiers and sailors provided entertainment ranging from improvisations to gymnastics and from propaganda sketches to the plays of Chekhov In Revolutionary Acts Lynn Mally reconstructs the history of the amateur stage in Soviet Russia from 1917 to the height of the Stalinist purges Her book illustrates in fascinating detail how Soviet culture was transformed during the new regime s first two decades in power Of all the arts theater had a special appeal for mass audiences in Russia and with the coming of the revolution it took on an important role in the dissemination of the new socialist culture Mally s analysis of amateur theater as a space where performers their audiences and the political authorities came into contact enables her to explore whether this culture emerged spontaneously from below or was imposed by the revolutionary elite She shows that by the late 1920s Soviet leaders had come to distrust the initiatives of the lower classes and the amateur theaters fell increasingly under the guidance of artistic professionals Within a few years state agencies intervened to homogenize repertoire and performance style and with the institutionalization of Socialist Realist principles only those works in a unified Soviet canon were presented **The Utopian Globalists** Jonathan Harris,2013-01-02 THE UTOPIAN GLOBALISTS Crossing continents historical periods and cultural genres Jonathan Harris skilfully traces the evolution of utopian ideals from early modernism to the spectacularised and biennialised or banalised as some would say contemporary art world of today Michael Asbury University of the Arts London The Utopian Globalists is the second in a trilogy of books by Jonathan Harris examining the contours forces materials and meanings of the global art world along with its contexts of emergence since the early twentieth century The first of the three studies Globalization and Contemporary Art Wiley Blackwell 2011 anatomized the global art system through an extensive anthology of over 30 essays contextualized through multiple thematic introductions The final book in the series Contemporary Art in a Globalized World forthcoming Wiley Blackwell combines the historical and contemporary perspectives of the first and second books in an account focused on the mediatizations shaping and representing contemporary art and its circuits of global production dissemination and

consumption This innovative and revealing history examines artists whose work embodies notions of revolution and human social transformation The clearly structured historical narrative takes the reader on a cultural odyssey that begins with Vladimir Tatlin s constructivist model for a Monument to the Third International 1919 a statement of utopian globalist intent via Picasso s 1940s commitment to Soviet communism and John and Yoko s Montreal Bedin to what the author calls the late globalism of the Unilever Series at London s Tate Modern The book maps the ways artists and their work engaged with and offered commentary on modern spectacle in both capitalist and socialist modernism throughout the eras of the Russian Revolution the Cold War and the increasingly globalized world of the past 20 years In doing so Harris explores the idea that the utopian globalist lineage in art remains torn between its yearning for freedom and a deepening identification with spectacle as a media commodity to be traded and consumed

Malevich and Film Margarita Tupitsyn, Kazimir Severinovich Malevich, Viktor Tupitsyn, 2002-01-01 The book begins with a re evaluation of Malevich s most famous painting Black Square a work whose meaning and function was in constant flux Through Black Square Malevich began to cross the bridge from the painting medium to mechanically generated production ultimately influencing the post revolutionary phase of his Suprematism and leading to his abandonment of abstraction in the late 1920s

Literature & Photography Interactions, 1840-1990 Jane Marjorie Rabb, 1995 This remarkable book traces comprehensively for the first time the give and take between these sister arts by gathering writings about photography and photographs by and of writers from England Europe and the United States over the last century and a half
