Targeted Killings and International Law Roland Otto, 2011-12-01

Existing international law is capable to govern the war on terror also in the aftermath of September 11 2001 The standards generally applicable to targeted killings are those of human rights law Force may be used in order to address immediate threats preventive killings are permitted under strict preconditions but targeted killings are prohibited In the context of armed conflicts these standards are complemented by international humanitarian law as *lex specialis* Civilians may only be targeted while directly taking part in hostilities and posing a threat to the adversary Also in Israel and the Occupied Territory these standards apply Contrary to the Israeli Supreme Court's view international humanitarian law is not complemented by human rights law but human rights law is to some degree complemented by international humanitarian law According to these standards many killings which would be legal according to the Israeli Supreme Court violate international law The Evasion of African American Workers Roderick O. Ford, 2008-10-15 The *Evasion of African American Workers* explains through several thought provoking essays precisely how the American legal system avoids the legal mandates of Title VII of the Civil Rights Act of 1964 as well as other state and federal fair employment laws This work consists of stand alone essays which address different aspects of this problem including legal and social history and statutory construction **Spunk & Bite** Arthur Plotnik, 2009-01-06 Today's writer needs more than just a solid knowledge of usage and composition to write successfully Bestselling author Arthur Plotnik reveals the secrets to attention grabbing unforgettable writing in this trade paperback edition Updated with all new writing exercises *Spunk & Bite* will help writers take books articles business reports memos and even e mail messages to the next level Natural Language Processing and Information Systems Rafael Munoz, Andres Montoyo, Elisabeth Metais, 2011-06-22 This book constitutes the refereed proceedings of the 16th International Conference on Applications of Natural Language to Information Systems held in Alicante Spain in June 2011 The 11 revised full papers and 11 revised short papers presented together with 23 poster papers 1 invited talk and 6 papers of the NLDB 2011 doctoral symposium were carefully reviewed and selected from 74 submissions The papers address all aspects of Natural Language Processing related areas and present current research on topics such as natural language in conceptual modeling NL interfaces for data base querying retrieval NL based integration of systems large scale online linguistic resources applications of computational linguistics in information systems management of textual databases NL on data warehouses and data mining NLP applications as well as NL and ubiquitous computing *Webster's New World Thesaurus* Webster's New World, 2006-06 When you need the right word right away turn to Webster's New World Thesaurus EASY Organized alphabetically just like a dictionary with no confusing number systems ACCESSIBLE Only common words are used in the main entry list never esoteric words that you would not think of looking for COMPREHENSIVE Brims with synonyms antonyms and phrases other word finders overlook so you're never at a loss for words UP TO THE MINUTE Expanded and updated Packed with additional listings and synonyms to reflect today's latest scientific medical and other technical terms INDISPENSABLE Featuring carefully selected antonyms this is a must have reference tool that individualizes your writing
