**Textiles and Industrial Transition in Japan** Dennis L. McNamara, 2019-05-15 Most of Japan's leading textile firms date back to the turn of the century. Unlike many of their Western competitors however Japan's larger companies have survived the decline of a sector consumed by fierce international competition. Drawing on extensive interview data as well as recent Japanese and English language work in political economy and social anthropology McNamara describes a dynamic of competition between moguls and mavericks in a turbulent business torn by divisions but bound together by compromise. He finds that despite enormous international pressures the industry has maintained much of its market share largely because state bureaucrats and leaders of major firms have managed to create a cooperative politics of adjustment. A corporatist structuring of interests he concludes has helped to moderate decline and maintain stability permitting survival among the moguls without preventing the successful participation of mavericks.
