Secured Transactions Problems Materials And Cases:

Secured Transactions Thomas D. Crandall, Michael J. Herbert, 1989 **Secured Transactions** Paul Barron, Mark B. Wessman, 2011 The core of this law school casebook is an extensive set of hypothetical problems designed to force students to come to grips with Article 9 provisions directly assuming that the student has just been hired as a junior in house counsel for a mythical bank holding company It then takes the student through the series of problems generated by various lending subsidiaries The tone is light with recurring characters and footnotes which include the necessary Code citations and case citations to supplement the included materials This book is intended for teachers who want an in depth treatment of Article 9 believe Article 9 need not be drudgery either for students or instructors and have a sense of humor The new edition adds some new problems and text and includes a substantial number of recent cases and secondary sources to the footnotes that will help students both answer the problems and extend their understanding of the concepts being covered Secured Transactions Larry Bates, 2018-12-20 Secured Transactions Problems and Materials combines original material with recent cases to teach students about secured financing under Article 9 of the Uniform Commercial Code Students learn how to identify basic Article 9 issues and craft solutions for them The book begins with an explanation of secured versus unsecured financing and addresses how transactions were handled before the institution of Article 9 It then discusses specific aspects of Article 9 including its scope creating and protecting a security interest priorities exceptions fixtures proceeds and enforcement The book is built around a series of problems that connect the cases and original material to the text of Article 9 The original material clarifies and contextualizes the legal issues providing background and support The cases demonstrate how legal principles are applied in the real world enabling students to understand automatic perfection certificates of title statutory liens commercial reasonableness and more The revised first edition features updated information regarding laws and legislation as well as new cases for the chapters on repossessing fixtures and proceeds Secured Transactions successfully balances the study of law and its application It is an ideal book for foundational courses in secured transactions Larry Bates earned his J D from the Marquette University School of Law and his LL M from Harvard Law School He spent nine years in practice as a corporate bankruptcy specialist before joining the faculty of Baylor Law School where he teaches contracts and commercial law including international and domestic sales law and secured transactions Professor Bates also serves as the faculty advisor for the Baylor Law Review He has written extensively on commercial law and bankruptcy and is a member of the American Bar Association committee responsible for overseeing the National Appellate Advocacy Competition **Problems and Cases on Secured Transactions** James Brook, 2008 Straightforward back to basics approach engaging problems Problems and Cases on Secured Transactions is exactly the right casebook to introduce students To The intricacies of UCC Article 9 and modern secured financing With an artful combination of textual material detailed citations To The UCC engaging problems and questions and well edited cases James Brook demonstrates to students

that this material need not be impenetrable but can be not only completely comprehensible but enjoyable as well When you examine a copy of this casebook notice the many features that are bound to make it a tremendous asset in your classroom presents the material which so many students find daunting on first approach as easily accessible and as manageable as possible without oversimplification or avoiding difficult aspects of the topic uses the problem based approach with thoroughly engaging and imaginative scenarios that draw students in encouraging the user to appreciate goals concerns opportunities and risks from each party s perspective problems progress from simple to more complex giving students the opportunity to appreciate the common elements and internalize the idea that rules and principals learned in a simpler setting can readily be applied to more complex transactions Earlier problems lean more heavily though not exclusively On the individual and consumer borrower situations later problems include progressively more small business and large business transactions cases are heavily edited with editorial notes liberally used to fill in the blanks while maintaining the underlying story that is present in all cases helps student appreciate that the principal resource For The course is UCC Article 9 as found the statutory supplement Professor Brook reinforces the concept that the casebook is a tool to be used for study In preparing before class and during class as a guide or outline for discussion but that the law is found in the Code usable with either original or Revised version of Article 1 a comprehensive Teacher s manual and a companion website for adopters that will include regular updates and a possible forum for ongoing discussion with other users If you want an accessible engaging problem based casebook to teach secured transactions be sure to examine a copy of Problems and Cases on Secured Transactions before you teach your next course **Secured Transactions** Thomas D. Cases, Text, and Problems on Federal Income Taxation Alan Gunn,Larry D. Ward,1992 Cases and Problems on Domestic Relations Homer Harrison Clark,Carol Glowinsky,1990 Problems and Materials on Secured Transactions Linda J. Rusch,Stephen L. Sepinuck,2006 A problem oriented book with selective use of cases this new text is enhanced by extensive textual explanation and illustration to prepare students to read the code and solve the assigned problems To assist students in developing statutory construction skills several problems require the students to rewrite code provisions and others ask them to imagine a factual scenario to which a particular provision applies An in depth analysis of problems with supporting text in the teacher s manual will be helpful to new and experienced teachers alike **Uniform Commercial Code Sales and Secured Transactions** Darrell B. Johnson,1984 **Cases, Problems, and Materials on Security Interests in Personal Property** John Honnold,Steven L. Harris,Charles W. Mooney,1992 **Bowker's Law Books and Serials in Print** ,1995 *Uniform Commercial Code Sales and Secured Transactions* Darrell B. Johnson,1985 **The AALS Directory of Law Teachers** ,2006 **Secured Transactions** PAUL. WESSMAN BARRON (MARK B.. PARDO, RAFAEL.),Mark Wessman,Rafael Pardo,2021-06-03 This law school text predominantly consists of an extensive series of hypothetical problems which require students to analyze closely and carefully the provisions of Article 9 of the Uniform

Commercial Code rather than judicial interpretations of the statute in court opinions The text places students in the role of Sidney Carlson a junior in house counsel recently hired by Megabank Inc a fictitious bank holding company Throughout the book Sidney is asked to give legal advice on the problems confronted by Megabank s various lending subsidiaries most frequently in transactional settings and nonlitigation scenarios The tone is light with recurring characters and business entities Extensive footnotes refer to the Article 9 provisions as well as related state and federal law necessary to answer the problems The footnotes also refer to relevant cases and secondary sources that can be used as supplemental material
