Tashev, 2007-08-10 Addresses the possible ways to promote security cooperation in the Wider Black Sea Area The area holds major importance for Euro Atlantic security This publication is intended to provide fresh ideas on the possible areas of security cooperation

The Black Sea Region and EU Policy Carol Weaver, 2016-03-23 The Black Sea region rarely hit the media headlines until the outbreak of war in Georgia in 2008 yet its

importance as a focus of European Union EU external policy making had already been growing for several years The area is fascinating and diverse comprising both large and small states with a mixture of democracies and more authoritarian regimes Traditionally a central foreign policy concern for Russia and Turkey since the end of the Cold War the EU and the US have become increasingly involved in the many dimensions of Black Sea politics This book brings together a broad range of specialists on the region to analyze the challenge of divergent agendas both within and outside the EU More specifically it looks at how the EU's enlargement to include states on the Black Sea shore has brought about new external policies including the European Neighbourhood Policy Black Sea Synergy and the Eastern Partnership all representing subtly different aims and interests The various sections in the book also examine regionalization conflict resolution security relationships between the Black Sea's states and last but not least the vital issue of energy which has begun to dominate the discussion of the region Designed to further the debate on the future of EU policies for the Black Sea region this book is an essential resource for researchers students and others in search of a coherent picture of the inter relationship of EU initiatives and policies in the region

The Search for Security in the South Caucasus, **The Caspian Sea** William Ascher, Natalia Mirovitskaya, 2000-04-30 This volume is based on the presentations and deliberations of an Advanced Research Workshop ARW Caspian Sea A Quest for Environmental Security that was held on March 15 19 1999 in Venice Italy The Workshop was sponsored by the NATO's Division for Scientific and Environmental Affairs with additional support provided by the Trust for Mutual Understanding USA It was organized by Duke University's Center for International Development Research with the guidance of the International Committee of scientists from Russia United States Georgia and Italy and organizational assistance rendered by Venice International University The Caspian Sea region is of profound importance from the perspective of global and regional environmental security New geopolitical and economic circumstances have created a mixture of competition reluctant collaboration and legal political economic and ideological wrangling There is an intense debate over how the Caspian and its resources should be divided among littoral states and how these resources are to be developed While most littoral states and the international companies strive to develop the area's immense hydrocarbon potential it is clear that the Caspian's unique and fragile ecosystem is at risk

European Energy Security M. Biresselioglu, 2011-06-13 An exploration of Turkey's future role and impact on European energy security looking at the connection between geopolitics energy security and the EU's need for energy The book focuses on Turkey's foreign and energy policies and importance as a natural funnel through which the EU can access hydrocarbons and renewables

Security Integration in the Post-Soviet Space and Collective Security Treaty Organization Ramakrushna Pradhan, Sukanya Kakoty, 2024-08-28 This book explores the role of the Central Security Council CSTO in ensuring regional security analyzing the evolution of cooperation between post Soviet states since the Soviet Union's demise It focuses on the establishment of the CSTO as a regional organization since 2002 with six out of 11 CIS members The book fills a gap in

existing research on the security paradigm in post Soviet space and the collective security mechanism of CSTO Many western scholars have not understood the importance of multilateralism and Russia's foreign policy in maintaining security measures in the post Soviet space The book is an informative handbook on regional integration Eurasianism and CSTO for students scholars readers academicians and researchers working on this area **Central Asia and Regional Security** Mr P L Dash, Ms Anita Sengupta, Mr Murat M Bakhadirov, 2014-02-15 While security concerns have assumed salience across the globe Afghanistan's proximity to Central Asia has meant that security or perceptions of insecurity dominate the strategic discourse in the region Issues that stand out include the challenges that the Central Asian states will face in terms of stability ethnic tensions radicalization of youth destabilization of commodity flows and energy security and the impact that these could have on Central Asian society However security cannot just be defined in terms of security at the borders It needs to be defined in cosmopolitan terms through an array of issues like movements across borders radicalism within states the sharing of water and various multilateral attempts at combating insecurity This volume is an attempt to focus on some of these issues that reflect on perceptions of security principally from Indian and Uzbek positions It examines shifts over the last two decades from debates on the geopolitical importance of the region from a great game perspective to the salience of new engagements within the international arena **The DISAM Journal of International Security Assistance Management**

, 2002 **Challenges to Global Security** Hussein Solomon, 2007-10-24 Ours is an age of great upheaval where change sometimes appears to be the only constant Three of the most important forces driving such change are globalization regionalization and democratization This substantial work makes a concerted attempt to understand these forces and to show how they impact on the vitally important question of global security The volume brings together a wide range of scholars who hold diverse views and who collectively make a very significant contribution to current discourses within international relations and contemporary geopolitics Such is the book's breadth that it covers every region of the world addressing in turn security problems in the USA Latin America South Asia South East Asia Europe Russia and environs the Middle East and Africa Each discourse receives substantial coverage from economics and politics to religion religious fundamentalism and human rights Challenges to Global Security offers one of the richest comparative volumes yet to be published on the subject and will have strong appeal to students scholars and policymakers in the fields of international relations ethics and politics

Addressing Emerging Security Risks for Energy Networks in South Caucasus Jurate Novogrockiene, Eva Siaulyte, 2017-07-15 A stable and reliable energy supply is of critical importance and enhances resilience against political and economic pressures As was noted during the NATO Warsaw Summit in 2016 energy developments could have significant political and security implications for the alliance and its allies as demonstrated by the crises to NATO's east and south This book presents papers from the NATO Advanced Research Workshop Addressing Emerging Security Risks for Energy Flows over South Caucasus which took place in Tbilisi Georgia in December 2016 The workshop brought together academics

specializing in energy security practitioners dealing with energy infrastructure safety and critical energy projects NATO and EU experts and representatives from industry civil society and governmental agencies The workshop consisted of six major panels which addressed numerous issues and emphasised the importance of the energy transit function of Georgia and the South Caucasus It reviewed existing and future energy transit projects and potential flows of oil and power and debated areas of common interest and forms of cooperation between consumers producers and transit states New security challenges raised by the increased threat of terrorist activities and potential military actions were also analyzed Potential forms of cooperation to provide adequate strategic and tactical safeguards against emerging threats were identified by the participants and the book will be of interest to all those concerned with the security of our energy supplies **Research**
