Seduction Sophistry And The Woman With The Rhetorical Figure:

Seduction, Sophistry, and the Woman with the Rhetorical Figure Michelle Ballif, 2001 Ballif questions why the profession wants to retain these beliefs in the face of vociferous arguments from new rhetorics that the discipline no longer posits a foundational self or truth and in the face of the poststructuralist critique which has demonstrated that founding truth is always accomplished by first positing and then negating an other As an alternative to this negative and violent rhetorical process Ballif suggests a turn to sophistry as embodied in the figure of Woman one with the power to seduce us literally to lead astray from our truth and our demand for it **BOOK JACKET**

The Present State of Scholarship in the History of Rhetoric Lynée Lewis Gaillet, Winifred Bryan Horner, 2010-03-15 Through two previous editions *The Present State of Scholarship in Historical and Contemporary Rhetoric* has not only introduced new scholars to interdisciplinary research but also become a standard research tool in a number of fields and pointed the way toward future study Adopting research methodologies of revision and recovery this latest edition includes all new material while still following the format of the original and is constructed around bibliographical surveys of both primary and secondary works addressing the Classical Medieval Renaissance and eighteenth through twentieth century periods within the history of rhetoric *The Present State of Scholarship in the History of Rhetoric* doesn't simply update but rather recasts study in the history of rhetoric The authors experienced and well known scholars in their respective fields redefine existing strands of rhetorical study within the periods expand the scope of rhetorical engagement and include additional figures and their works The globalization and expansion of rhetoric are demonstrated in each of these parts and seen clearly in the inclusion of more female rhetors discussions of historical and contemporary electronic resources and examinations of rhetorical practices falling outside the academy and the traditional canon New to this edition is a cumulative review of twentieth century rhetoric along with a thematic index designed to facilitate interdisciplinary or specialized study and scholarly research across the traditional historical periods As programs incorporating rhetorical studies continue to expand at the university level students and researchers are in need of up to date bibliographical resources No other work matches the scope and approach of *The Present State of Scholarship in the History of Rhetoric* which carries scholarship on rhetoric into the twenty first century Jean Baudrillard Brian

Gogan, 2017-11 This work is the first book length treatment of Jean Baudrillard as a rhetorical theorist *Gorgias and the New Sophistic Rhetoric* Bruce McComiskey, 2002 In *Gorgias and the New Sophistic Rhetoric* Bruce McComiskey achieves three rhetorical goals he treats a single sophist's rhetorical techné in the context of the intellectual upheavals of fifth century bce Greece thus avoiding the problem of generalizing about a disparate group of individuals he argues that we must abandon Platonic assumptions regarding the sophists in general and Gorgias in particular opting instead for a holistic reading of the Gorgianic fragments and he reexamines the practice of appropriating sophistic doctrines particularly those of Gorgias in light of the new interpretation of Gorgianic rhetoric offered in this book In the first two chapters McComiskey

deals with a misconception based on selective and Platonic readings of the extant fragments that Gorgias's rhetorical technique involves the deceptive practice of manipulating public opinion. This popular and ultimately misleading interpretation of Gorgianic doctrines has been the basis for many neosophistic appropriations. The final three chapters deal with the nature and scope of neosophistic rhetoric in light of the non-Platonic and holistic interpretation of Gorgianic rhetoric. McComiskey postulates in his opening chapters. He concludes by examining the future of communication studies to discover what roles neosophistic doctrines might play in the twenty-first century. McComiskey also provides a selective bibliography of scholarship on sophistic rhetoric and philosophy in English since 1900. Figures of Entanglement Christopher N.

Gamble, Joshua S. Hanan, 2021-07-28 Recent and ongoing new materialisms scholarship seeks to fundamentally reshape the humanities and their relationship with the sciences. While this work comprises multiple and varied currents, one of the most important yet whose distinctive merits are arguably often underappreciated is that influenced by the theoretical physicist and feminist philosopher Karen Barad. The first volume devoted to bringing Barad's work into conversation with the disciplines of rhetoric and communication studies, this collection organizes that conversation primarily around her notion of entanglement, which encourages an understanding of meaning as inherently performative, material, and ecological. In doing so, the essays in this collection variously approach rhetoric as a figure of entanglement in ways that contribute to and enrich both rhetoric and Barad's theorizing. Topics range from politics to breast cancer genealogy, the trope of academic turns, Marx's notion of exchange, and the prehistoric emergence of human consciousness. With a new foreword by the editors and afterword by Laurie E. Gries, this collection is otherwise reprinted from the 2016 Figures of Entanglement special issue of the journal *Review of Communication*. **Liminal Bodies, Reproductive Health, and Feminist Rhetoric** Lydia

McDermott, 2016-06-22 *Liminal Bodies: Reproductive Health and Feminist Rhetoric* posits rhetoric and gynecology as sister discourses. While rhetoric has been historically concerned with the regulation of the productive male body, gynecology has been concerned with the discipline of the female reproductive body. Lydia M. McDermott examines these sister discourses by tracing key narrative moments in the development of thought about sexed bodies and about rhetorical discourse from classical myth and natural philosophy to the eighteenth and nineteenth-century decline of midwifery and the rise of scientific writing on the reproductive body. *Liminal Bodies* offers a metaphorical method of invention and criticism, a sonogram that emphasizes the voices and bodies that have been left on the margins of the dominant histories of rhetoric. The SAGE

Handbook of Gender and Communication Bonnie J. Dow, Julia T. Wood, 2006-07-19 Publisher Description Style Brian Ray, 2014-11-01 *Style: An Introduction to History, Theory, Research, and Pedagogy* conducts an in-depth investigation into the long and complex evolution of style in the study of rhetoric and writing. The theories, research methods, and pedagogies covered here offer a conception of style as more than decoration or correctness, views that are still prevalent in many college settings as well as in public discourse. *Rhetoric's Earthly Realm* Bernard Alan Miller, 2011-05-07 Plato privileges the

realm of absolute reality and truth above and beyond the world of language discourse and rhetoric For Plato earth harbors the facade of mere appearances and the evils of the bewitching powers of language In RHETORIC S EARTHLY REALM HEIDEGGER SOPHISTRY AND THE GORGIAN KAIROS Bernard Alan Miller counters this intellectual legacy with an innovative and thoroughly conceived theory of rhetoric one concerned with earth in its Heideggerian aspect complex and multifaceted at the root of a phenomenology placing the focus on earth as the power of Being itself whereby it is manifest purely as language
