Midwifery across the globe faces different issues In some countries the autonomy of the profession is a tradition while in some societies midwives struggle to practice autonomously the basic competencies In one part of the world the medicalisation of childbirth is the main issue preventing the natural processes of pregnancy and childbirth to flow at their own pace while in other parts of the world midwives struggle with lack of resources to provide safe midwifery care The authors of this book practice midwifery in different cultures and within different social contexts They have to deal with different obstacles and seek solutions to diverse problems With their contributions they offer an insight into their thinking their dilemmas and the problems of midwifery practices in their countries However despite different backgrounds they all have in common a uniform goal a wish to offer women optimal midwifery care and to improve midwifery services **The principles and practice of obstetric medicine** David Daniel Davis, 1841 *The Most Beautiful Man in Existence* Lisa Rosner, 2013-04-06 1833 Catherine Jane Hamilton returned from India to Edinburgh to seek a divorce from her husband the physician Alexander Lesassier The charge was adultery and proof for it lay in a trunk containing her husband's personal papers Catherine won her suit without difficulty and the trunk was deposited in the library of the Royal College of Physicians of Edinburgh Alexander Lesassier died in 1839 during the First Afghan War his trunk and its contents remained untouched for the next century and a half It has now been opened and a remarkable tale told in remarkable detail has spilled forth The life of Alexander Lesassier as expertly reconstructed by Lisa Rosner affords startling insight into the sensibilities of an era and of the man who in his own eyes and those of the women who adored him was its most perfect creation Affable and self absorbed engaging and ignoble Lesassier was a physician military surgeon and novelist who was also a shameless opportunist charming scoundrel seducer and survivor His is the story of a failed medical man who wanted to be something different and saw himself as entitled to more than he had someone who can always be guaranteed to make the wrong choice and then protest that he has done well This fascinating and deeply absorbing book offers rare insights into Georgian Regency and early Victorian Britain through the fortunes and misfortunes hopes and whims of the most beautiful man in existence
