Jonathan's Loves, David's Laments Dirk von der Horst, 2017-03-24 Jonathan s Loves David s Laments uses early modern musical interpretations of David s Lament over Saul and Jonathan to deepen the historicist foundations of contemporary feminist and gay relational theologies After laying out how gay theologian Gary David Comstock connects the story of David and Jonathan to the theology of lesbian theologian Carter Heyward the argument interrogates both theological and exegetical problems in making those connections which include contradictory theological stances with regard to modernity and history as well as the indeterminacy of the biblical text Early modern musical interpretations of the text allow for a double move of engaging the texts through a sensual medium thus reinforcing queer possibilities for meaning making from the biblical text and staying attuned to the fact that the

history of interpretation reinforces the indeterminacy of the text thus keeping queer interpretations aware of the relativizing function of historical difference

Hwang Byungki: Traditional Music and the Contemporary Composer in the Republic of Korea Andrew Killick, 2016-12-05

Anyone who knows anything of Korean music probably knows something of Hwang Byungki. As a composer, performer, scholar, and administrator, Hwang has had an exceptional influence on the world of Korean traditional music for over half a century. During that time, Western style music, both classical and popular, has become the main form of musical expression for most Koreans, while traditional music has taken on a special role as a powerful emblem of national identity. Through analysis of Hwang's life and works, this book addresses the broader question of traditional music's place in a rapidly modernizing yet intensely nationalistic society, as well as the issues faced by a composer working in an idiom in which the very concept of the individual composer was not traditionally recognized. It explores how new music for traditional instruments can provide a means of negotiating between a local identity and the modern world order. This is the first book in English about an Asian composer who writes primarily for traditional instruments. Following a thematic rather than a rigidly chronological approach, each chapter focuses on a particular area of interest or activity, such as Hwang's unique position in the traditional genre *kayagum sanjo*, his enduring interest in Buddhist culture and a meditative aesthetic, and his adoption of extended techniques and approaches from Western avant-garde music. It includes in-depth analysis of selected works, excerpts from which are provided on downloadable resources. The book draws on 25 years of personal acquaintance and study with Hwang Byungki, as well as experience in playing his music.
