MAKING SOCIETIES

WILLIAM G. ROY

Making Societies The Historical Construction Of Our World

Margarida Rendeiro, Federica Lupati

Making Societies The Historical Construction Of Our World:

Making Societies William G. Roy, 2001-01-23 This book shows how the social constructions of time space race gender and class intersect with each other to produce particular social phenomena that are enduring and significant for our society Leading the reader through examples drawn from around the world the author shows how these categories are social constructions historically formed ideologically loaded and subject to change *Making Societies the Historical Construction of Our World*, 2015

Making Societies William G. Roy, 2001-01-23 The only book written for undergraduates about the social construction of reality that is also historical and comparative In addition it includes chapters on the social construction of time and space as well as the more traditional chapters on race class and gender This book shows how these social constructions of time space race gender and class intersect with each other to produce particular social phenomena that are enduring and significant for our society No other book for undergraduate teaching has ever done this this is a real first If the goal of this series is to broaden the students vision no book is more ambitious toward attaining that goal than Making Societies Roy helps students question the most natural of categories time space gender race and class Leading them through examples drawn from around the world he shows how these categories are social constructions historically formed ideologically loaded and subject to change This may be profoundly unsettling for students will be encouraged to question not only what they know but also the conceptual frameworks they use when they claim to understand anything As Series Editors it is our belief that this provocation will open new ways of thinking about the social world how it is and how it might be Wendy Griswold Series Editor Northwestern University from the foreword I love the organizing concept of the social construction of reality and using a cross cultural historical comparative approach to analyzing key themes space time race gender and class I particularly like the focus on space and time first because it illustrates how deeply embedded the social construction of reality is Joanne Defiore University of Washington Bothel The book is intellectually strong it is driven by ideas and engages important processes of social life Lisa Brush University of Pittsburgh Contributor to the SAGE Teaching Innovations and Professional Development Award

Law/Society John Sutton, 2001 A core text for the Law and Society or Sociology of Law course offered in Sociology Criminal Justice Political Science and Schools of Law John Sutton offers an explicitly analytical perspective to the subject how does law change What makes law more or less effective in solving social problems What do lawyers do Chapter 1 contrasts normative and sociological perspectives on law and presents a brief primer on the logic of research and inference as it is applied to law related issues Theories of legal change are discussed within a common conceptual framework that highlights the explanatory strengths and weaknesses of different arguments Discussions of law in action are explicitly comparative applying a consistent model to explain the variable outcomes of civil rights legislation Many concrete in depth examples throughout the chapters

How Societies Change Daniel Chirot, 2011-05-27 An exploration of how societies have changed over the past five thousand years The discussion focuses on the idea that

industrial societies despite their great success have created a new set of recurring and unsolved problems which will serve as a major impetus for further social change

Women and Men at Work Irene Padavic, Barbara F. Reskin, 2002-07-09 The Second Edition of this best selling book provides a comprehensive examination of the role that gender plays in work environments This book differs from others by comparing women s and men s work status addressing contemporary issues within a historical perspective incorporating comparative material from other countries recognizing differences in the experiences of women and men from different racial and ethnic backgrounds Relying on both qualitative and quantitative data the authors seek to link social scientific ideas about workers lives sex inequality and gender to the real world workplace This new edition contains updated statistics timely cartoons and presents new scholarship in the field It also provides a renewed focus on reasons for variability in inequality across workplaces In sum the second edition of *Women and Men at Work* presents a contemporary perspective to the field with relevant comparative and historical insights that will draw readers in and connect them to the wider concern of making sense of our dramatically changing world

Classical Sociological Theory Bert N. Adams, R A Sydnie, 2002-01-29 This is an eminently lucid readable and comprehensive survey of classical sociological theory Adams and Sydnie provide thoughtful summaries and assessments of the works of dozens of social thinkers By significantly broadening the cannon and devoting special attention to call gender and race they bring theory up to date even as they take seriously the rich legacy of the past I have never read a more exciting introduction to the theories of our discipline Mustafa Emirbayer University of Wisconsin Madison A concise yet surprisingly comprehensive theory text given the range of ideas historical context and theorists discussed Unlike other books of the type *Classical Sociological Theory* focuses on how the pivotal theories contributed not only to the development of the field but also to the evolution of ideas concerning social life

Sociology for a New Century York William Bradshaw, Joseph F. Healey, Rebecca Smith, 2001-03-08 Written with the conviction that sociology can play a major role perhaps THE major role in helping college students understand how their lives are shaped by the complexities of global social forces in our new century Helps students develop an approach to thinking about social issues and evaluating claims and arguments that they can use long after the course has ended Reflects the following qualities from the sociological tradition a commitment to the principles of scientific investigation a deep concern for social issues and human welfare and a macro approach that takes account of history geography and relations between the societies and regions of the globe Strives less to introduce sociology and more to demonstrate the power and value of thinking sociologically about societies today Centers on a small number of organizing themes and principles introduced in Chapter 1 and used throughout the remainder of the text see detailed table of contents Contains 16 chapters and 7 topical essays interspersed between Chapters 1 10 The first 10 chapters are the core foundation of the text Chapters 11 15 apply sociological thinking to a series of significant global issues including war work health and population growth Chapter 16 brings the text to a close with a discussion of how individuals and organizations can create

positive change in the world Written to help teach the process of investigation the sociological craft of research critical thinking and careful analysis Rather than presenting students with answers the core Chapters 1 10 are each organized around a specific question or problem selected for its interest to students as well as its importance to the U S and the world see table of contents Thus sociological terms and concepts are introduced as they become relevant to the analysis never for their own sake The Topical Essays broaden the coverage of issues and diversity of viewpoints in the text while the book maintains its overall thematic coherence Most essays are written by leading scholars and researchers in sociology save one essayist who is an undergraduate student Tracey Dawson and one a cartoonist Nick Rutter who has illustrated Gay Seidman s essay on Sweatshops and Chapters 11 16 Active Learning Exercises extend and reinforce the emphasis on critical thinking throughout the book A Web Site specifically devoted to Sociology For a New Century provides many helpful ways students can strengthen their ability to think and see sociologically A Sociological Atlas in the back of the book provides 32 four color maps of global sociological information as well as a wealth of web sites and other information resources Graphical Displays of Social Data and informative Photographs and Cartoons throughout the chapters make learning easier and more fun Teaching Resources available upon adoption of the text contains an excellent set of various tests and an annotated set of literary and visual resources in addition to an annotated bibliography of teaching resource materials

Sociological Theory Bert N. Adams, R. A. Sydnie, 2001-01-30 This concise text covers both classical and contemporary social thought It traces the major schools of thought over the past 150 years as they appear and reappear in different chapters and looks at important new voices in social theory The treatment of individual theories and theorists is balanced with the development of key themes and ideas about social life

Contemporary Sociological Theory Bert N Adams, R A Sydnie, 2002-01-16 The strengths of this text are the breadth of theories covered the integration of gender related topics 3 4 family work religion the use of substantial quotes from primary texts the consistent inclusion of methodological issues I have no doubt that it will find a solid position in the field of theory texts Kathleen Slobin North Dakota State University

Constructing Social Research Charles C. Ragin, 1994 Ideal for capstone courses in undergraduate social science or as an invitation to social research this innovative short text shows what is common across three major traditions qualitative research on commonalities comparative research on diversity and quantitative research on relationships among variables These three strategies provide a solid foundation for the study of all social phenomena from the examination of the complexities of everyday life to the investigation of the power of transnational processes

Muslim Americans Nahid Afrose Kabir, 2016-08-12 With Islamophobia on the rise in the US since 9 11 Muslims remain the most misunderstood people in American society Taking as its point of departure the question of the compatibility of Islam and democracy this book examines Muslims sense of belonging in American society Based on extensive interview data across seven states in the US the author explores the question of what it means to be American or un American amongst Muslims offering insights into common views of community culture and wider society Through a

combination of interviewees responses and discourse analysis of print media Muslim Americans also raises the question of whether media coverage of the issue might itself be considered an American An empirically grounded study of race and faith based relations this book undertakes a rigorous questioning of what it means to be American in the contemporary US As such it will appeal to scholars of sociology and political science with interests in race ethnicity religion and national identity

Sociology and Human Rights Judith Blau, Mark Frezzo, 2011-05-11 Edited by renowned scholars Judith Blau and Mark Frezzo this groundbreaking anthology examines the implications that human rights have for the social sciences The book provides readers with a wide ranging collection of articles each written by experts in their fields who argue for an expansion of fundamental human rights in the United States To provide an international context the Sociology and Human Rights covers the human rights treaties that have been incorporated into the constitutions of many countries throughout the world including wealthy nations such as Spain and Sweden and impoverished countries such as Bolivia and Croatia

Institutional Theory Ronald L. Jepperson, John W. Meyer, 2021-04 Comprehensively collects the essential theoretical ideas of sociological neo institutionalism one of the leading approaches in social theory **The Sociology of Childhood** William A. Corsaro, 2005 The provision of many amusing examples from Corsaro's own research experience with children make his book a thoroughly enjoyable read as well as a valuable critical sociological analysis of childhood Sociology The Sociology of Childhood is the Second Edition of a text that has been universally acclaimed as the best book on the subject available today It is the only text that thoroughly covers children and childhood from a sociological perspective The second edition retains the same quality coverage of social theories of childhood the consideration of children and childhood in historical and cultural perspective children's peer cultures from preschool through preadolescence and the social problems of children The book has been updated to include new research information and discussions on the latest social indicators regarding children in the United States and around the world Key Features New chapter on up to date methods of research for studying children New chapters on theory cultural change and children's peer cultures New section on children's rights including a description and discussion of the United Nations Convention on the Rights of the Child Updated chapter on the Future of Childhood addresses current policy debates and changing demographics related to children in today's societies Contains many examples of children's actual play and behavior Provides photographs and charts that capture the complexity and diversity of children's lives The Sociology of Childhood is highly recommended for use as the core text in courses on the sociology of children and childhood as well as for parents teachers and other adults interested in the social lives and development of children It can also be used in early education child development and child psychology courses and as a supplemental text in the area of family studies William A Corsaro is the Robert H Shaffer Class of 1967 Endowed Professor of Sociology at Indiana University Bloomington where he teaches courses on the sociology of childhood childhood in contemporary society and ethnographic research methods Corsaro is the author of Friendship and Peer Culture in the Early

Years 1985 and *We're Friends Right Inside Kids Culture* 2003 He was a Fulbright Senior Research Fellow in Bologna Italy in 1983-84 and a Fulbright Senior Specialist Fellow in Trondheim Norway in 2003 His research has been featured on NPR the BBC in London and in the New Yorker

Settler Colonialism, Race, and the Law Natsu Taylor Saito, 2020-03-10 2021 Outstanding Academic Title Choice Magazine How taking Indigenous sovereignty seriously can help dismantle the structural racism encountered by other people of color in the United States *Settler Colonialism Race and the Law* provides a timely analysis of structural racism at the intersection of law and colonialism Noting the grim racial realities still confronting communities of color and how they have not been alleviated by constitutional guarantees of equal protection this book suggests that settler colonial theory provides a more coherent understanding of what causes and what can help remediate racial disparities Natsu Taylor Saito attributes the origins and persistence of racialized inequities in the United States to the prerogatives asserted by its predominantly Angloamerican colonizers to appropriate Indigenous lands and resources to profit from the labor of voluntary and involuntary migrants and to ensure that all people of color remain in their place By providing a functional analysis that links disparate forms of oppression this book makes the case for the oft cited proposition that racial justice is indivisible focusing particularly on the importance of acknowledging and contesting the continued colonization of Indigenous peoples and lands *Settler Colonialism Race and the Law* concludes that rather than relying on promises of formal equality we will more effectively dismantle structural racism in America by envisioning what the right of all peoples to self-determination means in a settler colonial state

Challenging Memories and Rebuilding Identities Margarida Rendeiro, Federica Lupati, 2019-07-11 Taking an original approach *Challenging Memories and Rebuilding Identities Literary and Artistic Voices that Undo the Lusophone Atlantic* explores a selected body of cultural works from Portugal Brazil and Lusophone Africa Contributors from various fields of expertise examine the ways contemporary writers artists directors and musicians explore canonical forms in visual arts cinema music and literature and introduce innovation in their narratives at the same time they discuss the social and historical context they belong to

Consuming St. Patrick's Day Dominic Bryan, Jonathan Skinner, 2015-10-05 There is probably no national day that has such global popularity as St. Patrick's Day On St. Patrick's Day it is reputed that Everyone is Irish What are the factors and factions that give the day such popular appeal Is St. Patrick's Day the same around the world in Japan Northern Ireland and Montserrat as it is in the Republic of Ireland and the United States Just how does Irishness figure in the celebration and commemoration of St. Patrick's Day and how has this day been commoditized consumed and contested Does St. Patrick's Day belong to the people the nation or the brewery This edited volume brings together the best St. Patrick's Day and Irish Studies scholars from the fields of history anthropology sociology Irish studies diaspora studies and cultural studies The volume thematically explores how St. Patrick's Day has been consumed from the symbolic to the literal the religious to the political By doing so it offers a fresh examination of its importance in contemporary society This volume will thus appeal to undergraduate and postgraduate students of Irish

diaspora studies and Irish historians and scholars as well as to anthropology sociology and cultural studies students interested in exploring St Patrick s Day as a case study of globalization migration and commoditization **Shared Knowledge** Class of 2020,Amy Betteridge,Gina Buckle,Megan Dunn,Juliette Flach,Phoebe Gunton,Shakira Kumar,Hannah Lawson,Caitlin Lewis,Niamh Madden,Holly Martin,Daisy Moon,Georgia Preece,Adam J. Robson,Shriya Ruparelia,Phoebe Singer,Shona Smith,Aimee Spence,Lauren Spokes,Srishti Verma,Amy Wilkinson,Zenab Anwar,2021-08-16 A lot of people know a lot of stuff and most of us don t get to share the best bits with other people So this book gets together twenty one recent graduates to share something they think you should know Among other things you can learn Why you should care about Japan s ageing population How a baby is made after the fun bit How the English and Scottish dealt with witches Why we should think about disasters a bit differently How performance analysis works in sport Our editors graduated from university in 2008 during the last once in a lifetime financial armageddon The idea behind this book was to allow recent graduates who are hitting the real world a full twelve years after it went wrong last time an opportunity to do something interesting with their time Our experience tells us the next few years worth of graduates will spend a long time being called lazy and stupid for the crime of being born about twenty one years before it all went pear shaped So for our authors at least they will have something to point at that they have achieved to disprove that But mostly we just wanted to get together twenty one chapters worth of stuff we didn t know before *The Quest for Democracy, Self-Determination, and Just Peace in Oromia and Ethiopia* Asafa Jalata,2025-06-18 This book demonstrates that the Oromo national struggle for egalitarian democracy self determination and just peace is complex mysterious and dangerous By employing a social constructionist theory of making societies and critical comparative political economic historical sociological and sociocultural approaches it impresses the importance of exposing the deficiencies of dominant social theories and systems of knowledge production and asserts that until the intellectuals of the colonized communities develop critical knowledge for human liberation by decolonizing the minds of the oppressed and the modern sciences which help perpetuate ignorance domination and exploitation there cannot be true human liberation and egalitarian democracy

Making Societies The Historical Construction Of Our World Book Review: Unveiling the Magic of Language
