Pachuco An American Spanish Argot And Its Social Functions In Tucson Arizona:

Pachuco George Carpenter Barker, 1950 George Carpenter Barker's first major research project was field work in Tucson Arizona on the function of language in a situation of culture contact. The results of his doctoral dissertation *Social Functions of Language in a Mexican American Community*. The data and conclusions presented in his dissertation showed his perceptiveness in cross cultural situations. He conducted additional field work on the social functions of language in cross cultural situations in Tucson in 1947-48. This work centered around interviews with Mexican American youths. Barker's quiet friendliness and understanding won the confidence of boys who were operating at the fringes and who were his informants for this *Pachuco* study.

Social Functions of Language in a Mexican-American Community George Carpenter Barker, 1972-08-01 *Social Functions of Language in a Mexican American Community* is an inquiry into how language functions in the life of a bilingual minority group in process of cultural change. This study investigated the acculturation and assimilation of individuals of Mexican descent living in Tucson Arizona. Specifically the language usage and interpersonal relations of individuals from representative families in the bilingual community of Tucson, the usage of bilingual social groups in the community and the linguistic and cultural contacts between bilinguals and members of the larger Tucson community were examined. Data were drawn from observational studies of individuals and families, observation of group activities and observation of supplemented by questionnaires on the cultural interests of Mexican children and their families. Some conclusions of the study were that Spanish came to be identified in the Mexican community as the language of intimate and family relations while English came to be identified as the language of formal social relations and of all relations with Anglos. It was also found that the younger American born group reject both Spanish and English in favor of their own language. *Pachuco* Tables depicting the characteristics of 20 families, the language usage of families and the language usage in personal relationships of English and Spanish are included. Suggestions for further research are made.

[Pachucas and Pachucos in Tucson](#) Laura L. Cummings, 2015-10-19 When the Zoot Suit Riots ignited in Los Angeles in 1943 they quickly became headline news across the country. At their center was a series of attacks by U.S. Marines and sailors on young Mexican American men who dressed in distinctive suits and called themselves pachucos. The media of the day portrayed these youths as miscreants and hoodlums. Even though the outspoken First Lady Eleanor Roosevelt quickly labeled them victims of race riots, the initial portrayal has distorted images ever since. A surprising amount of scholarship has reinforced those images, writes Laura Cummings, proceeding from what she calls the deviance school of thought. This innovative study examines the pachuco phenomenon in a new way. Exploring its growth in Tucson, Arizona, the book combines ethnography, history and sociolinguistics to contextualize the early years of the phenomenon, its diverse cultural roots and its language development in Tucson. Unlike other studies, it features first person research with men and women who, despite a wide span of ages, self-identify as pachucos and pachucas. Through these interviews and her archival research, the author finds that

pachuco culture has deep roots in Tucson and the Southwest And she discovers the importance of the pachuco cal language variety to a shared sense of pachuquismo Further she identifies previously neglected pachuco ties to indigenous Indian languages and cultures in Mexico and the United States Cummings stresses that the great majority of people conversant with the culture and language do not subscribe to the dynamics of contemporary hardcore gangs but while zoot suits are no longer the rage today the pachuco language and sensibilities do live on in Mexican American communities across the Southwest and throughout the United States
