Transnational European Cinema Huw D. Jones,2024-01-03 This book explores how audiences in

contemporary Europe engage with films from other European countries. It draws on admissions data, surveys and focus group discussions from across the continent to explain why viewers are attracted to particular European films, nationalities and genres including action, adventures, family films, animations, biopics, period dramas, thrillers, comedies, contemporary drama and romance. It also examines how these films are financed, produced and distributed, how they represent Europe and other Europeans and how they affect audiences. Case studies range from mainstream movies like *Skyfall*, *Taken*, *Asterix Obelix*, *God Save Britannia* and *Sammy's Adventures*, *A Turtle's Tale* to more middlebrow and arthouse titles such as *The Lives of Others*, *Volver*, *Coco Before Chanel*, *The Girl with the Dragon Tattoo*, *Intouchables*, *The Angels Share*, *Ida*, *The Hunt* and *Blue Is the Warmest Colour*. The study shows that watching European films can sometimes improve people's understandings of other countries and make them feel more European. However, this is limited by the strong preference for Anglo-American action adventures that offer few insights into the realities of European life. While some popular European arthouse films explore a wider range of nationalities, social issues and historical events, these mainly appeal to urban dwelling graduates. They can also sometimes accentuate tensions between Europeans instead of bringing them together. The book discusses what these findings mean for the European film industry, audiovisual policy and scholarship on transnational and European cinema. It also considers how surveys, focus groups, databases and other methods that go beyond traditional textual analysis can offer new insights into our understanding of film.

Catalogue of Engraved Portraits D. R. Meyers, 1903 *Political cartoons and the Israeli-Palestinian conflict* Ilan Danjoux, 2018-07-30 Do political cartoons predict violence? To answer this question, Ilan Danjoux examined over 1200 Israeli and Palestinian editorial cartoons to explore whether changes in their content anticipated the outbreak of the Al Aqsa Intifada in October of 2000. Despite stark differences in political, economic and social pressures, a notable shift in focus, style and tone accompanied the violence. With numerous illustrations and detailed methodology, *Political Cartoons and the Israeli-Palestinian Conflict* provides readers an engaging introduction to cartoon analysis and a novel insight into the Israeli-Palestinian conflict. In a region fraught with contested realities, the cartoon's ability to capture the latent fears and unspoken beliefs of these antagonists offers a refreshing perspective on how both Israelis and Palestinians perceived each other and their chances for peace on the eve of the Second Intifada.
