as aquatint and lithography as well as the production of beautiful examples of line engraving and woodcut The eighteenth and nineteenth centuries saw the establishment and expansion of major ports not just in Britain but in continental Europe Africa Asia Australia and in North and South America The National Maritime Museum upon which collection this book is based is at the centre of the preservation and display of Britain s maritime heritage Its print collection reveals the firm link between art and commerce in the development of these ports The Connoisseur ,1952 **Dictionary Catalog of the Art and Architecture Division** New York Public Library.
