*Paintings on the Move* Susanne Zantop, 1989      *Paintings on the Move* Susanne Zantop, 1989      *Heinrich Heine and the World Literary Map* Azade Seyhan, 2019-01-14 This text provides a key reassessment of the German author Heinrich Heine's literary status arguing for his inclusion in the Canon of World Literature. It examines a cross section of Heine's work in light of this debate highlighting the elusive and ironic tenor of his many faceted prose works from his philosophical and political satire to his reassessment of Romantic idealism in Germany and the unique self reflexivity of his work. It notably focuses on the impact of exile belonging exclusion and censorship in Heine's work and analyzes his legacy in a world literary context comparing his poetry and prose with those of major modern writers such as Pablo Neruda Naz m Hikmet or Walter Benjamin who have all been persecuted and exiled yet used their art as resistance against oppression and silencing. At a time when a premium is placed on the value of world literatures and transnational writing Heine emerges once again as a writer ahead of his time and of timeless appeal      *Heinrich Heine* Jeffrey L. Sammons, 2006      *Picturing Science, Producing Art* Peter Galison, Caroline A. Jones, 2014-02-04 Between the disciplines of art history and the history of science lies a growing field of inquiry into what science and art share as both image making and knowledge producing activities. The contributors of *Picturing Science Producing Art* occupy this intermediate zone to analyze both scientific and aesthetic representations utilizing disciplinary perspectives that range from art history to sociology history and philosophy of science to gender studies cultural history to the philosophy of mind. Organized in five sites Styles The Body Seeing Wonders Objectivity Subjectivity and Cultures of Vision their topics extend from Cinquecento theories of female reproduction to the technologies of cloning from medieval depictions of the stigmata to electrical metaphors for sex from astronomical drawings to radioencephalography from Phoenician griffons carved in ivory to factories cast in concrete. The internationally renowned contributors go beyond both science wars and culture wars by exploring substantive links between systems of visual representation and knowledge in science and art. Contributors include Svetlana Alpers Jonathan Crary Arnold Davidson Carlo Ginzburg Donna Haraway Bruno Latour and Simon Schaffer      **The Harz Journey and Selected Prose** Heinrich Heine, 2006-06-29 A poet whose verse inspired music by Schubert Schumann Mendelssohn and Brahms Heinrich Heine 1797 1856 was in his lifetime equally admired for his elegant prose. This collection charts the development of that prose beginning with three meditative works from the *Travel Pictures* inspired by Heine's journeys as a young man to Lucca Venice and the Harz Mountains. Exploring the development of spirituality the later *On the History of Religion and Philosophy in Germany* spans the earliest religious beliefs of the Germanic people to the philosophy of Hegel and warns with startling force of the dangers of yielding to primeval Germanic paganism. Finally the *Memoirs* consider Heine's Jewish heritage and describe his early childhood. As rich in humour satire lyricism and anger as his greatest poems together the pieces offer a fascinating insight into a brilliant and prophetic mind      *The Gamin de Paris in Nineteenth-Century Visual Culture* Marilyn R. Brown, 2017-05-08 The revolutionary boy at

the barricades was memorably envisioned in Eugène Delacroix's painting *Liberty Leading the People* 1830 and Victor Hugo's novel *Les Misérables* 1862. Over the course of the nineteenth century images of the Paris urchin entered the collective social imaginary as cultural and psychic sites of memory whether in avant garde or more conventional visual culture. Visual and literary paradigms of the mythical gamin de Paris were born of recurring political revolutions 1830 1832 1848 1871 and of masculine bourgeois identity constructions that responded to continuing struggles over visions and fantasies of nationhood. With the destabilization of traditional patriarchal family models the diminishing of the father's symbolic role and the intensification of the brotherly urchin's psychosexual relationship with the allegorical motherland what had initially been socially marginal eventually became symbolically central in classed and gendered inventions and repeated re-inventions of fraternity, people and nation. Within a fundamentally split conception of the people the bohemian boy insurrectionary, an embodiment of freedom, was transformed by ongoing discourses of power and reform of victimization and agency into a capitalist entrepreneur, schoolboy, colonizer and budding military defender of the fatherland. A contested figure of the city became a contradictory emblem of the nation.

**Reading Heinrich Heine** Anthony Phelan, 2007-03-01. This book is a comprehensive study of the nineteenth century German poet Heinrich Heine. Anthony Phelan examines the complete range of Heine's work from the early poetry and *Pictures of Travel* to the last poems including personal polemic and journalism. Phelan provides original and detailed readings of Heine's major poetry and throws fresh light on his virtuoso political performances that have too often been neglected by critics. Through his critical relationship with Romanticism Heine confronted the problem of modernity in startlingly original ways that still speak to the concerns of post-modern readers. Phelan highlights the importance of Heine for the critical understanding of modern literature and in particular the responses to Heine's work by Adorno, Kraus and Benjamin. Heine emerges as a figure of immense European significance whose writings need to be seen as a major contribution to the articulation of modernity.

Philosophy and Revolution Stathis Kouvelakis, 2019-01-29.

Throughout the nineteenth century German philosophy was haunted by the specter of the French Revolution. Kant, Hegel and their followers spent their lives wrestling with its heritage, trying to imagine a specifically German path to modernity, a revolution without revolution. Trapped in a politically ossified society, German intellectuals were driven to brood over the nature of the revolutionary experience. In this ambitious and original study, Stathis Kouvelakis paints a rich panorama of the key intellectual and political figures in the effervescence of German thought before the 1848 revolutions. He shows how the attempt to chart a moderate reformist path entered into crisis, generating two antagonistic perspectives within the progressive currents of German society. On the one side were those socialists among them Moses Hess and the young Friedrich Engels who sought to discover a principle of harmony in social relations, bypassing the question of revolutionary politics. On the other side, the poet Heinrich Heine and the young Karl Marx developed a new perspective articulating

revolutionary rupture proletarian hegemony and struggle for democracy thereby redefining the very notion of politics itself

Heine and Critical Theory Willi Goetschel, 2019-02-21 Heinrich Heine's role in the formation of Critical Theory has been systematically overlooked in the course of the successful appropriation of his thought by Marx Nietzsche Freud and the legacy they left in particular for Adorno Benjamin and the Frankfurt School This book examines the critical connections that led Adorno to call for a reappraisal of Heine in a 1948 essay that published posthumously remains under examined Tracing Heine's Jewish difference and its liberating comedy of irreverence in the thought of the Frankfurt School the book situates the project of Critical Theory in the tradition of a praxis of critique which Heine elevates to the art of public controversy Heine's bold linking of aesthetics and political concerns anticipates the critical paradigm assumed by Benjamin and Adorno Reading Critical Theory with Heine recovers a forgotten voice that has theoretically critical significance for the formation of the Frankfurt School With Heine the project of Critical Theory can be understood as the sustained effort to advance the emancipation of the affects and the senses at the heart of a theoretical vision that recognizes pleasure as the liberating force in the fight for freedom
