Al Jumu'ah ,2003-03

Political Conflict in Pakistan Mohammad Waseem,2022-04-01 This book is a major reinterpretation of politics in Pakistan Its focus is conflict among groups communities classes ideologies and institutions which has shaped the country s political dynamics Mohammad Waseem critically examines the theory surrounding the millennium long conflict

between Hindus and Muslims as separate nations who practiced mingled faiths and the Hindu Muslim and Sikh renaissances that created a twentieth century clash of communities and led to partition Political Conflict in Pakistan addresses multiple clashes between the high culture as a mission to transform society and the low culture of the land and the people between those committed to the establishment's institutional constitutional framework and those seeking to dismantle the colonial state between the corrupt and those seeking to hold them to account between the political class and the middle class and between civil and military power The author exposes how the ruling elite centralised power through the militarisation and judicialization of politics rendering the federalist arrangement an empty shell and thus grossly alienating the provinces He sets all this within the contexts of education and media as breeders of conflict the difficulties of establishing an anti terrorist regime and the state's pragmatic attempts at conflict resolution by seeking to keep the outsiders inside This is a wide ranging account of a country of contestations

Being Bengali Mridula Nath Chakraborty, 2014-03-26 Bengal has long been one of the key centres of civilisation and culture in the Indian subcontinent However Bengali identity Bengaliness is complicated by its long history of evolution the fact that Bengal is now divided between India and Bangladesh and by virtue of a very large international diaspora from both parts of Bengal This book explores a wide range of issues connected with Bengali identity Amongst other subjects it considers the special problems arising as a result of the division of Bengal and concludes by demonstrating that there are many factors which make for the idea of a Bengali identity

Spatial Politics in the Postcolonial Novel Sara Upstone, 2016-04-01 In her innovative study of spatial locations in postcolonial texts Sara Upstone adopts a transnational and comparative approach that challenges the tendency to engage with authors in isolation or in relation to other writers from a single geographical setting Suggesting that isolating authors in terms of geography reinforces the primacy of the nation Upstone instead illuminates the power of spatial locales such as the journey city home and body to enable personal or communal statements of resistance against colonial prejudice and its neo colonial legacies While focusing on the major texts of Wilson Harris Toni Morrison and Salman Rushdie in relation to particular spatial locations Upstone offers a wide range of examples from other postcolonial authors including Michael Ondaatje Keri Hulme J M Coetzee Arundhati Roy Tsitsi Dangarembga and Abdulrazak Gurnah The result is a strong case for what Upstone terms the postcolonial spatial imagination independent of geography though always fully contextualised Written in accessible and unhurried prose Upstone's study is marked by its respect for the ways in which the writers themselves resist not only geographical boundaries but academic categorisation

Nation Against Nation Thomas M. Franck, 1985-04-11 The American public has become increasingly disenchanted with the United Nations Some responsible sources in this country are already advocating withdrawal from U N agencies and perhaps even from the entire system This book by the former Director of Research at UNITAR the U N's think tank examines the record of the U N during its first 40 years in the clear light of American national interest Franck offers a balance sheet which confirms that the U N during its first 40 years in the clear light of American national interest Franck offers a balance sheet which confirms that the U N often operates in a way that undermines respect for individual human rights and hampers conflict resolution At the same time he does not shrink from showing that the fault frequently lies with the United States itself He shows how the U S helped form the U N with unrealistic views of what it could do how for a decade or more the U S was able to use the U N essentially as a tool and adjunct to its foreign policy and how Washington failed to predict and plan for the inevitable shift in power at the U N led by the newly emergent Third World nations Franck warns of the American penchant for treating international relations as a series of unrelated encounters instead of an ongoing institutionalized system in which the tactics and outcome of one crisis inevitably affect the way the next context is played out Today the U S and its allies are often the butt of antagonisms that the U N system seems to encourage and exaggerate Nevertheless Franck shows that even now the U S position in the U N is far from hopeless and he provides a blueprint for a strategy of playing hard ball which is far more realistic than abandoning the world organization

Nation and Its Modes of Oppressions in South Asia Sajal Nag, 2022-12-30 This volume examines nationhood as a concept and how it became the basis of political discourse in South Asia It studies the emergence of nationalism in modern states as a powerful omnipotent and omnipresent form of political identity in the nineteenth and twentieth centuries This book examines the idea of a nation as it originated in medieval Europe as an unending process of othering individuals groups and communities to establish its hegemony exclusivity and absolute power within a political discourse It sheds light on how these new political frameworks in the name of nationalism resulted in conflicts and bloodshed It unleashed politics of retribution and facilitated majoritarianism minority persecution and collective authoritarianism which

devastated individuals and collectivities Further the author also discusses various prominent ideas and contemporary theories on nationalism alongside pivotal socio cultural factors which have significantly shaped the formation of modern nation states and their politics Topical and nuanced this book will be indispensable to researchers scholars and readers interested in nationalism political science modern history political theory political philosophy political sociology political history post colonial studies and South Asia studies
