Pakistan Democracy Development And Security Issues:

Pakistan Veena Kukreja,2005 Political Survival in Pakistan Anas Malik,2010-10-22 Presenting a framework that incorporates macro level forces into micro level strategic calculations this book explains key political choices by leaders and challengers in Pakistan through the political survival mechanism It offers an explanation for continuing polity weakness in the country and describes how political survival shapes the choices made by the leaders and challengers Using a unique analysis that synthesizes theories of weak states quasi states and political survival the book extends beyond rationalist accounts and the application of choice theoretical approaches to developing countries It challenges the focus on ideology and suggests that diverse religiously and ethnically defined affinity groups have interests that are represented in particular ways in weak state circumstances Extensive interviews with decision makers and polity participants combined with narrative accounts allow the author to examine decision making by leaders in a state bureaucratic machinery context as well as the complex mechanisms by which dissident affinity groups may support quasi state options This study can be used for comparisons in Islamic contexts and presents an interesting contribution to studies on South Asia as well as Political Development *Pakistan in Regional and Global Politics* Rajshree Jetly,2012-04-27 Pakistan is at currently at the centre of regional and global geo strategic issues as a frontline state in the global war on terrorism It is seeking to project itself as a modern Islamic state that can engage both the Islamic bloc and the western world in the post 9 11 era This book addresses some questions under the broad rubric of International Relations and Security It focuses on four themes Pakistan and global security Pakistan s international relations politics and identity in Pakistan and economic development of Pakistan Leading international experts have contributed articles within the framework of these themes *Global Security Watch—Pakistan* Syed Farooq Hasnat,2011-05-26 This book details the domestic security concerns of Pakistan encompassing the dangers of insurgencies the effects of religious extremism and terrorism and the malfunction of its political institutions In recent years Pakistan has emerged as a major security concern for the United States The acts of terrorism that originate in Pakistan and its culture of extremism cause serious apprehension for the international community as well Pakistan s ability to combat extremism within its borders and its policy towards Afghanistan will also play a large role in determining the success of U S military actions in Afghanistan This volume will be the first to deal with a variety of emerging security issues of the country and their regional and international implications This volume examines the issues of utmost importance for Pakistan s stability and strategic balance and explains their significance from the global perspective Each chapter in this book addresses specific security challenges of Pakistan both domestic and international **Islamism and Intelligence in South Asia** Prem Mahadevan,2018-05-10 State sponsorship of terrorism is a complex and important topic in today s international affairs and especially pertinent in the regional politics of the Middle East and South Asia where Pakistan has long been a flashpoint of Islamist politics and terrorism In *Islamism and Intelligence in South Asia* Prem Mahadevan demonstrates how

over several decades radical Islamists sometimes with the tacit support of parts of the military establishment have weakened democratic governance in Pakistan and acquired progressively larger influence over policy making Mahadevan traces this history back to the anti colonial Deobandi movement which was born out of the post partition political atmosphere and a rediscovery of the thinking of Ibn Taymiyyah and partially ennobled the idea of jihad in South Asia as a righteous war against foreign oppression Using Pakistani media and academic sources for the bulk of its raw data and reinforcing this with scholarly analysis from Western commentators the book tracks Pakistan's trajectory towards a soft Islamic revolution Envisioned by the country's intelligence community as a solution to chronic governance failures these narratives called for a re orientation away from South Asia and towards the Middle East In the process Pakistan has become a sanctuary for Arab jihadist groups such as Al Qaeda who had no previous ethnic or linguistic connection with South Asia Most alarmingly official discourse on terrorism has been partly silenced by the military intelligence complex The result is a slow drift towards extremism and possible legitimization of internationally proscribed terrorist organizations in Pakistan's electoral politics

Globalisation and Defence in the Asia-Pacific Geoffrey Till, Emrys Chew, Joshua Ho, 2009 Federalism in South Asia Mahendra Prasad Singh, Veena Kukreja, 2014-08-07 This book is one of the first in depth and systematic studies on the functioning and aspiring federations of South Asia It examines how federal dynamics in India Pakistan Nepal and Sri Lanka are impinged on by the nature of their specific constitutions their societal political and cultural fabrics composition of power elites and ruling classes structures of political economy and market electoral and party systems mass media and information technology The authors offer a comparative analytical conceptual and theoretical framework to understand patterns and trends as also experiences of and possibilities for federalism in South Asia They highlight divergences and similarities successes and key challenges while indicating federalism's wider regional relevance in the discourse on democracy and governance The book concludes that the multicultural character of these societies beset with ethnic and regional conflicts separatist and military undercurrents makes federal political solutions the only viable route Providing a wealth of material this will deeply interest scholars students and teachers of comparative politics political science federal studies area studies as well as those interested in political structures and processes in South Asia *Democratic Accountability and International Human Development* Kamran Afzal, Mark Considine, 2014-11-27 Scholars and policymakers have long known that there is a strong link between human development and spending on key areas such as education and health However many states still neglect these considerations in favour of competing priorities such as expanding their armies This book examines how states arrive at these decisions analysing how democratic accountability influences public spending and impacts on human development The book shows how the broader paradigm of democratic accountability extending beyond political democracy to also include bureaucratic and judicial institutions as well as taxation and other modes of resource mobilisation can best explain how states allocate public resources for human development Combining cross country

regression analysis with exemplary case studies from Pakistan India Botswana and Argentina the book demonstrates that enhancing human capabilities requires not only effective party competition and fair elections but also a particular nesting of public organisational structures that are tied to taxpaying citizens in an undisturbed chain of accountability It draws out vital lessons for institutional design and our approach to the question of human development particularly in the less developed states This book will be of great interest to postgraduate students and researchers in the fields of political economy public policy governance and development It also provides valuable insights for those working in the international relations field including inside major aid and investment organisations

Mainstreaming the Tribal Areas (ex-FATA) of Pakistan

Bordering Afghanistan Asghar Khan, 2022-08-23 The book addresses why the Pakistani state is facing persistent challenges in extending and consolidating its governance authority throughout its territories especially in the former Federally Administered Tribal Areas ex FATA Even after the de jure merger the question still remains valid that how Pakistani state could establish its governance in these tribal areas Through multi dimensional approaches and multi pronged analysis of state centric top down society centric bottom up and state in society mixed horizontal approaches the book explains factors and dimensions that pose challenges to Pakistani state governance in ex FATA The main hypothesis is that societies where state governance is absent turn to informal governance and create informal institutions as a substitute for the weak central state governance thereby challenging the domination and control authority of the state The book presents policy recommendations for bringing these tribal areas into the mainstream governance system of Pakistan

South Asia's Weak

States T. V. Paul, 2010-08-09 South Asia which consists of eight states of different sizes and capabilities is characterized by high levels of insecurity at the inter state intra state and human level insecurity that is manifest in both traditional and non traditional security problems especially transnational terrorism fuelled by militant religious ideologies To explain what has caused and contributed to the perpetual insecurity and human suffering in the region this book engages scholars of international relations comparative politics historical sociology and economic development among others to reveal and analyze the key underlying and proximate drivers It argues that the problems are driven largely by two critical variables the presence of weak states and weak cooperative interstate norms Based on this analysis and the conclusions drawn the book recommends specific policies for making the region secure and for developing the long lasting inter and intra state cooperative mechanisms necessary for the perpetuation of that security

The DISAM Journal of International Security Assistance Management ,2003 **Assessing energy and security issues in Central Asia** United States. Congress. House. Committee on International Relations. Subcommittee on the Middle East and Central Asia,2006 **Rethinking Middle Powers in the Asian Century** Tanguy Struye de Swielande,Dorothee Vandamme,David Walton,Thomas Wilkins,2018-09-27 The term middle power is conceptually fragile Some scholars have even argued for abandoning it This book argues that the concept needs to be analysed more profoundly and that new analytical tools need to be developed to better understand the phenomenon The traditional approach based on Western states is insufficient and has become increasingly irrelevant in a transformed global environment Instead of drawing from a single

theory of international relations the contributors have chosen to build upon a wide range of theories in a deliberate demonstration of analytic eclecticism A pluralistic approach provides stronger explanations while remaining analytically and intellectually rigorous Many of the theory contributions are reconsidering how the largely Western bases of such theorising need revising in light of the emerging middle powers many of which are in Asia Presenting a strong argument for studying middle powers this book explores both the theory and empirical applications of the concept by rethinking the definition and characteristics of middle powers using a range of case studies It examines changes in the study of middle powers over the last decade proposing to look at the concept of middle powers in a coherent and inclusive manner Finally it aims to further the discussion on the evolution of the international system and provides sound conclusions about the theoretical usefulness and empirical evolution of middle powers today

Budgeting for Indian Defence V. N. Srinivas, 2008 Defence Budget is one of the most important segments of government expenditure in India Firstly it is to do with the secretive nature of information pertaining to defence related issues The second reason is due to general apathy towards defence related issues From the national security point of view it is important that issues concerning defence are debated more widely that could lead to viable decision and policy making besides ensuring accountability by those in power Contrary to popular perception a large amount of data both official and otherwise is indeed available through open sources to facilitate such a process It is with this focus as a backdrop the current book addresses certain pertinent issues concerning defence budgeting process in the country

Awkward Powers: Escaping Traditional Great and Middle Power Theory Gabriele Abbondanza, Thomas Stow Wilkins, 2021-10-04 This book introduces the editors new concept of Awkward Powers By undertaking a critical re examination of the state of International Relations theorising on the changing nature of the global

power hierarchy it draws attention to a number of countries that fit awkwardly into existing but outdated categories such as great power and middle power. It argues that conceptual categories pertaining to the apex of the international hierarchy have become increasingly unsatisfactory and that new approaches focusing on such Awkward Powers can both rectify shortcomings on power theorising whilst shining a much needed theoretical spotlight on significant but understudied states. The book's contributors examine a broad range of empirical case studies including both established and rising powers across a global scale to illustrate our conceptual claims. Through such a novel process we argue that a better appreciation of the de facto international power hierarchy in the 21st century can be achieved.
