Pakistan's Democracy at Work Kanwal Kishore Bhardwaj, 1998-01-01 **Pakistan** Great Britain: Parliament: House of Commons: International Development Committee, 2013-04-04 Britain enjoys a close relationship and has long established ties with Pakistan which has real poverty and serious security problems But the Committee is concerned that not enough tax is raised in Pakistan to fully finance improvements in the quality of life for poor people Accordingly the UK Government is called to work with other donor countries to encourage joint and concerted efforts to require progress on tax policy and revenue collection within Pakistan use its influence within the International Monetary Fund to ensure this key institution also presses for urgent reform of Pakistan's tax system support a nationwide strategic communication plan within Pakistan to explain the need and benefits of tax policy change and to build domestic political momentum for reform Furthermore it is vital for Pakistan and its relations with external aid donors that it provides clear evidence that it will own and implement an effective anti corruption strategy DFID must likewise set measurable targets against which to measure and confirm positive impacts arising from effective investment in anti corruption measures In more detailed comments the value delivered by the DFID Maternal and New born Health Programme is acknowledged but scepticism is expressed about recent efforts to scale up at a provincial level Closer to home the Committee also calls on UK DFID to explore innovative ways to work more closely with the UK Pakistani diaspora to improve their participation in monitoring DFID projects and where appropriate to align diaspora funding and remittance flows to Pakistan with DFID supported programmes *Pakistan, Islamisation, Army and Foreign Policy* Bidanda M. interpretive communities or to supplant these understandings with the author's version of what Pakistan is. Instead, this study focuses on investigating how the identity of Pakistan is fixed or stabilized via practices of the interpretive communities. In other words, this book attempts to address the following questions: How is the knowledge on Pakistan produced discursively? How is this knowledge represented in the writings on Pakistan? What are the conditions under which it is possible to make authoritative claims about Pakistan?

Communism in Pakistan Kamran Asdar Ali, 2015-05-27 Pakistan today stands at a critical juncture in its short history of existence. While much has been written about Pakistan, little is known about Communism or left-leaning politics in the country post Partition, which played a key role in shaping Pakistani politics today. Kamran Asdar Ali here presents the first extensive look at Pakistan's communist and working class movement. The author critically engages with the history of Pakistan's early years while paying special attention to the rise and fall of the Communist Party of Pakistan (CPP) from Partition in 1947 to the aftermath of Bangladesh's independence in 1971. Since its formation in 1947 as a homeland for South Asian Muslims, Pakistan has been a configuration of shifting alliances and competing political and social ideologies. Pakistan has experienced three military takeovers and is plagued with geopolitical conflict from Kashmir to Baluchistan, Waziristan, and while these aspects of Pakistan make headlines in order to understand the complexities of these events, it is vital to understand the state's relationship throughout history with its divergent political and ethnic voices. One dominant feature of the state along with its emphasis on the Islamic nature of its polity has been the non-resolution of its ethnic problem, while the history of Pakistan is often viewed through the lens of unified Muslim nationalism. The author here also explores the history of Pakistan's often tense relationship with its various ethnic groups: Baluch, Pathan, Sindhis, Punjabis, and Bengalis. Shedding light on a vital and little-researched aspect of Pakistani history, this book shows that military coups, Islamic radicalization, and terrorist activities do not constitute the sum total of Pakistan's history; that it too has had a history that included the activities of communist intellectuals and activists.

The Future of Pakistan Stephen P. Cohen, 2011-10-01 With each passing day, Pakistan becomes an even more crucial player in world affairs. Home of the world's second largest Muslim population, epicenter of the global jihad, location of perhaps the planet's most dangerous borderlands, and armed with nuclear weapons, this South Asian nation will go a long way toward determining what the world looks like ten years from now. *The Future of Pakistan* presents and evaluates several scenarios for how the country will develop, evolve, and act in the near future, as well as the geopolitical implications of each. Led by renowned South Asia expert Stephen P. Cohen, a team of authoritative contributors looks at several pieces of the Pakistan puzzle. The book begins with Cohen's broad yet detailed overview of Pakistan, placing it within the context of current day geopolitics and international economics. Cohen's piece is then followed by a number of shorter, more tightly focused essays addressing more specific issues of concern. Cohen's fellow contributors hail from America, Europe, India, and Pakistan itself, giving the book a uniquely international and comparative perspective. They address critical factors such as the role and impact of radical groups and

milantants developments in specific key regions such as Punjab and the rugged frontier with Afghanistan and the influence of and interactions with India Pakistan s archrival since birth The book also breaks down relations with other international powers such as China and the United States The all important military and internal security apparatus come under scrutiny as do rapidly morphing social and gender issues Political and party developments are examined along with the often amorphous division of power between Islamabad and the nation s regions and local powers Uncertainty about Pakistan s trajectory persists The Future of Pakistan helps us understand the current circumstances the relevant actors and their motivation the crit

A comparative study of elite English-medium schools, public schools, and Islamic madaris in contemporary Pakistan Akhtar Hassan Malik, 2015-04-12 This ethnographic study examines the role of differing school knowledge in reproducing various social classes in the society It was observed that an unequal availability of capital resources agents class habitus and the type of their cultural currency act as selection mechanisms that clearly favour some social groups over others The ruling classes ensure the transfer of their power and privilege to their children by providing them with quality education in elite schools The disadvantaged classes are excluded from these unique institutions by both social and economic sanctions They have no other option than to educate their children either in public schools or Islamic madaris As a result inequitable educational opportunities consolidate the existing social class hierarchy

The UK's foreign policy approach to Afghanistan and Pakistan Great Britain: Parliament: House of Commons: Foreign Affairs Committee, Richard Ottaway, 2011-03-02 In this report the Foreign Affairs Committee calls on the British Government to use its influence to persuade the US to engage more fully and swiftly with the process of political reconciliation in Afghanistan if the US wishes to disengage its forces there Although the current international emphasis favours intense military pressure aimed at defeating the insurgency it is clear that military pressure alone is not enough to bring security and stability to Afghanistan The evidence presented to the Committee has suggested that the current full scale and highly intensive ISAF counter insurgency campaign is not succeeding The Committee question the fundamental assumption that success in Afghanistan can be bought through a strategy of clear hold and build The distinction between al Qaeda and the Taliban is crucial to generating appropriate policy responses in Afghanistan The Committee says that despite the significant resources that have been invested in Afghanistan and the enduring wholehearted and admirable commitment and sacrifices of British personnel the UK has not yet achieved its stated goals There is also evidence that the core foreign policy justification for the UK's continued presence in Afghanistan namely that it is necessary in the interests of UK national security may have been achieved some time ago given the apparently limited strength of al Qaeda in Afghanistan The security rationale behind the UK Government's decision to announce the 2015 deadline for the unconditional withdrawal of UK combat forces remains unclear and there are a number of potential risks inherent in such an approach
