Patient Power The Smart Patients Guide To Health Care:

Information Technology for Patient Empowerment in Healthcare Maria Adela Grando, Ronen Rozenblum, David Bates, 2015-03-30 Aims and Scope Patients are more empowered to shape their own health care today than ever before Health information technologies are creating new opportunities for patients and families to participate actively in their care manage their medical problems and improve communication with their healthcare providers Moreover health information technologies are enabling healthcare providers to partner with their patients in a bold effort to optimize quality of care improve health outcomes and transform the healthcare system on the macro level In this book leading figures discuss the existing needs challenges and opportunities for improving patient engagement and empowerment through health information technology mapping out what has been accomplished and what work remains to truly transform the care we deliver and engage patients in their care Policymakers healthcare providers and administrators consultants and industry managers researchers and students and not least patients and their family members should all find value in this book In the exciting period that lies just ahead more will be needed than simply connecting patients to clinicians and clinicians to each other The health care systems that will be most effective in meeting patients needs will be those that can actually design their human wares around that purpose This book provides deep insight into how information technology can and will support that redesign Thomas H Lee MD MSc Chief Medical Officer Press Ganey Associates Professor of Medicine Harvard Medical School and Professor of Health Policy and Management Harvard School of Public Health The Editors Drs Maria Adela Grando Ronen Rozenblum and David W Bates are widely recognized professors researchers and experts in the domain of health information technology patient engagement and empowerment Their research lectures and contributions in these domains have been recognized nationally and internationally Dr Grando is affiliated with Arizona State University and the Mayo Clinic and Drs Rozenblum and Bates are affiliated with Brigham and Women s Hospital and Harvard University

Patient Power Patricia J. Parsons, Arthur Parsons, 1997-03-04 Smart patients don t just know about health and illness they ve got a handle on the health care system and know how to make it work for them In Patient Power two health professional give you the low down on who is involved what they should not do and what happens Patricia and Arthur Parsons break down the health care system into three areas the people the process and the results The People introduces you to a whole cast of characters doctors nurses technical people allied health professionals and some of the people who offer alternative approaches to health care explaining what each of these professionals does and the language they use The Process demystifies common diagnostic tests how drugs are prescribed high tech medical equipment and what happens in the operating room after you go to sleep The Results gives you an insider s view on issues such as medical ethics overuse of the system social problems that have been made into medical problems and having a smart death Entertaining informative and easy to read Patient Power will give you the power to control what happens to you in the health care system

How Television Shapes Our Worldview Deborah A.

Macey, Kathleen M. Ryan, Noah J. Springer, 2014-05-15 Over the last half of the twentieth century television has become the predominant medium through which the public accesses information about the world Through the news situation comedies police dramas and commercials we learn about the world around us and our role within it These genres narratives and cultural forms are not simply entertainment but powerful socializing agents that show the world as we might never see it in real life How Television Shapes Our Worldview brings together a diverse set of scholars methodologies and theoretical frameworks to interrogate the ways through which television molds our vision of the outside world The essays include advertising and public relations analyses audience interviews and case studies that touch on genres ranging from science fiction in the 1970s to current reality television Television truly provides a powerful influence over how we learn about the world around us and understand its social processes *Physician Assistant: A Guide to Clinical Practice E-Book* Ruth Ballweg, Darwin L.
