Patriarch George Washington And The New American Nation

Willard Sterne Randall

Patriarch George Washington And The New American Nation:

Patriarch Richard Norton Smith,1993 A gripping story of politics and statecraft here is a dramatic portrait of George Washington in his presidential years In his eight years as president Washington would need every ounce of his countrymen s well known adulation as he presided over a government torn by factionalism and still threatened by European imperialism

The Development of the American Presidency Richard Ellis,2022-05-02 A full understanding of the institution of the American presidency requires us to examine how it developed from the founding to the present This developmental lens analyzing how historical turns have shaped the modern institution allows for a richer more nuanced understanding The Development of the American Presidency pays great attention to that historical weight but is organized by the topics and concepts relevant to political science with the constitutional origins and political development of the presidency its central focus Through comprehensive and in depth coverage Richard J Ellis looks at how the presidency has evolved in relation to the public to Congress to the executive branch and to the law showing at every step how different aspects of the presidency have followed distinct trajectories of change Each chapter promotes active learning beginning with a narrative account of some illustrative puzzle that brings to life a central concept A wealth of photos figures and tables allow for the visual presentations of concepts New to the Fourth Edition Explicit and expanded attention to the role of norms in shaping and constraining presidential power with special focus on Trump s norm breaking and Biden s efforts to shore up norms Enhanced focus on the prospects for institutional reform including in the electoral college presidential relations with Congress war powers and the selection of Supreme Court justices A full reckoning with the Trump presidency and its significance for the future of American democracy presidential rhetoric the unilateral executive and the administrative state Coverage of the first year of Biden s presidency including presidential rhetoric relations with Congress and the bureaucracy use of the war powers and unilateral directives Comprehensive updating of debates about the removal power including the Supreme Court cases of *Seila Law v CFPB* and *Collins v Yellen* In depth exploration of the impact of partisan polarization on the legislative presidency and effective governance Analysis of the 2020 election and its aftermath Expanded discussion of impeachment to incorporate Trump s two impeachments Examination of presidential emergency powers with special attention to Trump s border wall declaration Review of Biden s and Trump s impact on the judiciary Assessment of Biden s and Trump s place in political time

The Bloomsbury Encyclopedia of the American Enlightenment Mark G. Spencer,2015-02-26 The first reference work on one of the key subjects in American history filling an important gap in the literature with over 500 original essays

The Hamiltonian Vision, 1789-1800 William R. Nester,2012 The creation of American diplomacy and power as an art

Sealed with Blood Sarah J. Purcell,2010-08-03 The first martyr to the cause of American liberty was Major General Joseph Warren a well known political orator physician and president of the Provincial Congress of Massachusetts Shot in the face at close range at Bunker Hill Warren was at once transformed into a national hero with his story appearing throughout

the colonies in newspapers songs pamphlets sermons and even theater productions His death though shockingly violent was not unlike tens of thousands of others but his sacrifice came to mean something much more significant to the American public Sealed with Blood reveals how public memories and commemorations of Revolutionary War heroes such as those for Warren helped Americans form a common bond and create a new national identity Drawing from extensive research on civic celebrations and commemorative literature in the half century that followed the War for Independence Sarah Purcell shows how people invoked memories of their participation in and sacrifices during the war when they wanted to shore up their political interests make money argue for racial equality solidify their class status or protect their personal reputations Images were also used especially those of martyred officers as examples of glory and sacrifice for the sake of American political principles By the midnineteenth century African Americans women and especially poor white veterans used memories of the Revolutionary War to articulate their own more inclusive visions of the American nation and to try to enhance their social and political status Black slaves made explicit the connection between military service and claims to freedom from bondage Between 1775 and 1825 the very idea of the American nation itself was also democratized as the role of the people in keeping the sacred memory of the Revolutionary War broadened [The American President](#) Kathryn Moore,2018-09-04 Fully updated to include the 2016 election this book is the most thorough authoritative and up to date single volume reference to the presidency in print In The American President A Complete History historian Kathryn Moore presents a riveting narrative of each president s experiences in and out of office along with illuminating facts and statistics about each administration timelines of national and world events astonishing trivia and more Together these details create a complex and nuanced portrait of the American presidency from the nation s infancy to today including Donald Trump s first year in office Best single volume history of the American presidency on the market Fully updated to include the results of the 2016 election Updates include coverage of the first year of the Donald Trump presidency Appealing to readers looking for an objective and nonpartisan historical reference Unique reference guide for readers of American history **Spellbound** Molly Worthen,2025-05-27 What happens when Americans lose faith in their religious institutions and politicians fill the void From the Puritans to Donald Trump this sweeping history will change your understanding of the forces that create leaders and hold their followers captive Elegant and insightful Spellbound is an important contribution to the urgent project of understanding America in our time Jon Meacham Everyone feels it Cultural and political life in America has become unrecognizable and strange Firebrands and would be sages have taken the place of reasonable and responsible leaders Nuanced debates have given way to the smug confidence of yard signs How did we get here In Spellbound historian Molly Worthen argues that we will understand our present moment if we learn the story of charisma in America From the Puritans and Andrew Jackson to Black nationalists and Donald Trump the saga of American charisma Worthen argues stars figures who possess a dangerous and alluring power to move crowds They invite followers into a cosmic drama where hopes are fulfilled and grievances are

put right and these charismatic leaders insist that they alone plot the way The story of charisma in America reveals that when traditional religious institutions fail to deliver on their promise of a meaningful life people will get their spiritual needs met in a warped cultural and political landscape dominated by those who appear to have the power to bring order and meaning out of chaos Charismatic leaders address spiritual needs offering an alternate reality where people have knowledge power and heroic status whether as divinely chosen instruments of God or those who will restore national glory Through Worthen s centuries spanning historical research Spellbound places a crucial religious lens on the cultural economic and political upheavals facing Americans today **John Hancock** Willard Sterne Randall,2025-06-10 A compelling intimate portrait of John Hancock going beyond the flamboyant signature to reveal the pivotal role that he had in the American Revolution A contemporary of Samuel Adams John Adams George Washington and the Marquis de Lafayette Hancock had a list of contacts that read like a who s who of the American Revolution But shockingly little has been written about Hancock himself John Hancock tells the story of a man who deserves far more credit for his contribution to the American Revolution than he previously received and award winning scholar Willard Sterne Randall is determined to give him his due at last Born into relatively modest means Hancock was sent to live with his wealthy uncle and aunt as a child The couple raised him as their own and prepared him to take over the family company A remarkably successful businessman Hancock got involved in politics in the mid 1760s He quickly rose in the ranks eventually serving as the president of the Continental Congress and the first governor of Massachusetts John Hancock details all of the major moments in the Revolution from the Boston Tea Party to the battles of Lexington and Concord to the signing of the Declaration of Independence Hancock s actions fundamentally altered each of these events and ultimately the course of the United States in ways never taught in the history books Randall also dives into lesser known parts of Hancock s life with nuance and compassion including his education and controversial work with Harvard his long courtship and complicated marriage to Dorothy Quincy and his close relationship and eventual bitter rivalry with Samuel Adams John Hancock enjoyed great popularity in Massachusetts during the Revolution but he left behind few personal writings making it hard to tell his story Through extensive research Randall aims to restore Hancock to his rightful place celebrated for his achievements as one of our Founding Fathers at last **Imperialism and Expansionism in American History** Chris J. Magoc,David Bernstein,2015-12-14 This four volume encyclopedia chronicles the historical roots of the United States current military dominance documenting its growth from continental expansionism to hemispheric hegemony to global empire This groundbreaking four volume encyclopedia offers sweeping coverage of a subject central to American history and of urgent importance today as the nation wrestles with a global imperial posture and the long term viability of the largest military establishment in human history The work features more than 650 entries encompassing the full scope of American expansionism and imperialism from the colonial era through the 21st century War on Terror Readers will learn about U S Native American conflicts 19th century land laws early forays overseas for example

the opening of Japan and America's imperial conflicts in Cuba and the Philippines U S interests in Latin America are explored as are the often forgotten ambitions that lay behind the nation's involvement in the World Wars The work also offers extensive coverage of the Cold War and today's ongoing conflicts in Iraq Afghanistan Africa and the Middle East as they relate to U S national interests Notable individuals including American statesmen military commanders influential public figures and anti imperialists are covered as well The inclusion of cultural elements of American expansionism and imperialism for example Hollywood films and protest music helps distinguish this set from other more limited works

Originalism, Federalism, and the American Constitutional Enterprise Edward A. Purcell, 2007-12-28 In this lively historical examination of American federalism a leading scholar in the field refutes the widely accepted notion that the founding fathers carefully crafted a constitutional balance of power between the states and the federal government Edward A Purcell Jr bases his argument on close analysis of the Constitution's original structure and the ways that structure both induced and accommodated changes over the centuries There was no clear agreement among the founding fathers regarding the true nature of American federalism Purcell contends nor was there a consensus on correct lines dividing state and national authority Furthermore even had there been some true original understanding the elastic and dynamic nature of the constitutional structure would have made it impossible for subsequent generations to maintain any original or permanent balance The author traces the evolution of federalism through the centuries focusing particularly on shifting interpretations founded on political interests He concludes with insights into current issues of federal power and a discussion of the grounds on which legitimate decisions about federal and state power should rest

If you ally obsession such a referred **Patriarch George Washington And The New American Nation** book that will allow you worth, acquire the unquestionably best seller from us currently from several preferred authors. If you desire to hilarious books, lots of novels, tale, jokes, and more fictions collections are also launched, from best seller to one of the most current released.
