Patriots Revolution How Eastern Europe Toppled Communism And Won Its Freedom:

The Patriots' Revolution Mark Frankland, 1993-09 Beginning in apparently controlled fashion in Hungary in 1989 the retreat of communism picked up speed that summer when Poles won an overwhelming victory over their pro Soviet rulers in free elections East Germany and Czechoslovakia achieved freedom in the fall with less violence than anyone believed possible Only Romania at the end of the year witnessed a savage battle and the hurried execution of the worst of the eastern European dictators Nicolae Ceausescu In **The Patriots Revolution** Mark Frankland who reported on these dramatic events for the London Observer describes how the once powerful communist system crumbled with little or no resistance in the face of demonstrators armed only with candles and slogans of protest Drawing on more than thirty years experience in Eastern Europe Mr Frankland re creates what communism meant for Eastern Europeans and thus reveals the reasons for its breathtakingly rapid disappearance Evoking the mood and preoccupations of these countries in the year of revolution his colorful book allows the reader to relive one of the most extraordinary episodes in the history of the 20th century and provides the background for a better understanding of the new Eastern Europe **The Patriots' Revolution**

Frankland, 1992 Private Truths, Public Lies Timur Kuran, 1998-06-16 Drawing on diverse intellectual traditions including those rooted in economics psychology sociology and political science Kuran provides a unified theory of how preference falsification shapes collective decisions orients structural change sustains social stability distorts human knowledge and conceals political possibilities A Carnival of Revolution Padraic Kenney, 2020-11-10 This is the first history of the revolutions that toppled communism in Europe to look behind the scenes at the grassroots movements that made those revolutions happen It looks for answers not in the salons of power brokers and famed intellectuals not in decrepit economies but in the whirlwind of activity that stirred so crucially unstoppably on the street Melding his experience in Solidarity era Poland with the sensibility of a historian Padraic Kenney takes us into the hearts and minds of those revolutionaries across much of Central Europe who have since faded namelessly back into everyday life This is a riveting story of musicians artists and guerrilla theater collectives subverting traditions and state power a story of youthful social movements emerging in the 1980s in Poland East Germany Czechoslovakia Hungary and parts of Yugoslavia and the Soviet Union Kenney argues that these movements were active well before glasnost Some protested military or environmental policy Others sought to revive national traditions or to help those at the margins of society Many crossed forbidden borders to meet their counterparts in neighboring countries They all conquered fear and apathy to bring people out into the streets The result was a revolution unlike any other before nonviolent exuberant even light hearted but also with a relentless political focus a revolution that leapt from country to country in the exciting events of 1988 and 1989 A Carnival of Revolution resounds with the atmosphere of those turbulent years the daring of new movements the unpredictability of street demonstrations and the hopes and regrets of the young participants A vivid photo essay complements engaging prose to fully capture the drama Based on over

two hundred interviews in twelve countries and drawing on samizdat and other writings in six languages this is among the most insightful and compelling accounts ever published of the historical milestone that ushered in our age *The American Bibliography of Slavic and East European Studies* Patt Leonard, Rebecca Routh, 2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology

European Communism Ronald Kowalski, 2017-09-16 The course of modern European History has been influenced greatly by the challenge of Communism In theory it promised equality and freedom for all In practice it spawned inegalitarian authoritarian and in some instances monstrous regimes in the former Soviet Union and East Europe This study re examines the history of European Communism from its theoretical origins in the work of Marx and Engels in the mid nineteenth century until the dramatic collapse of the Soviet Union in 1991 Ronald Kowalski reappraises Marx s thinking and points out that his intellectual legacy was open to a variety of interpretations often at odds with his own views Kowalski also questions Lenin s professed Marxist credentials and the extent to which his additions to Marxist theory were central to the key issue in the history of Communism why did the egalitarian and libertarian dreams raised by the Russian Revolution degenerate into Stalinist authoritarianism and terror Furthermore why did Communism fail in West Europe while it was able to come to power in East Europe Concluding with an analysis of the revolutions which swept away the Communist regimes in East Europe and two years later in the Soviet Union itself this is an essential introduction to the history of a political force that dominated parts of Europe until the end of the twentieth century *Books Are Weapons* Siobahn Doucette, 2018-03-07 Much attention has been given to the role of intellectual dissidents labor and religion in the historic overthrow of communism in Poland during the 1980s *Books Are Weapons* presents the first English language study of that which connected them the press Siobhan Doucette provides a comprehensive examination of the Polish opposition s independent often underground press and its crucial role in the events leading to the historic Round Table and popular elections of 1989 While other studies have emphasized the role that the Solidarity movement played in bringing about civil society in 1980 1981 Doucette instead argues that the independent press was the essential binding element in the establishment of a true civil society during the mid to late 1980s Based on a thorough investigation of underground publications and interviews with important activists of the period from 1976 to 1989 Doucette shows how the independent press rooted in the long Polish tradition of well organized resistance to foreign occupation reshaped this tradition to embrace nonviolent civil resistance while creating a network that evolved from a small group of dissidents into a broad opposition movement with cross national ties and millions of sympathizers It was the galvanizing force in the resistance to communism and the rebuilding of Poland s democratic society

Biblical Counsel , 1993 *The Walls Came Tumbling Down* Gale Stokes, 2012 Gale Stokes *The Walls Came Tumbling Down* offered one of the most respected interpretations of the East European revolutions of 1989 for many years It provides a

sweeping yet vivid narrative of the two decades of developments that led from the Prague Spring of 1968 to the collapse of communism in 1989. Highlights of that narrative include among other things discussions of Solidarity and civil society in Poland, Charter 77 and the Velvet Revolution in Czechoslovakia and the bizarre regime of Romania's Nicolae Ceaușescu and his violent downfall. In this second edition, now appropriately subtitled *Collapse and Rebirth in Eastern Europe*, Stokes not only has revised these portions of the book in the light of recent scholarship but has added three new chapters covering the post-communist period including analyses of the unification of Germany and the collapse of the Soviet Union, narratives of the admission of many of the countries of the region to the European Union and discussion of the unfortunate outcomes of the Wars of Yugoslav Succession in the Western Balkans.
