Patrons And Architects Designing Art Museums In The Twentieth Century:

Patrons and Architects John Coolidge, 1989 Met lit opg Met reg Tekst van een serie van drie lezingen gehouden in 1980 in het Amon Carter museum in Texas USA Besproken wordt de architectuur van twaalf 20e eeuwse musea 8 uit de Verenigde Staten 3 uit Europa en 1 uit Japan Per museum aandacht voor het ontwerp van het gebouw de aanpassing van het ontwerp aan de locatie aan de wensen van de opdrachtgever s en aan de taak van een museum het tentoonstellen van de collectie Centraal staat de samenwerking tussen de architect en de opdrachtgever **Patrons and architects : designing art museums in the twentieth century** J. Coolidge, 1989 Philip Johnson and the Museum of Modern Art Philip Johnson, 1998 This volume focuses on the architect Philip Johnson s long association with The Museum of Modern Art with essays examining his roles as patron as curator and as the institution s unofficial architect from the late 1940s to the early 1970s The Art Museum from Boullée to Bilbao Andrew McClellan, 2008-01-02 Art museums cases of beauty and calm in a fast paced world have emerged in recent decades as the most vibrant and popular of all cultural institutions But as they have become more popular their direction and values have been contested as never before This engaging thematic history of the art museum from its inception in the eighteenth century to the present offers an essential framework for understanding contemporary debates as they have evolved in Europe and the United States *The Museums of Contemporary Art* J. Pedro Lorente, 2016-03-03 Where how by whom and for what were the first museums of contemporary art created These are the key questions addressed by J Pedro Lorente in this new book In it he explores the concept and history of museums of contemporary art and the shifting ways in which they have been imagined and presented Following an introduction that sets out the historiography and considering questions of terminology the first part of the book then examines the paradigm of the Musée des Artistes Vivants in Paris and its equivalents in the rest of Europe during the nineteenth century The second part takes the story forward from 1930 to the present presenting New York s Museum of Modern Art as a new universal role model that found emulators or contramodels in the rest of the Western world during the twentieth century An epilogue reviews recent museum developments in the last decades Through its adoption of a long term worldwide perspective the book not only provides a narrative of the development of museums of contemporary art but also sets this into its international perspective By assessing the extent to which the great museum capitals Paris London and New York in particular created their own models of museum provision as well as acknowledging the influence of such models elsewhere the book uncovers fascinating perspectives on the practice of museum provision and reveals how present cultural planning initiatives have often been shaped by historical uses **The Architecture of Art Museums** Ronnie Self, 2014-04-16 As a building type art museums are unparalleled for the opportunities they provide for architectural investigation and experimentation They are frequently key components of urban revitalization and often push the limits of building technology Art museums are places of pleasure education and contemplation They are remarkable by their prominence and sheer quantity and their lessons are

useful for all architects and for all building types This book provides explicit and comprehensive coverage of the most important museums built in the first ten years of the 21st Century in the United States and Europe By dissecting and analyzing each case Ronnie Self allows the reader to get under the skin of each design and fully understand the process behind these remarkable buildings Richly designed with full technical illustrations and sections the book includes the work of Tadao Ando Zaha Hadid Peter Cook Colin Fournier Renzo Piano Yoshi Taniguchi Herzog de Meuron Jean Nouvel SANAA Daniel Libeskind Diller Scofidio Renfro Steven Holl Coop Himmelblau Bernard Tschumi Sauerbruch Hutton and Shigeru Ban Jean de Gastines Together these diverse projects provide a catalogue of design solutions for the contemporary museum and a snapshot of current architectural thought and culture One of few books on this subject written by an architect Self's analysis thoroughly and critically appraises each project from multiple aspects and crucially takes the reader from concept to building This is an essential book for any professional engaged in designing a museum

The Museum Michael S. Sharpiro, 1990-07-24 This critical bibliography of museum studies comprises an organized collection of essays on the various types of museums art natural history history science and technology and folk and on general aspects collections education exhibitions etc that cut across the media Most of the essays are cogent substantial if not comprehensive and clear The editor has taken care to see that they follow a similar format of historical essay followed by a full bibliography of items discussed Library Journal As the number of museums in the United States has grown to more than 6500 in this century the museum profession has experienced similar growth In addition to academic training and accreditation programs in the field an expanding body of literature on museum history philosophy and functions has evolved little of which has received the critical attention it deserves This reference volume serves as an up to date guide to this wealth of literature identifying and evaluating works that introduce the general reader the museum studies student and the beginning professional to the history philosophy and functions of museums The volume presents a series of informative historical outlines and critical bibliographic essays on all aspects of museum history philosophy and functions Contributors treat such subjects as art museums natural history museums science and technology museums history museums collections exhibition education and interpretation and the public and museums Each chapter consists of an introductory historical narrative a survey of sources and a bibliographic checklist that contains cited and additional sources A set of appendices include a geographically organized bibliography of museum directories a guide to archives and special collections and a selective list of museum related periodicals The book concludes with a comprehensive general subject index This work will be an important reference tool for museum professionals and cultural historians as well as for courses in museum studies It will also be a valuable addition to both academic and public libraries

Cathedrals of Urban Modernity J. Pedro Lorente, 2018-12-17 First published in 1998 this volume explores the expanding wave of a new kind of museums of contemporary art in the nineteenth and early twentieth centuries Lorente examines their coming of age and the weight of their museological legacy arguing that

the establishment of great national museums of art at London and Paris radiated out carrying their influence with it This book emerged as part of a series on towns and cities and has a focus on London and Paris as centres of artistic innovation

Architecture in the Twentieth Century Peter Gossel, Gabriele Leuthäuser, 2001 After several pages of prologue summing up 18th century highlights especially the rise in importance of geometry some forty pages cover 1784 1916 focusing on the heavily fenestrated high rises of the Chicago School and the iron and glass pavilions of Europe The chapter spanning 1892 1925 concentrates on the many disputes over the trajectory of modernism Nieuwe Kunst Stile Liberty Jugendstil and Art Nouveau all arguing the direction that the boom of prisons hospitals schools town halls and other institutional buildings would take Three more time divisions follow and a concise compendium of architect biographies ends the volume Along with an array of great pictures par for Taschen Gossel and Leuthäuser both active in the private sector add a strong prose style attentive to debates among architects and the socioeconomic stage on which architects act Annotation copyrighted by Book News Inc Portland OR

Engines of Culture Daniel M. Fox, 2018-02-06 This book shows why American social policy was incomplete with respect to the arts and argues that art museums are an instructive example of the accommodation of public and private interests It is useful for political scientists policymakers scholars of philanthropy artists and historians
