Falconer, W. D. F. VINCENT, 2025-08-04 The importance and necessity of just such a work as this on Economy in Cutting has found ample proof in the disposal of the First Edition in less than one month in a Second Edition being again exhausted and in our now being called upon to introduce a Third Such a work is bound to be popular its advantages come so closely home to every cutter and we are pleased to record that the efforts of both Author and Publisher have been so fully appreciated From no other publishing firm has emanated so many works relating to cutting fitting and practical tailoring and so much is the time and attention of cutters devoted to these features of their profession that the matter of Economy in Cutting is in many cases perhaps comparatively a secondary consideration Tis true that in the cutting of a garment saving a quarter of material is of small importance when compared with its good or bad fit But where from experience or the use of our Tailor and Cutter Reliable Model and Special Patterns the fit may be pretty well assured even a quarter of material on each coat cut would very soon bulk to a tolerably large amount At the present time when competition runs so high and prices must be cut so fine it

became forcibly impressed upon us that a work might very advantageously be entirely devoted to ECONOMY IN CUTTING We had little difficulty in selecting an author of thorough practical experience for this work Mr Falconer having devoted special attention to the matter of Economy The completeness with which Mr Falconer has done his work will be found in the fact of its containing no less than thirty six Plates illustrating different lays ranging from one to four garments on each lay or illustration The Tables describe the Plates giving the garment or garments their sizes and the quantities of material from which they can very comfortably be cut Patterns of Excellence Danny Samson, David Challis, 1999 Lets face it for many of us our organisations are not as well organised as we would like It s time for a rethink Patterns of Excellence presents a blueprint for success which can be adapted to any organization Based on extensive analysis of worldwide excellence in performance this highly accessible book reinforces theory with practical examples Samson and Challis reveal the patterns of excellence which connect the operations of the world s best organizations and demonstrate how to mould these defining principles into a structures framework and management approach The book s case studies provide illuminating analysis and practical guidance on implementing management structures The Authors Danny Samson is currently both Professor of Management at Melbourne Business School and Director of the Centre for Manufacturing Management He began his career working as a chemical engineer for ICI after which he attained a PhD in Management and subsequent appointments at the universities of Illinois and New South Wales He has written five books and published over fifty articles on management Danny regularly consults business across a variety of industries in Europe Australia New Zealand and the USA on strategy operations improvement and realization of the business principles outlined in Patterns of Excellence In addition he conducts regular executive education programs for companies wishing to restructure themselves within this framework He has worked on numerous high level government inquiries in fields ranging from technology management manufacturing management and leadership to industry competitiveness market policy and restructuring David Challis has spent the last 20 years consulting to organizations in Europe USA Australia and Asia in the area of strategic organizational change He has worked at all organizational levels board through middle management through shop floor and has an outstanding track record as an effective change agent David is an Associate of Melbourne Degrees in Engineering and a PhD in Management
