Paul Valéry and the Civilized Mind Norman Suckling,2003-01-01 Paul Valéry and the Civilized Mind Norman Suckling,1954 **Paul Valéry** Norman Suckling,1954 *Paul Valéry and the Civilized Mind* Norman Suckling,1954

Paul Valéry's Album des Vers Anciens Suzanne Nash,2014-07-14 Questioning the view that the work is not representative of the poet's mature accomplishment Suzanne Nash argues that the revisionary process involved in its creation led Valéry to reflect on problems fundamental to poetic production and thus provided inspiration for all his later poetry Originally published in 1983 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 The Anchor Anthology of French Poetry Angel Flores,2000-04-18 First published in 1958 this collection introduced an indispensable corpus of western poetry to countless American students Francophiles and would be poets among them Patti Smith whose Introduction to this edition testifies to its epochal impact on her own career The poetic and cultural tradition forged by the symbolist poets featured herein Baudelaire Rimbaud Verlaine Apollinaire and others reverberated throughout the avant garde and countercultures of the twentieth century Surrealism modernism abstract impressionism and the Beat movement all find their roots in the examples of these poets and their theories of art With translations by Richmond Lattimore W S Merwin Richard Wilbur and Louise Varese this rediscovered gem is sure to inspire a new generation **Encyclopedia of Modern French Thought** Christopher John Murray,2013-01-11 In this wide ranging guide to twentieth century French thought leading scholars offer an authoritative multi disciplinary analysis of one of the most distinctive and influential traditions in modern thought Unlike any other existing work this important work covers not only philosophy but also all the other major disciplines including literary theory sociology linguistics political thought theology and more Inventing Leonardo A. Richard Turner,1994-10-06 As he examines the changing views of Leonardo since the sixteenth century A Richard Turner both gives the reader a cultural history in brief of western Europe during this period and provides a context for examining Leonardo's relevance to our own ways of perceiving and interpreting the world In Search of the Classic Steven Shankman,2010-11 The classical Steven Shankman argues should not be confused with a particular historical period of Western antiquity although it may owe its original articulation to the literary and philosophical explorations of ancient Greek authors Shankman's book searches for and attempts to formulate the shape of the continuing presence as embodied in particular literary works mainly from Western antiquity and the neoclassical and modern periods of what the author calls a classical understanding of literature For Shankman literature defined from a classical perspective is a coherent compelling and rationally defensible

representation that resists being reduced either to the mere recording of material reality or to the bare exemplification of an abstract philosophical precept He derives his definition largely from his reading of Greek literature from Homer through Plato from the history of literary criticism and from the Greco Roman tradition in English American and French literature Shankman reveals unsuspected yet convincing connections among authors of such widely disparate times and places His idea of the classic that authorizes these connections is presented as normative thus making possible the evaluation of literary works and in turn forthright discussion of what constitutes the literary as distinct from other kinds of discourse Shankman s study runs counter to a strong tendency of contemporary criticism that argues precisely against any distinct category of the literary He offers a series of interpretations that cumulatively advance theoretical discussion by challenging scholars to rethink the critical paradigms of postmodernism At the center of the book is a discussion of the quintessentially classic Val ry poem *Le Cimetière marin* and the classic qualities it shares with Pindar s third Pythian ode from which Val ry derives the epigraph for his poem
