Calvin's Doctrine of the State Mark J. Larson, 2009-01-08 Contemporary treatments of Calvin s political views often imply that he embraced a theocratic civil polity and that he was committed to holy war doctrine On the basis of the primary sources the first half of this volume argues that neither position is correct Calvin in his political thought maintained the superiority of a republic as a civil polity In addition he placed himself firmly within the medieval just war tradition that was established by Augustine of Hippo and later reaffirmed by Thomas Aquinas In terms of

his commitment to classical just war teaching Calvin stood in continuity with Martin Luther even while he distanced himself from the holy war perspective of the Zurich Reformers Henry Bullinger and Peter Martyr Vermigli In the thinking of Calvin a war could only be authorized by the state not the church War had to be prosecuted with humanity and restraint and not in the tradition of the medieval crusade The second half of the book sets forth what Calvin actually believed on the matter of government and war Here we examine his teaching on parliamentary resistance to monarchical tyranny and the full dimensions of his commitment to justice of war categories Unlike Luther and Bullinger Calvin provided a parliamentary remedy for the perennial evil of tyranny With Vermigli and Theodore Beza siding with Calvin on this right a body of Reformed doctrine was established to which succeeding generations could appeal for teaching direction and justification for taking up arms It is clear that Calvin's political legacy is profoundly evident in the American Revolutionary War and in the constitutional determination for a republic in the United States of America Calvin's ecclesiastical republicanism as it came to fruition in Presbyterian church government was a powerful impetus toward the creation of republican institutions in civil government

Religious Liberty in Western and Islamic Law Kristine Kalanges, 2012-04-04 In Religious Liberty in

Western and Islamic Law Toward a World Legal Tradition Kristine Kalanges argues that differences between Western and Islamic legal formulations of religious freedom are attributable in substantial part to variations in their respective religious and intellectual histories Kalanges suggests that while divergence between the two bodies of law challenges the characterization of religious liberty as a universal human right the dilemma of religious freedom the difficult choice between the universality of religious liberty rights and peaceful co existence of diverse legal cultures may yet be transformed through the cultivation of a world legal tradition This argument is advanced through comparative analysis of human rights instruments from the Western and Muslim worlds with attention to the legal political processes by which religious and philosophical ideas have been institutionalized
