The Good News of Church Politics Ross Kane,2024-04-09

Rethinking politics in the light of God When we think about politics we often think about the privileged vying for power Alternatively we might think about gridlock about frustration or about how little our voices seem to matter Our obsession with statecraft can both paralyze us and lead us to duplicate the tactics of this exasperating form of politics when we lead our church communities Ross Kane has good news for us church politics doesn't have to work this way In fact it can even become a spiritual practice Drawing on his work as a pastor in the DC area Kane shows how localized action by churches can make a real difference in their neighborhoods Kane combines Scripture political theology and personal experience to reframe politics around shaping our common life From community service to advocacy congregations can practice politics in ways that embrace our loving interdependence as members of the body of Christ Church leaders whether lay or clerical will find The Good News of Church Politics an uplifting guide to modeling God's reign in our world by loving our neighbors

For a New Generation Lee D. Kricher,2016-08-02 A New Generation Church is a church with attendees whose average age is at least as young as the average age of the community in which the church exists Any church can become a New Generation Church that reaches and continues to reach the next generation The Psalmist writes We will not hide these truths from our children we will tell the next generation about the glorious deeds of the Lord about his power and his mighty wonders Psalm 78:4 NLT No Christian would purposely hide the timeless truths of Christianity from the next generation But often we do not because of the substance of our church but because of the

approach of our church For A New Generation is not about changing your church's statement of faith or core beliefs It is about evaluating and changing as needed your church's programs ministries and practices in order to more effectively connect with and stay connected with the next generation Written for both church leaders and members For a New Generation presents 5 practical strategies that will lay a foundation for a church to thrive for generations to come It is based on the assumption that accepting the status quo is the greatest threat to your church's core mission and perhaps to the long term survival of your church

Education Is Discipleship: So Who's Really Discipling Your Kids? Dr. Christy Anderson, 2016-06-05 This book demonstrates how and why biblical discipleship has been abandoned by a significant majority of Christian parents and church leaders A catastrophic failure to fulfill the Great Commission to make disciples who can effectively pass on the Good News sound doctrine and a biblical worldview to future generations is the result The adoption of secular philosophies of education age segregation the creation of adolescence the formation of youth ministry the adoption of a teen subculture and a fundamental rejection of practical aspects of the doctrine of sola Scriptura are at the heart of the problem Warnings from Christians who wrote on this topic over the past 150 years have now become a manifest reality with devastating results The only way to overcome this discipleship cataclysm is to go back to a biblical philosophy of education both in the home and in the church

Power Made Perfect? Timothy R. A. Sherratt, 2016-03-02 How would politics be different if Christians acknowledged Jesus Christ as the archetype of all rulers democratic and nondemocratic How would our practice of politics change if we recognized the

suffering love of Christ as the truest exercise of power Power Made Perfect offers a distinctive approach to government and politics It is important the author argues to ask how creation provides guidance for political conduct for politics to be an exercise in piety and to approach politics in a fallen world with prudence and not in pursuit of ultimate solutions But it is even more important to begin with Jesus Christ Christ is the rightful ruler of the world who exercises power by suffering and dying for guilty humans All political activity is held to the standard of Christ s sacrifice In this book Timothy Sherratt surveys major Christian political initiatives and schools of Christian political thought with a particular emphasis on American politics before outlining ways in which Christians in churches can practice faithful political engagement **Politics of Religion in**

Kingdom Politics Kristopher Norris,Sam Speers,2015-04-16 American Christians weary of decades of entrenched partisan feuding are increasingly distancing themselves from politics Some however continue to turn toward the state and public policy to find solutions to the world s problems The problem is that both responses allow a narrow vision of politics to determine the church s mission and ministries which often ends up separating its commitment to personal faith from the pursuit of social justice the King from the kingdom Christians too easily forget that the church is inherently political a community defined by its allegiance to a King its citizenship in a new world and its call to work alongside others in pursuit of a new way of life The church needs a political vision that is more than blind acceptance or mere rejection of past models It

needs a positive vision that takes its cues about politics not from the nation state but from another political reality the kingdom of God This book tells the stories of the visits of two researchers to five diverse congregations across the United States From the megachurch energy of Rick Warren s Saddleback Church in California to a young Emergent community in Minneapolis to the politically active home of Martin Luther King in Atlanta these stories illuminate the vastly different ways congregations understand and approach politics and offer a glimpse of a new political imagination for today s church embed container position relative padding bottom 56 25% height 0 overflow hidden max width 100% embed container iframe embed container object embed container embed position absolute top 0 left 0 width 100% height 100% *Working for the Public Good* Leslie F. Weber Jr.,2025-10-21 Weber demonstrates conclusively that despite historical critiques of quietism European Lutherans developed a social ethics in the centuries following the Reformation that brought about fundamental systemic and structural changes in social services law education health care the formation of states and nations and public morality Those changes eventually led to the development of the welfare state In so doing Weber challenges interpretations by scholars such as the German Lutheran theologian Ernst Troeltsch who argued that Lutheran theology created a church operating at a remove from society s pressing questions Weber s comprehensive coverage of northern European society from the Reformation era through the nineteenth century utilizes the tools of sociology theology history and ethics to demonstrate that Lutheran ethical theory a Lutheran understanding of the social order and Lutheran social reforms lie at the heart of modern European social institutions Grounded in a Lutheran ethic of faith active in love for the neighbor Lutheran ethics transformed the household and polity developed government care for the poor protected public health and promoted social welfare within a new moral and legal order that continues to underpin contemporary social democracy across northern Europe *The Politics of Religion in Early Modern France* Joseph Bergin,2014-01-01 Rich in detail and broad in scope this majestic book is the first to reveal the interaction of politics and religion in France during the crucial years of the long seventeenth century Joseph Bergin begins with the Wars of Religion which proved to be longer and more violent in France than elsewhere in Europe and left a legacy of unresolved tensions between church and state with serious repercussions for each He then draws together a series of unresolved problems both practical and ideological that challenged French leaders thereafter arriving at an original and comprehensive view of the close interrelations between the political and spiritual spheres of the time The author considers the powerful religious dimension of French royal power even in the seventeenth century the shift from reluctant toleration of a Protestant minority to increasing aversion conflicts over the independence of the Catholic church and the power of the pope over secular rulers and a wealth of other interconnected topics **A Faith of Our Own** Jonathan Merritt,2012-05-08 Every day major headlines tell the story of how Christianity is attempting to influence American culture and politics But statistics show that young Americans are disenchanted with a faith that has become culturally antagonistic and too closely aligned with partisan politics In this personal yet practical work Jonathan Merritt uncovers the changing face

of American Christianity by uniquely examining the coming of age of a new generation of Christians Jonathan Merritt illuminates the spiritual ethos of this new generation of believers who engage the world with Christ centered faith but an unpolarized political perspective Through personal stories and biblically rooted commentary this scion of a leading evangelical family takes a close thoughtful look at the changing religious and political environment addressing such divisive issues as abortion gay marriage environmental use and care race war poverty and the imbalance of world wealth Through Scripture the examples of Jesus and personal defining faith experiences he distills the essential truths at the core of a Christian faith that is now just coming of age

Faith, Race and Inequality amongst Young Adults in South Africa Nadine Bowers Du Toit ,2022 For many young South African adults often called born frees who were born just before or just after the demise of political apartheid the ongoing realities of poverty and inequality bring to light the question of whether they truly are free in contemporary South Africa Their lived experiences of poverty and inequality seem to be in conflict with theologically laden concepts that remain prominent in social and political life such as reconciliation forgiveness justice and restitution This leads to a bi directional process of contesting and being contested by such notions and discourses Furthermore in light of the double legacy of both the church and youth as resisting injustice this publication seeks to explore the many perspectives from which the Christian faith race and inequality amongst youth can be brought to light
