This second edition features new and expanded content on diversity and trauma, including discussions of gun violence, police brutality, suicide, and an added focus on systemic racism.

The Paramedic Mindset Leigh Anderson, 2024-06-25

Why do some people flourish in high stress situations while others feel overwhelmed or discouraged? How do some remain calm under pressure where others succumb to stress? The difference is in mindset. When you have the skills and knowledge to stay in control, regulate your emotions, and manage your reactions, even the most difficult circumstances become opportunities to excel, thrive, and grow. But this quality, also known as poise, is not innate. It comes from preparation and practice. In this book, experienced paramedic Leigh Anderson shares true life and death stories from his career, explores the latest scientific research on mindset, stress, and resilience, reveals his secrets for maintaining poise. The result is an arsenal of clear, effective, and actionable tools that will boost your ability to perform under pressure. *The Paramedic Mindset* is essential reading for anyone who wants to face the challenges of life head-on.

PRAISE FOR THE PARAMEDIC MINDSET

The Paramedic Mindset is a must-read book. Through the use of personal experiences, both his own and a range of subject matter experts, Leigh delivers an engaging, evidence-based, and practical book on not only how to survive under pressure but how to flourish. At a time of skyrocketing mental health issues in our first responder communities, *The Paramedic Mindset* offers the tools to turn the tide.

Dr. Dan Pronk, co-author of *The Resilience Shield*, Special Forces veteran and Emergency Doctor. Leigh Anderson has written *The Definitive Book* on this vital subject. I know of no other book that will provide this degree of lifesaving information to this vital audience. This book is required reading for all paramedics and should be used as a textbook for training all medical first responders.

Lt Col Dave Grossman, USA ret, author of *On Combat*, *On Killing*, *On Spiritual Combat*, and *Assassination*.

Generation Leigh has set out to describe the often confronting and challenging role of being a front-line emergency health care responder. A combination of apprehension, performance, anxiety, satisfaction, and exhilaration. He most ably transcends his unique experiences, providing a bird's-eye view of the job, its challenges, and how to cope. I would highly recommend for anyone interested in how to deal with a high-pressure environment.

Dr. Stephen Rashford, Specialist Emergency Physician and Queensland Ambulance Service Medical Director. Leigh pulls the curtains back on one of life's biggest skills: how to keep your mind when you should be losing your moorings. The mindsets and capabilities needed to be a top performer in any field are critical and not widely known. Leigh has bottled some of that magic in this hard-scrabbled account.

Brilliant!

Mark Wales, Special Forces veteran, business CEO, author of *Survivor* and winner of Australian *Survivor* TV show.

Student Stress in Higher Education Aloka, Peter, 2023-12-07

In the realm of higher education, the journey to academic success is often

accompanied by an array of challenges particularly in the form of stress and its profound impact on mental health. The multifaceted nature of these challenges stemming from a variety of factors has sparked significant interest among scholars and educators alike. *Student Stress in Higher Education* delves into the intricate interplay between stressors, coping mechanisms, and the psychological well-being of students within higher education institutions. This book addresses a conspicuous gap in existing literature meticulously examining the dimensions of stress uniquely experienced in higher education settings. The chapters contained within illuminate various facets of this complex issue. From the barriers obstructing effective stress management to the gender disparities in mental health experiences, each chapter dissects a critical aspect of the overarching theme. The insights garnered from these chapters hold potential to reshape institutional approaches to mental health awareness and support. This book serves as a beacon of knowledge for a diverse readership. Scholars seeking to explore the nuanced landscape of student well-being will find this volume to be an indispensable resource. Administrators and counselors entrusted with the welfare of students will discover pragmatic approaches to aid students in acclimating to the challenges of higher education. From gender-specific stress manifestations to the intricacies of institutional mental health provision, this book delivers a holistic perspective.

Assessing Well-Being Ed

Diener, 2009-06-04. The Sandvik Diener and Seidlitz 1993 paper is another that has received widespread attention because it documented the fact that self-report well-being scales correlate with a number of other methods of measuring the same concepts such as with reports by knowledgeable informants, family and friends, experience sampling measurement, and the memory for good versus bad life events. A single factor was found to underlie measures using different methods, and a number of different well-being self-report measures were found to correlate with the non-self-report measures. Thus, although the self-report measures of well-being are imperfect and can be influenced by response artifacts, they have substantial validity as shown by their correlations with measurements based on alternative methods. Whereas the Pavot and Diener article reviewed the Satisfaction with Life Scale, the Lucas Diener and Larsen 2003 paper reviews various approaches to assessing positive emotions. As we wrote in the chapter in this volume in which we present new measures, we do not consider any of the existing measures of positive affect to be entirely acceptable for measuring subjective well-being in the affect area, and that is why we have created and validated a new measure.

Higher Education and Job Employability Betsy Ng, 2022-06-27

This book presents the most comprehensive discussion of emerging trends in higher education in the Asia Pacific, ranging from graduate attributes to integrated workplace learning, with an in-depth focus on work readiness, employability, and career development.
