**Positive Thinking Made Easy** Michael Andrews,2016-01-23 In primitive times a person s existence was dependent entirely on one s ability to survive in the face of indeterminate odds Ironically those laws of the jungle exist even today on modern human society and while we may not be dealing with life and death situations around every corner we are dealing with sufficiently life altering critical win or lose based constructs The only problem with this thought process however is that when you are living a life where you think in terms of win or lose what you are actually doing is turning your usually colorful life and turning it into a black and white Audrey Hepburn movie You miss out on all the nuances of living life and get sucked into a repetitive thought pattern where all you can think of is what you missed out on In short you forget to see the positives in life because you are so fixated on the negatives Well enough is enough You picked this book for a reason You know what is wrong with your life right now or at least you suspect it and that means you understand that the first change you need to bring to your life is in the way you are seeing things your pessimistic outlook on life and your negative nature are all about to take a hike to Neverland while we are going to finally find a way to take you back to all the positivity you forgot you ever had We ll start by first teaching you how and why your mind thinks and works the way it does and even teach you how to control or condition it to work a certain way this is process known as conditioning is how we are going to then teach you to boost your mental evolution Remember the mind is the single most powerful part of the human body it is what decides what you as a person can and can t do physically mentally and spiritually

**Rewire Your Brain** Michelle Steven,2012-09-09      **The Power of Positive Thinking: 2400 Words of Positive Affirmation to Help Make You a Winner at Life** Julia McMahon,2021-05-13 Positive Thoughts Happy Life The power of positivity and the strength of positive thinking can transform our lives By merely thinking of the outcomes that we need we can bring them into existence with hard work alone along with the power of our will But it is not always easy to manifest positive thoughts in our heads at will This book contains hundreds and hundreds of positive words that are designed to help you attract success to yourself in both your professional and personal lives The positive words that you will find in this book are drawn from many different categories Positive action verbs that will help you use your energies to stop procrastinating and to get it done Positive adjectives that will help you look at your fellow human beings in a kinder light Positive feelings that will help you become a more happy and productive person overall Nothing worthwhile is ever easy I believe that everything worth having takes a little bit or a lot of struggle to achieve Conversely we realize and recognize the value of something to a greater extent when we have to work hard for it This book celebrates these facts by giving you access to a huge database of positive words picked specifically for you the discerning reader but at a price The price of course is exertion of your mental dexterity Every one of the positive words in this book is hidden behind a puzzle these puzzles are mostly easy but some are definitely challenging A unique feature of this book is its flexibility and customization I have provided one answer to each puzzle but that is by no means the only possible answer You can use your ingenuity to come up with a different valid answer and thereby unlock a new positive word to focus your energies along the path that is most valid for your goals and aspirations on a given day In addition the fact that I have provided all the answers makes it clear that you can also use the book as a repository of positive words and read through the answers consecutively so that you can unlock the full potential of the winning mentality that I am sure you will achieve after embedding those thoughts in your head all the time at work or in your personal life They can help you get that promotion you ve always wanted and deserved They can help you be a better member of your family of your group of friends and of society In the end success is all in your hands and you can use the Power of Attraction to make everything happen according to your will Think Positive      **Think Happy Thoughts Affirmations and Meditation for Positive Thinking, Learned Optimism and A Happy Brain** Drew McArthur,2019-12-24 Do you think you ll be happy when you finally get what you want Have you ever gotten what you

wanted and still not been happy Do you feel like you re in a slump nothing ever works out for you and you ve lost hope for the future If you have said yes to any of these questions keep reading Maybe it seems like you can only be happy when things go your way and even then that s only temporary Or maybe you ve all but given up and you feel like no matter what you do it s impossible for you to feel happy because nothing ever works out for you So instead of seeing life as the amazing boundless gift that it is you just wait for each day to end as if life itself is a burden If you have had the privilege to travel the world you know first hand that some of the most impoverished people living in the most dire of circumstances are blissfully happy Yet close to home you see rich people who seem to have it all and are hopelessly miserable Why is that Happiness is not about what happens outside of you It is about what is happening inside of you If you choose to have the habit of happy thoughts and a happy disposition you will find it easy to be happy no matter your circumstances and it will be easy for you to bounce back from times of trouble You ll also find that the happier you are the more good things happen to you Your mindset makes all the difference Disempowering thoughts can make you feel helpless and hopeless And these negative thoughts are often rooted in our subconscious so we don t even realize the psychological damage we re doing to ourselves It all begins and ends in the mind Happiness does not always come naturally to everyone And sometimes despite a normally chipper outlook you can find yourself in a slump That s where this book comes in This book contains over 850 unique not repeated powerful positive affirmations in various categories to help you reprogram your mind to think positively and develop an optimistic mindset It will help you Boost self esteem and self confidence Know that success is for you not just for other people Focus on the positive Attract high quality relationships And more You can use this book in a multitude of ways Read through and speak aloud the affirmations Choose one of the affirmations to meditate on or use as a mantra in a meditation session Get the audiobook set to music for best results and the flexibility to use this as call and response affirmations a meditation background track or subliminal hypnosis while you sleep drive or conduct everyday tasks It s one thing to read about changing your mindset but it s another thing to actually do it With this book you are actually taking steps to change your mind on a subconscious level that will eventually result in a changed mind and a changed life on a conscious level Even if you ve always been this way for as long as you can remember are in a slump or currently feel trapped under the weight of your disempowering thoughts you can change your mind to ultimately change your life Affirmations are not just new age platitudes Their efficacy is rooted in neuroscientific principles that prove we can rewire our brains based on our thoughts It s time to reclaim your mental peace get back your joy and attract positive things into your life It s time to get the rock solid foundation in place to stop living at the emotional whim of your circumstances and get through life seeing the glass half full Take action now Scroll up and click buy now to get this book and the audiobook version today
