Segura-Garcia, Giorgio A. Tasca, 2022-08-09 **Modern Chinese Defence Strategy** Rosita Dellios, 1989-06-18 The author argues that the Chinese believe in the strategy of people's war under modern conditions and are confident that middle range technology and unconventional warfare and the combination of the human and weapon factors represent a successful application of the strategy

Economic Growth Furkan Beşel, Taha Eğri, 2019-01-08 Today the average person in the world lives a more comfortable life compared to the richest people in the last century and in fact their life is more comfortable than even the kings of the previous centuries We owe this situation first and foremost to the high growth rates that gained momentum after the industrial revolution Although high welfare level is not dependent upon economic growth alone it is a prerequisite for welfare Nobody craves equality in poverty In this book in addition to the theoretical development of

economic growth the sources and potential effects of economic growth have been analysed using various methods As such it will serve as an essential reference work for researchers and policy makers

The Democratic Politics of Military Interventions Wolfgang Wagner, 2020-07-09 According to a widely shared notion foreign affairs are exempted from democratic politics i.e. party political divisions are overcome and should be overcome for the sake of a common national interest This book shows that this is not the case Examining votes in the US Congress and several European parliaments the book demonstrates that contestation over foreign affairs is barely different from contestation over domestic politics Analyses of a new collection of deployment votes of party manifestos and of expert survey data show that political parties differ systematically over foreign policy and military interventions in particular The left right divide is the best guide to the pattern of party political contestation support is weakest at the far left of the spectrum and increases as one moves along the left right axis to green social democratic liberal and conservative parties amongst parties of the far right support is again weaker than amongst parties of the centre An analysis of parliamentary debates in Canada Germany and the United Kingdom about the interventions in Afghanistan and against Daesh in Iraq and Syria shows that political parties also differ systematically in how they frame the use of force abroad For example parties on the right tend to frame their country's participation in the US led missions in terms of national security and national interests whereas parties on the left tend to engage in spiral model thinking i.e. they critically reflect on the unintended consequences of the use of force in fuelling the conflicts with the Taliban and Daesh

Self-Defense, Necessity, and Punishment Uwe Steinhoff, 2019-10-08 This book offers a philosophical analysis of the moral and legal justifications for the use of force While the book focuses on the ethics self defense it also explores its relation to lesser evil justifications public authority the justification of punishment and the ethics of war Steinhoff's account of the moral use of force covers a wide range of topics including the nature of justification in general the precise elements of different justifications the logic of claim and liberty rights and of rights forfeiture the value of human life and its limits and the principles of reciprocity and precaution While the author's analysis is primarily philosophical it is informed by a metaethical stance that also places heavy emphasis on existing law and legal scholarship In doing so the book appeals to widely shared moral intuitions precepts and concepts grounded in criminal law Self Defense Necessity and Punishment offers the most comprehensive and systematic account of the ethics of self defense It will be of interest to scholars and graduate students working in applied ethics and moral philosophy philosophy of law and political philosophy

Defending Politics Matthew Flinders,2012-04-25 If the twentieth century witnessed the triumph of democracy then something appears to have gone seriously wrong Citizens around the world have become distrustful of politicians sceptical about democratic institutions and disillusioned about the capacity of democratic politics to resolve pressing social concerns This shift in global attitudes has been explored in a vast body of writing that examines the existence of disaffected democrats and democratic deficits Defending Politics meets this contemporary pessimism about the political process head on In doing so it aims to cultivate a shift from the bland and fatalistic politics of pessimism that appears to dominate public life towards a more buoyant and engaged politics of optimism Matthew Flinders makes a highly unfashionable but incredibly important argument of almost primitive simplicity democratic politics delivers far more than most members of the public appear to acknowledge and understand If more and more people are disappointed with what modern democratic politics delivers then is it possible that the fault lies with those who demand too much fail to acknowledge the essence of democratic engagement and ignore the complexities of governing in the twentieth century rather than with democratic politics itself Is it possible that the public in many advanced liberal democracies have become democratically decadent in the sense that they take what democratic politics delivers for granted Would politics be interpreted as failing a little less if we all spent a little less time emphasising our individual rights and a little more time reflecting on our responsibilities to society and future generations Democratic politics remains a great and civilizing human activity something to be valued almost as a pearl beyond price in the history of the human condition as Bernard Crick stressed in his classic In Defence of Politics fifty years ago But it is also a far more fragile system of governing than many people appear to realize By returning to and updating Crick s arguments this book provides an honest account of why democratic politics matters and why we need to reject the arguments of those who would turn their backs on mere politics in favour of more authoritarian populist or technocratic forms of governing In rejecting fashionable fears about the end of politics and daring to suggest that the public the media pressure groups academics and politicians are all part of the problem as well as part of the cure this book provides a fresh provocative and above all optimistic view of the achievements and future potential of democratic politics
