Postcards From Poland And Other Correspondences:

Postcards from Poland and Other Correspondences Jola Scicinska, Maria Jastrzębska, 1991 Small Press Record of Books in Print ,1992 **Umbrella** ,1992 **FAN** , **Three Minutes in Poland** Glenn Kurtz, 2014-11-18 The author's search for the annihilated Polish community captured in his grandfather's 1938 home movie *Traveling in Europe* in August 1938 one year before the outbreak of World War II David Kurtz the author's grandfather captured three minutes of ordinary life in a small predominantly Jewish town in Poland on 16 mm Kodachrome color film More than seventy years later through the brutal twists of history these few minutes of home movie footage would become a memorial to an entire community an entire culture that was annihilated in the Holocaust *Three Minutes in Poland* traces Glenn Kurtz's remarkable four year journey to identify the people in his grandfather's haunting images His search takes him across the United States to Canada England Poland and Israel to archives film preservation laboratories and an abandoned Luftwaffe airfield Ultimately Kurtz locates seven living survivors from this lost town including an eighty six year old man who appears in the film as a thirteen year old boy Painstakingly assembled from interviews photographs documents and artifacts *Three Minutes in Poland* tells the rich funny harrowing and surprisingly intertwined stories of these seven survivors and their Polish hometown Originally a travel souvenir David Kurtz's home movie became the sole remaining record of a vibrant town on the brink of catastrophe From this brief film Glenn Kurtz creates a riveting exploration of memory loss and improbable survival a monument to a lost world **Poetry Wales** ,1999-07 **Knowing ME** Caeia March, 1998 In this anthology women affected by Myalgic Encephalomyelitis and Chronic Fatigue Syndrome recall their experiences being diagnosed and trying to cope with the illness as well as its effect on their family and friends Numbered Days Alexandra Garbarini, 2006-01-01 Terrorist attacks regularly trigger the enactment of repressive laws setting in motion a vicious cycle that threatens to devastate civil liberties over the twenty first century In this clear sighted book Bruce Ackerman peers into the future and presents an intuitive practical alternative He proposes an emergency constitution that enables government to take extraordinary actions to prevent a second strike in the short run while prohibiting permanent measures that destroy our freedom over the longer run Ackerman's emergency constitution exposes the dangers lurking behind the popular notion that we are fighting a war on terror He criticizes court opinions that have adopted the war framework showing how they uncritically accept extreme presidential claims to sweeping powers Instead of expanding the authority of the commander in chief the courts should encourage new forms of checks and balances that allow for decisive but carefully controlled presidential action during emergencies In making his case Ackerman explores emergency provisions in constitutions ranging from France to South Africa retaining aspects that work and adapting others He shows that no country today is well equipped to both fend off terrorists and preserve fundamental liberties drawing particular attention to recent British reactions to terrorist attacks Written for thoughtful citizens throughout the world this book is democracy's constitutional reply to political excess in the

sinister era of terrorism *Foreign Aeronautical News* ,1930 **Artbibliographies Modern** ,1992 Abstracts of journal articles books essays exhibition catalogs dissertations and exhibition reviews The scope of ARTbibliographies Modern extends from artists and movements beginning with Impressionism in the late 19th century up to the most recent works and trends in the late 20th century Photography is covered from its invention in 1839 to the present A particular emphasis is placed upon adding new and lesser known artists and on the coverage of foreign language literature Approximately 13 000 new entries are added each year Published with title LOMA from 1969 1971 **The Publishers' Circular and Booksellers' Record** ,1918 *Tadeusz Różewicz and Modern Identity in Poland since the Second World War* Wojciech Browarny,2019-04-10 As Andrzej Mencwel observed as a result of fundamental historical changes the need arises for restructuring of the whole present memory and tradition system Rodzinna Europa po raz pierwszy Changes of such significance took place in Poland during the Second World War and several following decades Collective experience of that time was made up of apart from political antagonisms social and cultural phenomena such as change of elites reinterpretation of their grand narratives or symbolic world the ultimate inclusion of the masses into the national project based on the post gentry tradition and national history the intensive development of urban lifestyle and the expansion of popular culture industrialization and the process of forming a single nationality state that diverted from the politics of domination over eastern neighbors and instead focused on developing the so called Polish Western and Northern Lands Tadeusz R ewicz s work referred to these experiences on both the intellectual and biographical level Comparing Juliusz Mieroszewski s political journalism with Tadeusz R ewicz s works Andrzej Mencwel stressed its unique relationship of the author of Niepokoj According to him both writers were writing as though they had truly experienced the end of the world Przedwio nie czy potop Studium postaw polskich w XX wieku In the afterword to the German anthology of R ewicz s works Karl Dedecius mentioned Stunde Null hour zero as the founding experience of his writing It was this experience that induced him to undertake the challenge of attempting a new collective and national as well as individual self identification searching for a radically new way of thinking and writing about man and verifying the essential components of his identity Andrzej Walicki called this urge the catastrophism after a catastrophe explaining that once the catastrophe took place a catastrophist acknowledging its inevitability must think about a new beginning about determining his own place in a new world Zniwolony umys po latach Hanna Gosk specifies that it gave rise to situations when the necessity of discovering one s place in new geographical social axiological and world view related environment urged self identification Bohater swoich czas w Posta literacka w powojennej prozie polskiej o tematyce wsp czesnej It must be stressed that the need for re establishing the sense of identity resulting from a major crisis was by no means limited to the postwar artistic and political elites On the contrary due to social changes and democratization of the access to national culture it concerned more than ever in the past the everyman who did not belong to one class solely the intelligentsia bourgeoisie peasantry or proletariat but most often

represented multiple social rooting Tadeusz R ewicz alongside with writers such as Tadeusz Borowski Marek H asko or Miron Bia oszewski made the Polish everyman Tadeusz Drewnowski the central figure of his work This study discusses the modern identity of an individual in Poland in two variants a cultured man with traditions and an ordinary transitional temporal or new man By adopting the narrativist approach identity can be described through its articulations in culture for example in literary texts Analyzing methods of modern identification and self awareness throughout this book I try to prove that prose works of the author of *mier w starych dekoracjach* present an extensive interesting and diverse material in the matter When necessary I refer also to his dramatic works and poetry especially to some longer poems published after 1989 The author s most important prose works have so far been written in the first 30 year period starting from his debut volume of partisan novellas notes and humorous sketches *Echa le ne mimeographed* in 1944 While focusing on this period I also analyze later works published in collections *Nasz starszy brat* and *Matka odchodzi* published in the last decade of the 20th century although written at an earlier date R ewicz s prose works analyzed here were published predominantly in the threevolume edition of *Utwory zebrane* in 2003 2004 in the reportage collection entitled *Kartki z W gier* 1953 as well as in the collection of newspapers features letters and notes written in the 60s and 70s in most cases entitled *Marginesy* 2010 I also make use of the earlier editions of his works containing prose works not included in *Utwory zebrane* for example from the volume *Opad y li cie z drzew* as well as of some narratives published in journals and anthologies *Conversations with the writer* published in *Wbrew sobie* *Rozmowy z Tadeuszem R ewiczem* 2011 and his letters to Jerzy and Zofia Nowosielscy included in *Korespondencja* comprise an auxiliary material What specifically draws my attention in Tadeusz R ewicz s prose I read his works in the context of identity narratives manifest in culture and historical biographical stories The questions then arise about their formative influence on an individual what within them presents a reference for the self seeking identification When and how does individual experience take on an intersubjective meaning Under what circumstances is it expressed in the public sphere Have new identification patterns emerged in the Polish modernity and if so then what fields and phenomena of the 20th century culture or history have taken on such model significance How and where were boundaries drawn between what is individual in an identity of a person speaking and thinking in Polish on the one hand and on the other what is collective What has been considered native in this identity and what alien for exam ple Western bourgeois communist German Jewish non normative in terms of religion or sexuality and in what way has cultural otherness been constructed at that time Trying to answer these questions I refer to categories of cultural anthropology such as symbolic universe collective memory autobiographical identity body and space in culture as well as to notions from the social sciences interpersonal relationship public discourse and communicative community To put it simply using these categories I try to describe the most important narrative forms and topics of R ewicz s prose that allow the writer to address and express in a liter ary form identity problems faced by an individual and the community I also attempt to analyze the very proces

through which R ewicz devel ops his own unique identity narratives as well as the evolution of narra tive conventions of his literary work Reading R ewicz s works in this manner and organizing chapters of this book from the ones presenting public identity displayed publicly and codified in ideology or aesthetic to the ones presenting private identity I put an especial emphasis on some issues related to cultural studies and social communication Ac cording to the reconstruction model I assume that even private experi ences shape one s identity through culture and language In R ewicz s narratives I describe and compare both more collective and more indi vidual premises for constructing identity The criterion for differentiating between these premises is determined by the narrativist approach adopt ed in this book An individual s identity even autobiographical one is created and expressed within the existing culture and public sphere and for this reason I am interested in history of ideas in social relationships symbols and role models changes of customs and everyday life which left a distinct impression on literary political or historical narratives Reading these narratives I make use of the following authors Jan Assmann Jean Baudrillard Zygmunt Bauman Ernst Cassirer Michel Foucault Marc Fumaroli Hans Georg Gadamer Jerzy Jedlicki Anthony Giddens Iz abela Kowalczyk Philippe Lejeune Maurice Merleau Ponty Stanis aw Ossowski Ewa Rewers Paul Ricoeur Richard Rorty El bieta Rybicka Richard Shusterman Georg Simmel Jerzy Szacki Magdalena roda Charles Taylor Nikodem Bo cza Tomaszewski Christian Vandendorpe Anna Wieczorkiewicz I rely on their reconstruction of social historical background of modern identity presented by these authors as well as on language used by them The book structure results from the overlapping or even conflict of two research objectives My task is to analyze the most important prem ises and forms of identity in R ewicz s prose and I describe them in separate chapters as problems of culture literature and history of ideas as well as models and social projects It is my wish that all these perspectives make up a coherent identity narrative of man of the second half of the 20th century a biographical case study The study covers the pro cess of political empowerment of an individual his her participation in democratized mass culture his her attitude towards collective memory towards Polish and European cultural community experiencing of body sexuality and everyday existence emotional and social relationship with space and finally an autobiographical identity which I reconstruct as a transitional and provisional whole One of the most significant issues covered in the book is the western orientation of Polish collective identity in the 20th century related to the modernization of Central Europe and the postwar division of the continent by the Iron Curtain which created in Poland a phantom idea of the West as well as to the shifted borders of the Polish state to the territories by the Odra river and the Baltic Sea to polonization of former German lands and finally to historical and polit ical discourse legitimizing this transfer of territories Tadeusz R ewicz as a travelling writer and journalist has relentlessly problematized the relationship between Europe and its Polish idea as a resident in Gliwice and Wroc aw not only has he described since the trip down the Odra river on a fishing boat from Ko le to Szczecin in 1947 symbolic colonization of the post German Nadodrze but also artistically diagnosed the birth of the new individual and social identity of the inhabitants of this border area with its clashing narratives

of history biography and national literature alongside the overlapping traces of different cultures and traditions Writing about R ewicz s man in this book I clearly do not mean the writer himself It is obvious that among many convictions and attitudes that the author of Sobowt r manifests there are some of which he is fond and there are others of which he is not I do not disregard his views voiced in non fiction narratives and public speeches yet I am mostly interested in experience world view and self comprehension of his literary persona and literary hero presented or partially derived from an idea of man and of community in his texts Analyzing R ewicz s works I therefore distinguish between his self evident journalistic approach and his humanistic reflection which is a result of a philosophical or literary presentation of identity problems an individual faces I read his prose as an element of a public discourse and at the same time as an indirect formulated in fictional intimate or notebook narratives criticism of social reality and European culture in the 20th century In most cases I leave open questions such as whether or not R ewicz was or is committed to a specific political project whether or not he is a modern man in different meanings of this notion whether or not his personal identity coincides with identity narratives in his books Finding an answer to these questions is not a purpose of this book It is distinctively the problem of Tadeusz R ewicz s intellectual commitment to modern culture literature and history and a problem of the writer s role in creative and critical understanding of them that I find more interesting and important

The Kindertransport Jennifer Craig-Norton, 2019-06-25 A timely study of the effects of family separation on child refugees using newly discovered archival sources from the WWII era Highly recommended Choice The Kindertransport an organized effort to extract children living under the threat of Nazism lives in the popular memory as well as in literature as a straightforward act of rescue and salvation but these celebratory accounts leave little room for a deeper more complex analysis This volume reveals that in fact many children experienced difficulties with settlement they were treated inconsistently by refugee agencies their parents had complicated reasons for giving them up and their caregivers had a variety of motives for taking them in Against the grain of many other narratives Jennifer Craig Norton emphasizes the use of newly discovered archival sources which include the correspondence of refugee agencies carers Kinder and their parents and juxtaposes this material with testimonial accounts to show readers a more nuanced and complete picture of the

Kindertransport In an era in which the family separation of refugees has commanded considerable attention this book is a timely exploration of the effects of family separation as it was experienced by child refugees in the age of fascism *The Athenaeum* ,1904
