Postethnic America Beyond Multiculturalism

Postethnic America Beyond Multiculturalism:

Postethnic America David A Hollinger, 2006-02-28 Sympathetic with the new ethnic consciousness Hollinger argues that the conventional liberal toleration of all established ethnic groups no longer works because it leaves unchallenged the prevailing imbalance of power Yet the multiculturalist alternative does nothing to stop the fragmenting of American society into competing ethnic enclaves each concerned primarily with its own well being Hollinger argues instead for a new cosmopolitanism an appreciation of multiple identities new cross cultural affiliations based not on the biologically given but on consent on the right to emphasize or diminish the significance of one's ethnoracial affiliation Postethnic America is a bracing reminder of America's universalist promise as a haven for all peoples While recognizing the Eurocentric narrowness of that older universalism Hollinger makes a stirring call for a new nationalism He urges that a democratic nation state like ours must help bridge the gap between our common fellowship as human beings and the great variety of ethnic and racial groups represented within the United States

American Multiculturalism After 9/11 Derek Rubin, J. Verheul, 2009 This provocative and rich volume charts the post 9 11 debates and practice of multiculturalism pinpointing their political and cultural implications in the United States and Europe

After Multiculturalism John F. Welsh, 2007-12-12 After Multiculturalism The Discourse on Race and the Dialectics of Liberty provides a unique critique of multiculturalist thought in social theory and public policy from an individualist perspective Contemporary academic and policy discourse on race and racism in the United States is dominated by collectivist social theories that are founded on the idea that the only meaningful challenges to racism are those that foster collective social identities and seek to influence and direct the use of state power in the interest of particular racial and ethnic groups Multiculturalism is the prevailing incarnation of anti racist thought that informs and mediates political process and organizational life in the United States The multicultural discourse on race has become tribalist anti western anti market and statist After Multiculturalism challenges the notion that collectivist and statist ideologies own racism as an educational and public policy issue Welsh demonstrates that individualist philosophies entail critiques of racism that follow directly from their anti collectivist and anti statist foundations He argues that multiculturalism is unlikely to promote the types of social action and changes essential to overcoming racism and that the individualist and libertarian ideas discussed in the book make important contributions toward the realization of a world free of racial domination To this end the ideas of Ayn Rand Murray Rothbard Benjamin Benjamin Tucker Lysander Spooner Max Stirner and contemporary libertarian scholars are discussed to lay the foundation for a critique of multiculturalism The book explores the concepts of post ethnicity and transracialism as individualist and libertarian expressions of a society after multiculturalism Welsh's discussions of transracialism and post ethnicity constitute unique and important contributions to social thought This book will hold great interest for scholars and students concerned with race ethnicity political theory or individualist thought as well as scholars and students of the history of ideas
