## **Postmodern Metaphysics:**

Being and Value Frederick Ferre, Frederick Ferré, 1996-01-01 Being and Value begins with a discussion on metaphysics showing the vital relationship between human life and the philosophical placement of value and emphasizing the current transition from the old mechanical worldview to the postmodern alternative inspired by ecology Being and Value shows how intimately premodern philosophy bound value into the fabric of things and analyzes the expulsion of value from factual being during the modern period Special attention is given to beauty What is the relationship between the subjective and objective conditions of beauty Is the beauty of nature merely the product of human appreciation The answer is that beauty and value is a more potent ingredient in the structure of things than modern reductionism allows **Postmodern Theory** Steven

Best, Douglas Kellner, 1991-01-01 In this timely volume the authors systematically analyze postmodern theory to evaluate its relevance for critical social theory and radical politics today Best and Kellner provide An introduction and critique of the work of Foucault Deleuze and Guattari Baudrillard Lyotard Laclau and Mouffe and Jameson which assess the varying contributions and limitations of postmodern theory A discussion of postmodern feminist theory and the politics of identity A systematic study of the origin of the discourse of the postmodern in historical sociological cultural and philosophical studies The authors claim that while postmodern theory provides insights into contemporary developments it lacks adequate methodological and political perspectives to provide a critical social theory and radical politics for the present age **The**

**Cambridge Companion to Postmodern Theology** Kevin J. Vanhoozer, 2003-07-31 Postmodernity allows for no absolutes and no essence Yet theology is concerned with the absolute the essential How then does theology sit within postmodernity Is postmodern theology possible or is such a concept a contradiction in terms Should theology bother about postmodernism or just get on with its own thing Can it Theologians have responded in many different ways to the challenges posed by theories of postmodernity In this introductory 2003 guide to a complex area editor Kevin J Vanhoozer addresses the issue head on in a lively survey of what talk about God might mean in a postmodern age and vice versa The book then offers examples of different types of contemporary theology in relation to postmodernity while the second part examines the key Christian doctrines in postmodern perspective Leading theologians contribute to this clear and informative Companion which no student of theology should be without Postmodernism and the Environmental Crisis Arran Gare, 2006-08-21

Postmodernism and the Environmental Crisis is the only book to combine cultural theory and environmental philosophy In it Arran Gare analyses the conjunction between the environmental crisis the globalisation of capitalism and the disintegration of the culture of modernity It explains the paradox of growing concern for the environment and the paltry achievements of environmental movements Through a critique of the philosophies underlying approaches to the environmental crisis Arran Gare puts forward his own controversial theory of a new postmodern world view This would be the foundation for the environmental movement to succeed Arran Gare s work will be a vital reading for advanced students of environmental

studies as well as for environmental philosophers and cultural theorists      *Religion, Metaphysics, and the Postmodern*

Christopher Ben Simpson, 2009 Engages two provocative contemporary philosophers of religion      *Postmodern Metaphysics*

Chrēstos Giannaras, 2004 Christos Yannaras's book is an important contribution to the theology science debate It offers a respectable alternative to creationist resistance to materialistic evolutionism It shows how spiritual reality transcends the categories of chance and necessity that materialists believe can explain everything It argues passionately for the priority of relationality and reciprocity the spiritual dimension through which we can discover God's causality and so enter into personal relation with him BOOK JACKET      *Postmodernism: A Bibliography, 1926-1994* Deborah L. Madsen, 2023-11-20 This is the first bibliography of Postmodernism to take account of work published in all subject areas and in all languages Deborah Madsen has identified a new first occurrence of the term in 1926 preceding by more than twenty years the first occurrence documented by the Oxford English Dictionary In a chronological listing books articles notes letters and working papers on Postmodernism are described with full bibliographical details Reviews of major books are documented and full contents listings are given for special issues of journals devoted to Postmodernism An appendix includes books on Postmodernism announced for publication in 1995 This bibliography brings together in one place all secondary material published on Postmodernism All disciplines are included from anthropology to zoology architecture cultural studies dance drama feminism fiction geography history legal studies literary theory mathematics medicine music pedagogical theory philosophy photography and film poetry politics religion sociology the visual and plastic arts and others The bibliography also documents items in a range of languages other than English Chinese French German Italian Japanese Russian Slovenian Spanish and the Scandinavian languages Access to the information contained in the bibliography is made easy with a comprehensive index providing guidance according to author subject language and key words Postmodernism A Bibliography 1926 1994 is an essential reference text for anyone working in the area of contemporary culture studies      **Groundless Gods** Eric Hall, Hartmut von Sass, 2014-08-01 Groundless Gods The Theological Prospects of Post Metaphysical Thought deals with possible interpretations of an emerging interest in contemporary theology postmetaphysical theology This book attempts to openly come to grips not only with what metaphysics and postmetaphysics imply but also with what it could mean to do or not do theology from the standpoint of the nonmetaphysician The book asks for instance whether this world has any singular definition and whether God is some being standing apart from the world or an experience within the world      **Goddess as Nature** Paul Reid-Bowen, 2016-04-15 Goddess as Nature makes a significant contribution to elucidating the meaning of a female and feminist deity at the beginning of the twenty first century Bridging the gap between the emergent religious discourse of theology discourse about the Goddess and a range of analytical concerns in the philosophy of religion the author argues that theology is not as incoherent as many of its critics claim By developing a close reading of the reality claims embedded within a range of theological texts one can discern an ecological and pantheistic concept of deity and reality that

is metaphysically novel and in need of constructive philosophical theological and scholarly engagement Philosophical theology is in an age concerned with re conceiving nature in terms of agency chaos complexity ecological networks and organicism both an active possibility and a remarkably valuable academic feminist and religious endeavour **The Politics of Postmodernism** Linda Hutcheon,2003-12-16 Working through the issue of representation in art forms from fiction to photography Linda Hutcheon sets out postmodernism s highly political challenge to the dominant ideologies of the western world **Higher Education in the Making** George Allan,2004-02-26 Argues for a pragmatic canon always in need of renovation *The Resurgence of the Real* Charlene Spretnak,1999 In this insightful beautifully written work an important feminist ecological thinker argues that an ecological postmodern ethos has been lately emerging **Kazantzakis and God** Daniel A. Dombrowski,1997-10-16 Not a stage comedy but an exploration of Greek writer Nikos Kazantzakis 1883 1957 view of God specifically of his attempt to develop a view superior to the traditional one Finds that he chose Plato s approach over Aristotle and that though his theism is heterodox and controversial it is a combination of views that grow out of solidly orthodox concerns and sources No subject index Annotation copyrighted by Book News Inc Portland OR **Transforming Human Culture** Jay Earley,1997-01-01 The next step in social evolution Earley argues is to take conscious charge of our future by integrating the ground qualities with the emergent qualities so that they can continue to evolve but in a healthy way **Postmodernism and Cultural Identities** Virgil Nemoianu,2010 An examination of the survival of cultural values in a postmodern environment *A Society Fit for Human Beings* Elie Maynard Adams,1997-10-31 Argues for a humanistic cultural reformation to counter our materialistic values and science dominated intellectual life and shows how this would affect our lives and transform our society A Society Fit for Human Beings contends that there is a profound incoherence in the foundations of modern Western civilization and that we are on a self destructive course With the quest for wealth and power our dominant concern we find ourselves with a flourishing economy and a supreme military force based on science and technology but with our moral civic and religious culture undermined by our way of comprehending the world Our human identity is problematic the wells of meaning that nourish the human spirit are polluted or drying up and the social order is in disarray This situation E M Adams argues requires nothing less than a historic cultural revolution based on a shift in priorities from wealth and power to humanistic values those grounded in selfhood and lived experience that are essential for human growth meaningful lives and a healthy society Such a shift in our governing values would require a restructuring of our intellectual vision of humankind and the world in terms of humanistic categories This book shows the import of such a humanistic cultural revolution for our human identity morality the social order and our major institutions including the family and community education the economy the government the military and religion It outlines how we can work toward such a cultural revolution and develop a constructive postmodern civilization with a society fit for human beings **The Philosophy of Antonio Negri, Volume Two** Timothy S. Murphy,Abdul-Karim Mustapha,2007-05-20 The spectacular

success of Empire has brought Negri's writing to a new wider audience. This book reveals the variety and complexity of Negri's thought and its unique relevance to modern politics. Outstanding contributors include Pierre Macherey, Daniel Bensaï, and Alex Callinicos and Judith Revel. Negri is one of the most sophisticated analysts of modern political philosophy. His work is both difficult and exhilarating, engaging as it does with Marx, Spinoza, Deleuze, Guattari, Tronti, and others. This book is ideal for readers who want to get to grips with Negri's key themes. It makes a great introduction to his work for students of political philosophy as well as providing a comprehensive critical approach for Negri enthusiasts. This book is the sequel to *The Philosophy of Antonio Negri: Volume One: Resistance in Practice* (Pluto, 2005) but can be read entirely independently.

*Jewish Theology and Process Thought* Sandra B. Lubarsky, David Ray Griffin, 2012-02-01. This collection constitutes the first extended discussion of the relationship between Judaism and process thought. In the last half century the philosophies of Alfred North Whitehead and Charles Hartshorne have become important sources for contemporary theological reflection. Recently a number of Jewish thinkers have examined process thought as a potentially valuable resource for postmodern Jewish theology. This book brings together many Jewish thinkers who have pioneered this discussion, Jewish thinkers who have found process thought to be a useful framework for contemporary Jewish thought, discuss issues that are primarily theological such as God's transcendence and immanence, the problem of evil, the idea of revelation. Also included is a dialogue between Jewish and Christian thinkers on the appropriateness of process thought for their religious traditions. Critical reflection on the continuities and discontinuities between Judaism and the process model is also covered.

**Existential Theology** Hue Woodson, 2020-09-29. *Existential Theology: An Introduction* offers a formalized and comprehensive examination of the field of existential theology in order to distinguish it as a unique field of study and view it as a measured synthesis of the concerns of Christian existentialism, Christian humanism, and Christian philosophy with the preoccupations of proper existentialism and a series of unfolding themes from Augustine to Kierkegaard. To do this, *Existential Theology* attends to the field through the exploration of genres: the European traditions in French, Russian, and German schools of thought; counter traditions in liberation, feminist, and womanist approaches; and postmodern traditions located in anthropological, political, and ethical approaches. While the cultural contexts inform how each of the selected philosopher-theologians present genres of existential theology, other unique genres are examined in theoretical and philosophical contexts, particularly through a selected set of theologians, philosophers, thinkers, and theorists that are not generally categorized theologically. By assessing existential theology through how it manifests itself in genres, this book brings together lesser-known figures, well-known thinkers, and figures that are not generally viewed as existential theologians to form a focused understanding of the question of the meaning of existential theology and what existential theology looks like in its varying forms.

*God, Humanity, and the Universe* Alexei V. Nesteruk, 2023-10-27. The main objective of this book on cosmology and theology is to reassess the current approach to research in the field of interaction, mediation, and dialogue between modern cosmology and Christian theology.

Eastern Orthodox theology in particular This project was part of wide ranging cross disciplinary research undertaken by scientists philosophers and theologians across the world within the framework of Science Orthodoxy around the World run by the National Hellenic Research Foundation Athens from 2019 to 2023 The project and this publication contribute to the large scale academic activity in the field of science and religion or science and theology with a particular accent on the contribution of Eastern Orthodox theology to this dialogue as well as to the venues of advancement of this theology given the recent breakthroughs in cosmology physics and philosophy The book also underlines the importance of expressing cosmological ideas theologically symbolically and scientifically in the wide context of culture and humanity s sociopolitical and environmental predicaments
