Nell Becker Sweeden

Postmodern Times A Christian Guide To Contemporary Thought And Culture:

Postmodern Times Gene Edward Veith (Jr.),1994 The cultural landscape is now made up of diverse communities feminists gays neo conservatists African Americans pro lifers who seem to have no common frame of reference by which to communicate with each other Veith offers Christians instructions as to how they can respond to these varied groups

Preaching Christ in a Postmodern Culture K. A. Beville,2010-04-16 Starting with some observations relating to shifts in ecclesiology and identifying them as a move beyond contextualization to syncretism this work goes on to assess the feasibility of preaching in a postmodern culture which rejects both the idea of absolute truth and authority used as power It traces the historical and philosophical development of postmodernism The Enlightenment project is deemed to have failed and Christianity is perceived as an oppressive metanarrative In a world that is becoming increasingly sceptical and where preaching practitioners are becoming disillusioned this book offers some guidelines about preaching to postmoderns In a relational age rationality is impotent but the author distinguishes between authoritative and authoritarian preaching allowing hope for the survival of the homiletic task Humility is presented as preferable to certitude and persuasion is redefined The author suggests using an inductive mode of communication as a means of engaging postmodern listeners He signposts a way forward in the labyrinthine complexity of the new paradigm and demonstrates that the homiletic task is still feasible Thus this book will be of interest to teachers and students of theology as well as pastors desiring to develop a new apologetic strategy

How Postmodernism Serves (My) Faith Crystal L. Downing,2006-05-15 Crystal L Downing introduces students especially those in the arts to postmodernism where it came from and how Christians can best understand critique and benefit from its insights

Discipleship in the Postmodern Age Daniel L. Kohn,2020-09-04 There is a missing link in most churches today There is a significant gap between membership and active involvement in ministry What is missing is what Jesus modeled in His earthly ministry disciple making In the absence of this model from Christ churches struggle to maintain membership and ministry Underequipped members lack the enthusiasm and insight to truly be a part of active ministry The reverse is also true when members are trained as active disciples the ministry potential of the church can follow that of the early Christian church outlined in the book of Acts Yes the model works as the Holy Spirit works in the transformed lives of today s disciples as He has throughout the history of the church This book will give you practical insights for developing a discipleship process in your church

The Gaggling of God D. A. Carson,2009-09-01 The Gold Medallion Award winning book that presents a persuasive case for Christ as the only way to God in light of contemporary religious pluralism A great majority of social commentators attempting to define modern Western culture land on a common characteristic pluralism This isn t unique to secular culture Many modern approaches to Christian hermeneutics or biblical interpretation have given credence to contemporary pluralism What began as a refreshing restraint and humility in modern theology has fallen more and more into irresoluteness It s no secret that the contemporary challenges to Christianity are complex and serious Yet far

from simple fear mongering or cultural warmongering The Gagging of God takes a hard look at the background and intricacy of pluralism postmodernity and hermeneutics and equips thoughtful Christians to have intelligent culturally sensitive and passionate fidelity to the gospel of Jesus Christ In his contemplative even handed approach Carson provides a structure of Christian thought capable of facing the philosophies of today and piercing their surface It invites Christians to grapple responsibly with urgent questions of biblically grounded theology spirituality and the defining lines of Christianity along with its range of challenges from without and within The Gagging of God offers an in depth look at the big picture shows how the many ramifications of pluralism are all parts of a whole and provides a systematic Christian response *A Definition and Critique of Postmodernism* Bruce Proctor,2012

Bruce A Proctor is a native of Dallas Texas but spent most of his youth growing up in Los Angeles California He graduated from Oklahoma Christian College B A in 1973 from Dallas Theological Seminary Th M in 1981 and Louisiana Baptist University Ph D in 2011 Bruce has held various ministerial positions including pastor youth counselor and pastor prison ministry leader and college professor Bruce has taught Bible Exposition Theology Old and New Testament history and Church History at various Christian schools Southern Bible Institute D Edwin Johnson Bible Institute both in Dallas TX True Vine Baptist Bible Institute in Spencer OK and at the Ministry Training Institute an extension of Oklahoma Baptist University in Shawnee OK Bruce and his wife Patricia reside in San Antonio Texas They have eight adult children Postmodernism is difficult to define because it rejects absolute meaning However I found it worth trying to define it by looking at other authors attempts to define it It was easier for me to describe than define it Much discussion is also given to the definition of the emergent church movement including its fundamental tenets and marks along with signs of drifting toward it Next the idea of postmodernism is weaved into the description of condemned mankind according to Romans 1 18 32 The description given is clearly relevant to the postmodern mindset as men who suppress the truth in unrighteousness verse 18 In my conclusion I discuss the power of truth and the loss of truth due primarily to a loss of focus However in the Person of Jesus Christ Truth arose from the dead and marches on victoriously despite the postmodern spirits of delusions **Theosis** Michael Paul Gama,2017-02-20

Evangelicalism is reaching an inflection point The exodus of millennials from Evangelical churches and the growth of those self identifying as Nones as in None of the Above for their church affiliation is concerning for the movement s future Evangelical leaders offer mixed responses to this challenge from circling the wagons to an enthusiastic Everything must change posture Theosis takes a different approach Seeking to understand Evangelicalism and its origins this book suggests that Evangelicalism is best understood as the sibling of western Enlightenment Modernity which served it well until the modern cultural ethos began to shift dramatically toward post modernity In this shift young Evangelicals principally postmoderns themselves are abandoning their father s Evangelicalism and its perceived linearity hyper rationalism either or exclusivity and faith expression too often perceived as stripped of mystery and wonder Theosis proposes that to move forward Evangelicalism must go back to the future to re engage with the

patristic understanding of salvation as theosis deification or union with God This radical return and broadening of the doctrine of salvation has begun to gain traction in Western Christendom slowly being considered as it has always in the Christian East as mere Christianity Truth Decay Douglas Groothuis, 2009-09-20 A 2001 Christianity Today Award of Merit winner The concept of truth as absolute objective and universal has undergone serious deterioration in recent years No longer is it a goal for all to pursue Rather postmodernism sees truth as inseparable from culture psychology race and gender Ultimately truth is what we make it to be What factors have accelerated this decay of truth Why are people willing to embrace such a devalued concept How does this new view compare and contrast with a Christian understanding While postmodernism contains some truthful insights despite its attempt to dethrone truth Douglas Groothuis sees its basic tenets as intellectually flawed and hostile to Christian views In this spirited presentation of a solid biblical and logical perspective Groothuis unveils how truth has come under attack and how it can be defended in the vital areas of theology apologetics ethics and the arts *Finding Truth* Nancy Pearcey, 2015-03-01 Christianity Has the Resources to Address Intellectual and Cultural Issues Do You Christians can feel overwhelmed at the sheer number of competing worldviews in today's pluralistic multicultural society Thankfully you don't have to memorize a different argument to answer every new issue Instead you can master a single line of defense grounded in Scripture that applies to any theory In Romans Paul reveals the strategy for defending the Christian message in a pluralistic culture where many are hearing it for the first time Finding Truth is the real world training manual that equips you to confidently address issues you'll face in the classroom workplace and popular culture *Enduring Liberalism* Robert Booth Fowler, 2021-10-29 Has the United States become more pluribus than unum In terms of the nation's political beliefs Robert Booth Fowler answers both yes and no While his study affirms significant diversity among an elite cadre of public intellectuals it vigorously denies it in a general public that collectively adheres to the same set of liberal core values Enduring Liberalism pursues two objectives One it explores the political thought of public intellectuals and the general public since the 1960s Two it assesses contemporary and classic interpretations of American political thought in light of the study's findings Fowler interprets the writings of public intellectuals like Robert Bellah Jean Bethke Elshtain Michael Walzer William Bennett Seymour Martin Lipset William Galston and others as well as survey data of American political attitudes to spotlight this oft ignored divide between citizens and high profile commentators whose contentious debates are mistakenly assumed to reflect countrywide rifts Fowler's argument is straightforward but the interpretation is controversial He recounts how the consensus liberal view in post World War II American political thought collapsed among public intellectuals during the tumult of the 1960s and remains so to this day His book examines the resultant diversity among contemporary public intellectuals focusing on three predominant themes concern for community worry about the environment and interest in civil society In marked contrast to these disputatious commentators Fowler finds the realm of popular opinion to be characterized by much greater consensus Indeed there seems to be a trend toward an

even more general embrace of the liberal values that characterize our attitudes toward the individual individual liberty political equality economic opportunity and consent of the governed Liberal values above all the celebration of the individual and individual rights have revolutionized the so called private realms of life like family and religious communities to an extent unimagined in the 1950s From these conclusions Fowler demonstrates that most interpretations of American political thinking have exaggerated the extent of conflict and diversity in our nation s often raucous policy disputes But he also cautions us not to overstate the public s widely shared liberal values and by doing so miss opportunities to facilitate problem solving or to recognize the ways in which our reform efforts may be constrained Church on the Way Nell Becker

Sweeden,2015-07-17 The practice of Christian hospitality reaches back to the early centuries of Christian life as well as deep into Jewish history life and Scripture This practice is alive today in Christian churches and in parachurch organizations within the United States but new contextual realities in particular twenty first century global migration patterns have altered the conditions under which hospitality is practiced The reality of migration and its effect on human lives disrupts static conceptions of hospitality and challenges ecclesial communities toward contextual appropriation of hospitality practice This volume explores Christian hospitality practice in light of twenty first century U S Latino a migration and it develops the notion of a journeying hospitality of accompaniment with and among persons migrating which fosters deeper relationships and formation The shifting identities of persons on the move challenge assumptions about what it means to welcome another in hospitality and ultimately what it means to be church from within these new relationships In turn the new conceptions and expressions of hospitality offered in this book press how the nature and mission of the church will be oriented toward new ecclesial patterns and alternative forms of residing on earth **The Tabernacled Presence of God** Susan

Booth,2015-09-18 Although a large majority of believers agree that they should share their faith most report that they in fact do not That s not really all that surprising given today s pluralistic cultural setting But maybe this same culture s longing for transcendence community and a place to call home points to a backstory that makes sense of it all If such a narrative exists it deserves a hearing and those who know and live this story have both the responsibility and privilege of sharing its message of hope The narrative of the Bible tells just such a story where God s purpose from the beginning has been to dwell or tabernacle in the midst of the people he has created This book traces the theme of God s tabernacled presence across Scripture reading the story afresh through a missional lens in order to gain insights for mission and gospel witness The hope is that readers will awaken wide eyed to the wonder of God s tabernacled presence in our midst that we will live in such a way that others recognize this reality and that we will boldly and joyfully share the good news of Jesus under the direction and power of his indwelling Spirit *The Integration of Faith and Learning* Robert A. Harris,2004-04-22 The Integration of Faith and Learning A Worldview Approach provides students with the philosophical context and practical tools necessary for making the connections between Christian knowledge and the knowledge they will acquire during their undergraduate and

graduate years in higher education This book focuses on helping students understand how worldviews influence the interpretation of data and even what is judged to be knowledge itself The worldviews of philosophical naturalism postmodernism and Christianity are compared and analyzed Throughout the book emphasis is placed on helping students develop the practical skills needed to evaluate knowledge claims and to integrate all knowledge into a unified whole through the touchstone of Christian truth

A Strategy For Reaching Secular People Ernan A. Norman, D. Min.,2007-05-11 Dr Ernan A Norman D Min has identified strategies to implement John 13 35 All people will know that you are my followers if you love each other An excellent source for the essential principles of discipleship in a postmodern world This book is written in nontechnical language based on the experiences as a student pastor and professor I believe that the concepts presented are fundamental and are in harmony with the model demonstrated by Jesus during His ministry on earth Meeting people at their level putting their needs ahead of His own treating people with respect befriending the nonreligious and inviting them into a relationship with Himself are some of the concepts that are identified and supported as strategies for reaching secular people This book is an outstanding and important piece of work and easily readable I would urge A Strategy for Reaching Secular People on members and leaders in every church if they are willing to challenge basic assumptions and embrace change relative to reaching lost people Strategies that remove the barriers that keep people from hearing about God's love and to create a warm friendly uncritical and non judgmental attitude of acceptance are clearly presented Full of practical how to's and watch out's this book by Ernan Norman is for individuals serious about sharing the love of God As we interact with and minister to secular people matters such as marriage and family academics employment addictions and human rights must be addressed Norman clearly gives strategies for intentional efforts to reach secular postmodern men and women in our day The central concept is the example of Jesus that we should follow A must read Weymouth Spence Ed D President of Washington Adventist University

Hollywood Worldviews Brian Godawa,2011-11-02 In this thoroughly revised and updated edition of his popular book Brian Godawa guides you through the place of redemption in film the tricks screenwriters use to communicate their messages and the mental and spiritual discipline required for watching movies

Christian Worldview and the Academic Disciplines Deane E. D. Downey, Stanley E. Porter,2009-04-15 This book an edited compilation of twenty nine essays focuses on the differences that a Christian worldview makes for the disciplines or subject areas normally taught in liberal arts colleges and universities Three initial chapters of introductory material are followed by twenty six essays each dealing with the essential elements or issues in the academic discipline involved These individual essays on each discipline are a unique element of this book These essays also treat some of the specific differences in perspective or procedure that a biblically informed Christian perspective brings to each discipline Christian Worldview and the Academic Disciplines is intended principally as an introductory textbook in Christian worldview courses for Christian college or university students This volume will also be of interest to Christian students in secular post secondary institutions

who may be encountering challenges to their faith both implicit and explicit from peers or professors who assume that holding a strong Christian faith and pursuing a rigorous college or university education are essentially incompatible This book should also be helpful for college and university professors who embrace the Christian faith but whose post secondary academic background because of its secular orientation has left them inadequately prepared to intelligently apply the implications of their faith to their particular academic specialty Such specialists be they professors or upper level graduate students will find the extensive bibliographies of recent scholarship at the end of the individual chapters particularly helpful

Surviving Technopolis Arthur W. Hunt III,2013-09-24 Technopolis has no end in view other than bigger faster newer and more While giving us many material benefits at least in the short run in its wake are spiritual loss alienation and devastation These essays not only evaluate Technopolis but also seek wisdom to cope with our new human made environments Positively stated they offer suggestions on how to bring us back into balance Some of our best wisdom in analyzing Technopolis can be found in the voices of the Christian humanists Unlike Enlightenment humanism which tends to be human centered Christian humanism is concerned with the role of humankind within God s created order G K Chesterton T S Eliot J R R Tolkien and C S Lewis represent this tradition They and others like them understood that technological progress with no clear telos obscures what Eliot called the permanent things Surviving Technopolis means restoring the things closest to us those old identity forming institutions of home church and community

Encyclopedia of Christianity in the Global South Mark A. Lamport,2018-06-01 The rapid growth of Christianity in the global south is not just a demographic shift it is transforming the faith itself The Encyclopedia of Christianity in the Global South traces both the history and the contemporary themes of Christianity in more than 150 countries and regions It includes maps images and a detailed timeline of key events

The Future of Baptist Higher Education Donald D. Schmeltkopf,Dianna M. Vitanza,2006 The Future of Baptist Higher Education investigates four key issues that inform Baptist efforts at higher education the denominational conflict that has afflicted Baptists since the 1980s the secularization of higher education in America the dominance of the market driven tendencies in American higher education today and the meaning of Christian higher education but more specifically the meaning of Baptist higher education This volume clearly illustrates that the meaning of Baptist and Christian higher education as with the Christian life itself is far more complex than any one imperial interpretation

Rethinking the Church James Emery White,2003-07-01 Why is it important to rethink the church Today many leaders focus on how their ministries can be run more efficiently But the foundational question according to James Emery White should be Why do we have this ministry and then Why do we do this ministry the way we do Is it effective Rethinking the Church helps pastors and lay leaders work through questions that must be answered if a church is to rethink evangelism discipleship ministry worship community and the structure of the church Break old molds check assumptions and be sensitive says White He uses the language and aims of seeker targeted churches but urges readers not to tie themselves

to any model without understanding the individual purpose of their church Now thoroughly revised and expanded Rethinking the Church contains more emphasis and key material on how to move from rethinking to transition White blends biblical reflection and hands on experience and uses the early church as described in the Book of Acts as the ultimate example
