 Norwine,1993-03-31 In geography the spatial truths one endeavors to recognize are unfolding patterns in the dynamic  
 relations between Homo sapiens and Earth These patterns give rise to a geographer s quest of ever receding horizons of  
 understanding This book is a collection of interconnected essays and talks which pursue the pattern of our age a time of the  
 most profound disjunctions of intellectual and spiritual worldviews since the nova of scientific knowledge The author  
 observes an imminent collision between a pair of antithetical certainties the modern primacy of individual freedom and the  
 traditional primacy of the collective The author aspires to the reconciliation of antinomies a meeting of themes and a collage  
 of philosophically geographical observations rather than a mere patchwork His presentation reflects the underlying

**Ching: a guide to the interpretation of the foundational book of Taoism** Shantena Augusto Sabbadini,2013-04-01 The  
 Tao Te Ching is the foundational text of Taoism Traditionally considered the work of the Old Master Lao Tzu a senior  
 contemporary of Confucius this 2500 years old text is a poetic and supremely concise formulation of some of humanity s  
 highest wisdom Revered as a basic book of spiritual guidance throughout Chinese history it has become a beloved  
 inspirational work in the West The present work is meant to help the Western reader to penetrate the depth and subtlety of  
 Lao Tzu s wisdom without requiring a knowledge of the Chinese language Readers are offered a choice between various  
 interpretations and are guided in non technical terms to explore how they originate More importantly they are also offered  
 the possibility to hold all the various resonances of the text simultaneously just as a Chinese reader would and thus access  
 the original wealth of meaning in a way no ordinary translation could convey      **Tao Te Ching** Peter Land,2005-11-01 This  
 book is translated directly from the Chinese and sets out to provide as nearly as possible a literal translation giving English  
 text without gratuitous interpretation There are full translator s notes and many footnotes to assist the reader to come to his  
 or her individual understanding of the text In this way there is as little as possible of forcing Western concepts on the  
 material The book will appeal to anyone of a philosophic turn of mind and makes an ideal gift Peter Land believes that the  
 Tao is a better underpinning of the Christian ethic than Plato Certainly with our civilisation seeming not to be sure of its  
 purpose these principles should be considered
