Stanek, 2016-12-08 This open access book looks at the migration of Southern European EU citizens from Portugal Spain Italy Greece who move to Northern European Member States Belgium France Germany United Kingdom in response to the global economic crisis Its objective is twofold First it identifies the scale and nature of this new Southern European emigration and examines these migrants socio economic integration in Northern European destination countries This is achieved through an analysis of the most recent data on flows and profiles of this new labour force using sending country and receiving country databases Second it looks at the politics and policies of immigration both from the perspective of the sending and receiving countries Analysing the policies and debates about these new flows in the home and host countries this book shows how contentious the issue of intra EU mobility has recently become in the context of the crisis when the right for EU citizens to

move within the EU had previously not been questioned for decades Overall the strength of this edited volume is that it compiles in a systematic way quantitative and qualitative analysis of these renewed Southern European migration flows and draws the lessons from this changing climate on EU migration

The EU, Migration and the Politics of Administrative Detention Michela Ceccorulli, Nicola Labanca, 2014-04-16 Migration is now regarded as a security issue both in public debate and government policies In turn the phenomenon of detention as a governance practice has emerged and the developing presence of camps in Europe for migrants has given rise to a tangle of new and complex issues This book examines the phenomenon of irregular immigration and provides a comprehensive picture of the practices and the implications of detention of migrants within and the European Union It

analyses detention as a tool of governance and in doing so explores several key themes the security threat for Europe the security governance processes enacted to handle irregular immigration the forms of detention in different geographical contexts the effectiveness of the EU's approach to the issue The EU Migration and the Politics of Administrative Detention will be of interest to students and scholars of the EU's external relations migration human rights European politics and security studies *At Europe's Edge* Cetta Mainwaring, 2019-09-05 The Mediterranean Sea is now the deadliest region in the world for migrants Although the death toll has been rising for many years the EU response remains fragmented and short sighted Politicians frame these migration flows as an unprecedented crisis and emphasize migration control at the EU's external boundaries In this context *At Europe's Edge* investigates why the EU prioritizes the fortification of its external borders why migrants nevertheless continue to cross the Mediterranean and to die at sea and how EU member states on the southern periphery respond to their new role as migration gatekeepers The book addresses these questions by examining the relationship between the EU and Malta a small state with an outsized role in migration politics as EU policies place it at the crosshairs of migration flows and controls The chapters combine ethnographic methods with macro level analyses to weave together policymaker practitioner and migrant experiences and demonstrate how the Mediterranean is an important space for the contested construction of Europe This book provides rich insight into the unexpected level of influence Malta exerts on EU migration governance as well as the critical role migrants and their clandestine journeys play in animating EU and Maltese migration policies driving international relations and producing Malta's political power By centring on the margins the book pushes the boundaries of our knowledge of the global politics of migration asylum and border security
