Power And Global Sport

Eric MacIntosh, Gonzalo Bravo, Ming Li

Power And Global Sport:

Power and Global Sport Joseph A. Maguire, 2005 Examines the key processes and structures that have underpinned the globalization of sport from the emergence of a global sport power elite and the erosion of folk body cultures to the emphasis on the athlete as machine

Global Sport Joseph Maguire, 1999-09-29 In his major new work Joseph Maguire develops a path breaking account of sport in a global context examining the changing nature of sport in relation to globalisation

The Global Sport Economy Michel Desbordes, Pascal Aymar, Christopher Hautbois, 2019-05-29 This book examines the global sports ecosystem through three of its central pillars Sport marketing sports equipment manufacture and sales and sport governance and organization By focusing on these three themes the book presents a nuanced and multi faceted view of how the global sports economy works and what its main strategic challenges and opportunities are Offering a balance between theory and practice and adopting an international perspective with case studies and examples from the Americas Europe and Asia the book addresses key issues such as corporate social responsibility the impact of culture on international sport business innovation and entrepreneurship and consumer behaviour The Global Sport Economy is fascinating reading for students researchers and practitioners with an interest in sport business and management sport marketing the sporting goods industry and distribution and sport governance

Governance, Regulation and Management of Global Sport Organisations Emmanuel Bayle, 2024-11-04 This book is a bold and ambitious analysis of the challenges facing global sport in the 21st century and how those challenges can be met through good governance management and regulation Connecting the political and managerial dimensions of sport from international governing bodies such as the International Olympic Committee through to national governing bodies leagues and professional sport organisations the book offers a new way of thinking about the trajectory of contemporary sport Adopting an innovative multi level approach across macro meso and micro levels the book explores the key challenges currently facing sport including the rapid emergence of new sports such as MMA and adventure sports the arrival of new actors in the international sport ecosystem such as the Gulf states and private equity investment the growth of new technologies such as AI and socio political and developmental issues such as integrity sustainability demographic change and sport for development It considers the interaction of actors at different levels from states to athletes and across the public and private sectors and explores different models of sport around the world including the dominant European and North American models Its findings support the argument that current and future international sports governance and regulation require a more complex and nuanced method of analysis Offering a new vision for global sport this is essential reading for advanced students researchers policymakers or practitioners working in sport management governance or policy or with a general interest in strategy governance or public policy The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Global Sport Leaders Emmanuel Bayle, Patrick Clastres, 2018-04-10 This book

analyses the careers governance and management practices of some of the institutional sports leaders who have had the greatest impact on global sport in the 120 years since Baron Pierre de Coubertin revived the Olympic Games Through their positions in major sports organisations their influence the examples they set their successes and failures and their ability to bring about change these notable individuals controlled and continue to control the development of Olympic and international sport The portraits included within this collection provide a critical analysis of these leaders careers by examining sports management from a biographical perspective and allowing readers to understand the challenges and obstacles faced by international sport s top administrators The contributors explore the interactions between these leaders career paths and their strategies both within their organisations and in the overall sporting context Global Sport Leaders will be of interest to students and scholars across a range of disciplines including sports management sociology politics history and international relations

The Ideals of Global Sport Barbara J. Keys, 2019-04-19 Sport has the power to change the world South African president Nelson Mandela told the Sporting Club in Monte Carlo in 2000 Today we are inundated with similar claims from politicians diplomats intellectuals journalists athletes and fans about the many ways that international sports competitions make the world a better place Promoters of the Olympic Games and similar global sports events have spent more than a century telling us that these festivals offer a multitude of goods that they foster friendship and mutual understanding among peoples and nations promote peace combat racism and spread democracy In recent years boosters have suggested that sports mega events can advance environmental protection in a world threatened by climate change stimulate economic growth and reduce poverty in developing nations and promote human rights in repressive countries If the claims are to be believed sport is the most powerful and effective form of idealistic internationalism on the planet The Ideals of Global Sport investigates these grandiose claims peeling away the hype to reveal the reality that shockingly little evidence underpins these endlessly repeated assertions The essays written by scholars from many regions and disciplines and drawn from an exceptionally diverse array of sources show that these bold claims were sometimes cleverly leveraged by activist groups to pressure sports bodies into supporting moral causes But the essays methodically debunk sports organizations inflated proclamations about the record of their contributions to peace mutual understanding antiracism and democracy Exposing enduring shortcomings in the newer realm of human rights protection from the 1980 Moscow Olympic Games to Brazil s 2014 World Cup and the 2016 Rio Olympics The Ideals of Global Sport suggests that sport s idealistic pretensions can have distinctly non idealistic side effects distracting from the staggering financial costs of hosting the events serving corporate interests and aiding the spread of neoliberal globalization Contributors Jules Boykoff Susan Brownell Roland Burke Simon Creak Dmitry Dubrovsky Joon Seok Hong Barbara J Keys Renate Nagamine Jo o Roriz Robert Skinner

Regulating International Sport Lloyd Freeburn, 2018-08-07 In a fresh and original account Lloyd Freeburn challenges the conventional conception of contracts as the consent based legal foundation of international sports law The prevailing legal orthodoxy is

shown to be untenable failing to explain or justify international sports governing bodies regulatory power or their control over the livelihoods and liberty of participants in sport The non consensual jurisdiction of the Court of Arbitration for Sport is similarly tainted But this significant challenge is not made simply to undermine international sport s regulatory regime A sound legal foundation for regulatory authority in sport is both desirable and necessary Consequently effective reform is urgently required to support the regime s legality and to give it legitimacy by resolving the regime s democratic deficit

Global Sports and Contemporary China Oliver Rick, Longxi Li, 2023-01-05 This book examines the formation of a globally oriented sports system in China from the beginning of the reform process in 1978 to the present focusing on the period after the Beijing 2008 Olympic Games It analyses how this system has shaped domestic social class identities and its role in international Chinese state politics Despite advances in the marketization of the sports industry through previous eras the Chinese state expanded investment in a set of global sports following the heavily government directed drive towards national success at the 2008 Beijing Summer Olympic Games This would be a time when the government focused on policies set to service a growing domestic middle class and an increasingly wide ranging set of international interests with sporting investments being at the heart of their strategic plan However reform has proven difficult The book presents a well rounded account of this effort with tennis and soccer providing important case studies of the internal and external dynamics of this time As such the book will be of interest to researchers and students of globalization of sport those studying East Asian sports development and those who are interested in understanding China more broadly

Reflections on Process Sociology and Sport Joseph Maguire, 2013-09-13 The book focuses on the distinctive contribution that Joseph Maguire has made to process sociology and the study of sport Maguire s work over the past three decades highlights how process sociology has a unique perspective on the relationship between sport culture and society and to the body globalisation and civilisational analysis Reflecting on this body of work and the use of process sociology Maguire captures the research dynamic of walking the line between involvement and detachment theory and observation and engagement and critique The book is structured around four broad sections Theory Sport and Society The Meaning of Sport Body and Society Case Studies in Sport and Process Sociology Globalisation Sport and Civilisational Analysis Providing an introduction to and key examples of a process sociology approach to the study of sport the body civilising processes and globalisation this book will appeal to undergraduates postgraduates and researchers in sport studies sports science degrees sociology cultural studies and to those studying migration globalisation and cross cultural civilisation relations This book was previously published as a Special Issue of Sport in Society

Diversity, Equity, and Inclusion in the Global Sport Community Demetrius W. Pearson, Kirstin Hallmann, James J. Zhang, 2025-09-30 This book examines the importance of diversity equity and inclusion in the context of the global sport industry and asks how sport business might be a factor in enabling positive social change Opening with a chapter that introduces the most significant sociological managerial and social psychological theories models

and frameworks for understanding this important topic this book then presents in depth case studies from around the world that explore various dimensions where sport business and social issues intersect Covering characteristics such as race gender sexual orientation disability and religious orientation this book presents fascinating cases across a wide range of sports and international contexts from women coaches in Nigeria and rodeo Cowboys of Color in Texas to disability sport development in the Caribbean and allyship within German sport organizations Providing an important snapshot of global efforts to promote inclusion in and through sport this book is a fascinating read for any student researcher policymaker or practitioner with an interest in sport business and management the sociology of sport or social issues in wider society

Sport, Gender and Mega-Events Katherine Dashper, 2021-11-29 This volume unpicks mega events as gendered entities and showcases how they both position athletes in relation to one of two binary sex positions and also push the boundaries of what we see and accept as a recognisably gendered male or female body **The Politics of the Male Body in Global Sport** Hans Bonde, 2013-10-18 Danish sport has been associated with Europe and the World not least through I P Muller and Niels Bukh and the Danish Gymnastics revolution with its emphasis on male aesthetics and hygiene in the first half of the twentieth century At the same time Denmark has stood apart from Europe in the early moments of its history of sport with the rural revolution of the farming communities as a statement of political independence and assertion However during the German occupation of Denmark Danish sport was part of a European collaboration which characterized a number of the occupied countries not least in the Nordic area After the Second World War Denmark embraced international body cultures with other European nations in particular Eastern martial arts Denmark too as part of trends in the European region and the world became caught up in sport as a powerful contemporary political statement This book was previously published as a special issue of the International Journal of the History of Sport **Mega-event Cities: Urban Legacies of Global Sports Events** Valerie Viehoff, Gavin Poynter, 2016-03-02 Mega events represent an important moment in the life of a city providing a useful lens through which we may analyse their cultural social political and economic development In the wake of the International Olympic Committee's IOC's concerns about gigantism and wider public concerns about rising costs it was imperative in the C21st to demonstrate the long term benefits that arose for the city and nations from hosting premier sporting events London 2012 was the first to integrate the concept of legacy from the moment a bid to host the Olympic and Paralympic Games was being considered London proposed an ambitious programme of urban renewal for East London Subsequent host city bids have adopted the legacy narrative and as this book demonstrates aligned this to major schemes of urban development and renewal Bringing together scholars practitioners and policy makers this book focuses upon the legacies sought by cities that host major sports events It analyses how governments the IOC and others define and measure legacy It also focuses upon the challenges and opportunities facing future host cities of mega events looking at their aspirations and the intended impact upon their domestic and international development It questions what the global shift in

geographical location of mega events means for sports development and the business of sport what the attractions are for cities seeking to harness the hosting of a mega event and whether there may be longer term consequences for the bidding and hosting major sporting events in the wake of the widespread social unrest that accompanied the preparations in Brazil for hosting the FIFA World Cup 2014 and the summer Olympics 2016 and in Turkey where there was significant opposition to bid for the 2020 summer Olympiad

International Sport Management Eric MacIntosh, Gonzalo Bravo, Ming Li, 2019-03-05

international sport The text provides students academics and practitioners with critical insights into the practice of business as it applies to international sport

National Identity and Global Sports Events Alan Tomlinson, Christopher Young, 2012-02-01 National Identity and Global Sports Events looks at the significance of international sporting events and why they generate enormous audiences worldwide Focusing on the Olympic Games and the men s football soccer World Cup the contributors examine the political cultural economic and ideological influences that frame these events Selected case studies include the 1936 Nazi Olympics in Berlin the 1934 World Cup Finals in Italy the unique case of the 1972 Munich Games the transformative 1984 Games in Los Angeles and the 2002 Asian World Cup Finals among others The case studies show how the Olympics and the World Cup Finals provide a basis for the articulation of entrenched and dominant political ideologies encourage persisting senses of national identity and act as barometers for the changing ideological climate of the modern and increasingly globalized contemporary world Through rigorous scholarly analyses the book s contributors help to illuminate the increasing significance of large scale sporting events on the international stage

Global Sports Unity Marcus Blackwell, 2025-02-16 Global Sports Unity explores whether international sporting events truly foster global harmony or merely amplify national rivalries Utilizing Olympic Committee records the book examines how events like the Olympics and FIFA World Cup impact international relations especially as globalization intensifies It investigates if these platforms bridge cultural divides or simply concentrate existing tensions questioning the uncritical celebration of sports as a universal peacemaker For example while the Olympics aim to promote international cooperation instances of political boycotts demonstrate the complex interplay between sports and politics The book progresses through three parts first defining key concepts like sports diplomacy and nationalism Second it analyzes case studies of major events dissecting their impact on host nations and international relations using historical records and media coverage Finally it assesses the overall effectiveness of these events in fostering unity and proposes strategies to maximize positive impacts This approach allows the book to challenge simplistic views by providing evidence based analysis and reasoned arguments offering a nuanced understanding of sports role in global affairs

Routledge Handbook of Global Sport John Nauright, Sarah Zipp, 2020-01-03 The story of global sport is the story of expansion from local development to globalized industry from recreational to marketized activity Alongside that each sport has its own distinctive history sub cultures practices and structures This ambitious new volume offers state of the art overviews of the development of every major sport or classification of sport examining their history socio cultural significance political economy and international reach and suggesting directions for future research Expert authors from around the world provide varied perspectives on the globalization of sport highlighting diverse and often underrepresented voices By putting sport itself in the foreground this book represents the perfect companion to any social scientific course in sport studies and the perfect jumping off point for further study or research The Routledge Handbook of Global Sport is an essential reference for students and scholars of

sport history sport and society the sociology of sport sport development sport and globalization sports geography international sports organizations sports cultures the governance of sport sport studies sport coaching or sport management

International Sport Management Eric MacIntosh, Gonzalo Bravo, Ming Li, 2019-03-05 International Sport Management is the first comprehensive textbook devoted to the organization governance business activities and cross cultural context of modern sport on an international level As the sport industry continues its global expansion this textbook serves as an invaluable guide for readers as they build careers that require an international understanding of the relationships influences and responsibilities in sport management Through a systematic presentation of topics and issues in international sport this textbook offers a long overdue guide for students in this burgeoning subfield in sport management Editors Li MacIntosh and Bravo have assembled contributors from all corners of the globe to present a truly international perspective on the topic With attention to diversity and multiple viewpoints each chapter is authored by distinguished academics and practitioners in the field A foreword by esteemed sport management scholar Dr Earle Zeigler emphasizes the importance of a dedicated study of the issues in international sport management All chapters in the text use a global perspective to better showcase how international sport operates in various geopolitical environments and cultures The text is arranged in five parts each serving a unique purpose To outline the issues associated with international sport management To examine sport using a unique perspective that emphasizes its status as a global industry To introduce the structure of governance in international sport To examine the management essentials in international sport To apply these strategies in the business segments of sport marketing sport media and information technology sport facilities and design sport event management and sport tourism Written to engage students International Sport Management contains an array of learning aids to assist with comprehension of the material It includes case studies and sidebars that apply the concepts to real world situations and demonstrate the varied issues challenges and opportunities affecting sport management worldwide Chapter objectives key terms learning activities summaries and discussion questions guide learning in this wide ranging subject area In addition extensive reference sections support the work of practitioners in the field With International Sport Management both practicing and future sport managers can develop an increased understanding of the range of intercultural competencies necessary for success in the field Using a framework of strategic and total quality management the text allows readers to examine global issues from an ethical perspective and uncover solutions to complex challenges that sport managers face With this approach readers will learn how to combine business practices with knowledge in international sport to lead their current and future careers International Sport Management offers readers a multifaceted view of the issues challenges and opportunities in international sport management as well as the major functional areas that govern international sport The text provides students academics and practitioners with critical insights into the practice of business as it applies to international sport

Global Sports Fandom in South Korea Younghan Cho, 2020-08-21 This book explores the transformation of cultural

and national identity of global sports fans in South Korea which has undergone extensive cultural and economic globalization since the 1990s Through ethnographic research of Korean Major League Baseball fans and their online community this book demonstrates how a postcolonial nation and its people are developing long distance affiliation with American sports accompanied by nationalist sentiments and regional rivalry Becoming an MLB fan in South Korea does not simply lead one to nurturing a cosmopolitan identity but to reconstituting one's national imaginations Younghan Cho suggests individuated nationalism as the changing nature of the national among the Korean MLB fandom in which the national is articulated by personal choices consumer rights and free market principles The analysis of the Korean MLB fandom illuminates the complicated and even contradictory procedures of decentering and fragmenting nationalism in South Korea which have been balanced by recalling nationalism in combination with neoliberal governmentality

Disability in the Global Sport Arena Jill M. Le Clair, 2013-09-13 Sport is often at the centre of battles for rights to inclusion linked to class race and gender and this book explores struggles centred on disability in different cultural settings in Europe North America Africa Asia and Oceania It challenges oversights and assumptions about the normal body and describes how individual and organizational transformations can occur through sport The abilities of a person are recognised and placed centre stage instead of the individual being forgotten excluded or placed at the margins simply because they have a disability National regional and global change is part of the shift to the rights based approach reflected in the 2006 UN Convention on the Rights of Persons with Disabilities Making sport inclusive affects the accessibility of facilities funding the media policies programs organisations sponsors and spectators and at the same time changes the cultural values of the wider society It also raises issues about competition access and eligibility for different and technologically enhanced cyborg bodies and for those most socially disadvantaged Addressing these questions which ultimately touch on the real meaning of sport can lead to profound changes in people's attitudes and how sport is organized locally and globally Growth in the influential global organisations of the Paralympic Games Special Olympics and Deaflympics is examined as is the approach to disability in sport in both advantaged and resource poor countries The embodied lives of persons with disabilities are explored utilizing new theoretical models perspectives and approaches This book was previously published as a special issue of Sport in Society
