Questions and Answers in the English Courtroom (1640-1760) Dawn Archer, 2005-01-01 Printbegrnsninger Der kan printes 10 sider ad gangen og max 40 sider pr session

Theoretical and Methodological Developments in Processability Theory Kristof Baten, Aafke Buyl, Katja Lochtmann, Mieke Van Herreweghe, 2015-12-15 This edited volume is devoted to expanding the theoretical basis of Processability Theory, a theory of second language development that combines insights in the way speakers generate language and store their language knowledge to predict, describe and explain developmental sequences (Pienemann 1998, 2005). The aim of the book is to provide a forum for new perspectives focusing on three intersections: 1. the interface between morpho-syntax and discourse/pragmatics/semantics; 2. constraints on processing and receptive processing; and 3. developments in instructed second language learning. Each part also includes a response paper in which the new perspectives in terms of the theoretical challenges and/or the empirical results of the preceding chapters are discussed. This collection of articles and response papers will be very relevant to students and researchers interested in theoretical aspects of second language acquisition and more specifically Processability Theory and clearly indicates that the field is lively and open.
