Realm Of The Word Language Gender And Christianity In A Southern African Kingdom:

The Realm of the Word Paul Stuart Landau, 1995 This grassroots history of mission Christianity in colonial southern Africa treats religion and society as a coherent whole It shifts the focus away from European missionaries and African Christians and on to African evangelists schoolchildren healers and most of all Christian women The ideologies and practices of Christianity emerge as inseparable from a kingdom's construction of power in central Botswana a realm of the word premised not on western hegemony but instead on Tswana self rule Kingdoms and Chiefdoms of Southeastern Africa Elizabeth A. Eldredge, 2015 History and oral traditions in southeastern Africa Oral traditions in the reconstruction of southern African history Shipwreck survivor accounts from the sixteenth and seventeenth centuries Founding families and chiefdoms east of the Drakensberg Maputo Bay peoples and chiefdoms before 1740 Maputo Bay 1740 1820 Eastern chiefdoms of southern Africa 1740 1815 Zulu conquests and the consolidation of power 1815 21 Military campaigns migrations and political reconfiguration Ancestors descent lines and chiefdoms west of the Drakensberg before 1820 The Caledon River valley and the Basotho of Moshoeshe 1821 33 The expansion of the European presence at Maputo Bay 1821 33 Southern African kingdoms on the eve of colonization Explorations in the Sociology of Language and Religion Tope Omoniyi, Joshua A. Tracing Language Movement in Africa Ericka A. Albaugh, Kathryn M. de Luna, 2018-01-10 The great diversity of ethnicities and languages in Africa encourages a vision of Africa as a fragmented continent with language maps only perpetuating this vision by drawing discrete language groups In reality however most people can communicate with most others within and across linguistic boundaries even if not in languages taught or learned in schools Many disciplines have looked carefully at language movement and change on the continent but their lack of interaction has prevented the emergence of a cohesive picture of African languages Tracing Language Movement in Africa gathers eighteen scholars together to offer a truly multidisciplinary representation of language in Africa combining insights from history archaeology religion linguistics political science and philosophy The resulting volume illuminates commonalities and distinctions in these disciplines understanding of language change and movement in Africa The volume is empirical aiming to represent language more accurately on the continent as well as theoretical It identifies the theories that each discipline uses to make sense of language movement in Africa in plain terms and highlights the themes that cut across all disciplines how scholars use data understand boundaries represent change and conceptualize power The volume is organized to reflect differing conceptions of language that arise from its discipline specific contributions that is tendencies to study changes that consolidate language or those that splinter it viewing languages as whole or in part Each contribution includes a short explanation of a discipline's theoretical and methodological approaches to language movement and change to ensure that the chapters are accessible to non specialists followed by an illustrative empirical case study This volume will inspire multidisciplinary conversations

around the study of language change in Africa opening new interdisciplinary dialogue and spurring scholars to adapt the questions data and method of other disciplines to the problems that animate their own fields

Medicine, mobility and the empire Markku Hokkanen, 2017-11-02 David Livingstone's Zambesi expedition marked the beginning of an ongoing series of medical exchanges between the British and Malawians This book explores these entangled histories by placing medicine in the frameworks of mobilities and networks that extended across Southern Africa and beyond It provides a new approach to the study of medicine and empire Drawing on a range of written and oral sources the book argues that mobility was a crucial aspect of intertwined medical cultures that shared a search for therapy in changing conditions Mobile individuals ideas and materials played key roles in medical networks that involved both professionals and laypeople These networks connected colonial medicine with Protestant Christianity and migrant labour The book will be of value to scholars and students of history and anthropology of colonialism and medicine as well as a wider readership interested in the plural search for health in Africa and globally

Overcoming the Oppressors Robert I. Rotberg, 2023 How did Africans win their freedom in southern Africa And what did they do with their freedom in the several decades since each southern African country became free Overcoming the Oppressors discusses Black oppression succeeding white oppression indicates why and how corruption prevails in the region and explains why Botswana is exceptional in being non corrupt and well governed The present problems of each country are analyzed and we learn what their leaders are doing to uplift their peoples

A Concise History of South Africa Robert Ross, 1999-05-06 This book provides a succinct synthesis of South African history from the introduction of agriculture about 1500 years ago up to and including the government of Nelson Mandela Stressing economic social cultural and environmental matters as well as political history it shows how South Africa has become a single country On the one hand it lays emphasis on the country's African heritage and shows how this continues to influence social structures ways of thought and ideas of governance On the other it chronicles the processes of colonial conquest and of economic development and unification stemming from the industrial revolution which began at the end of the nineteenth century This leads on to a description and analysis of the fundamental political changes which South Africa is currently undergoing while providing a background for the understanding of those many things which have not changed

The Ahmadiyya in the Gold Coast John H. Hanson, 2017-10-16 The Ahmadiyya Muslim Community a global movement with more than half a million Ghanaian members runs an extensive network of English language schools and medical facilities in Ghana today Founded in South Asia in 1889 the Ahmadiyya arrived in Ghana when a small coastal community invited an Ahmadiyya missionary to visit in 1921 Why did this invitation arise and how did the Ahmadiyya become such a vibrant religious community John H Hanson places the early history of the Ahmadiyya into the religious and cultural transformations of the British Gold Coast colonial Ghana Beginning with accounts of the visions of the African Methodist Binyameen Sam Hanson reveals how Sam established a Muslim community in a coastal context dominated by indigenous expressions and

Christian missions Hanson also illuminates the Islamic networks that connected this small Muslim community through London to British India African Ahmadi Muslims working with a few South Asian Ahmadiyya missionaries spread the Ahmadiyya s theological message and educational ethos with zeal and effectiveness This is a global story of religious engagement modernity and cultural transformations arising at the dawn of independence Missions and Empire Norman Etherington,2005-07-14 The explosive expansion of Christianity in Africa and Asia during the last two centuries constitutes one of the most remarkable cultural transformations in the history of mankind Because it coincided with the spread of European economic and political hegemony it tends to be taken for granted that Christian missions went hand in hand with imperialism and colonial conquest In this book historians survey the relationship between Christian missions and the British Empire from the seventeenth century to the 1960s and treat the subject thematically rather than regionally or chronologically Many of these themes are treated at length for the first time relating the work of missions to language medicine anthropology and decolonization Other important chapters focus on the difficult relationship between missionaries and white settlers women and mission and the neglected role of the indigenous evangelists who did far more than European or North American missionaries to spread the Christian religion belying the image of Christianity as the white man s religion

Prophetic Identities Justin Tolly Bradford,2012 The spread of Christianity is often presented as a story of conquest of powerful European missionaries waging a cultural assault on hapless indigenous victims Yet the presence of indigenous men among missionary ranks in the nineteenth century complicates these narratives What compelled these individuals to embrace Christianity How did they reconcile being both Christian and indigenous in an age of empire Tolly Bradford finds answers to these questions in the lives and legacies of Henry Budd a Cree missionary from western Canada and Tiyo Soga a Xhosa missionary from southern Africa Inspired by both faith and family these men found in Christianity a way to construct a modern conception of indigeneity one informed by their ties to Britain and rooted in land and language rather than religion and lifestyle Although they shared a new sense of nativeness the men followed different paths Whereas Budd sought to create a modern Cree village to cope with the upheavals of the 1860s and 1870s Soga tried to foster among his people a politicized and Christianized sense of African nationalism In telling this story Bradford portrays indigenous missionaries not as victims of colonialism but as people who made conscious difficult choices about their spirituality identity and relationship with the British colonial world Text and Authority in the South African Nazareth Church Joel Cabrita,2014-04-24 This book tells the story of one of the largest and most influential African churches in South Africa Empires of Religion H. Carey,2008-11-13 A sparkling new collection on religion and imperialism covering Ireland and Britain Australia Canada the Cape Colony and New Zealand Botswana and Madagascar Bursting with accounts of lively characters and incidents from around the British world this collection is essential reading for all students of religious and imperial history *Sorcery and Sovereignty* Sean Redding,2006 Publisher description **Cassidy et al.: Women and Empire, 1750-1939, Vol. III**

Elizabeth Dimock, 2021-12-24 First published in 2008 Women and Empire 1750 1939 functions to extend significantly the range of the History of Feminism series co published by Routledge and Edition Synapse bringing together the histories of British and American women s emancipation represented in earlier sets into juxtaposition with histories produced by different kinds of imperial and colonial governments The alignment of writings from a range of Anglo imperial contexts reveals the overlapping histories and problems while foregrounding cultural specificities and contextual inflections of imperialism The volumes focus on countries regions or continents formerly colonized in part by Britain Volume I Australia Volume II New Zealand Volume III Africa Volume IV India Volume V Canada Perhaps the most novel aspect of this collection is its capacity to highlight the common aspects of the functions of empire in their impact on women and their production of gender and conversely to demonstrate the actual specificity of particular regional manifestations Concerning questions of power gender class and race this new Routledge Edition Synapse Major Work will be of particular interest to scholars and students of imperialism colonization women s history and women s writing

Beer, Sociability, and Masculinity in South Africa Anne Kelk Mager, 2010 Beer connects commercial social and political history in this sobering look at the culture of drinking in South Africa Beginning where stories of colonial liquor control Mager looks at the current commerce of beer its valorizing of male sociability and sports and the corporate culture of South African Breweries

The Religious Traditions of Africa Elizabeth Isichei, 2004-11-23 This work is a first of its kind historical introduction to the major religions of Africa The vast majorities of Africa s peoples have been Muslim Christian or Traditionalist for a great deal of time making an inclusive study of these religions essential Isichei s work gives equal attention to all three religions and balances the elements of each to construct an easily accessible overview It is also the first book to provide a comprehensive look at the traditional religion in Africa filling the void in the literature on African religious history Written by a pioneering scholar in the African religious experience this volume blends in depth research and personnel accounts to explore the origins and effects of religion in Africa While primarily a work of history this book also incorporates the latest findings while engaging with current issues such as the interface of neo traditional religion and contemporary cultures This work includes four sections each dedicated to a separate religion detailed maps a glossary and a guide to further reading

Encyclopedia of African History 3-Volume Set Kevin Shillington, 2013-07-04 Covering the entire continent from Morocco Libya and Egypt in the north to the Cape of Good Hope in the south and the surrounding islands from Cape Verde in the west to Madagascar Mauritius and Seychelles in the east the Encyclopedia of African History is a new A Z reference resource on the history of the entire African continent With entries ranging from the earliest evolution of human beings in Africa to the beginning of the twenty first century this comprehensive three volume Encyclopedia is the first reference of this scale and scope Also includes 99 maps

Building God's Kingdom Karina Hestad Skeie, 2012-11-13 The author analyzes Malagasy influence on the 19th century Norwegian mission in highland Madagascar She reveals the complex dynamics of mission encounters

Public

Health in the British Empire Ryan Johnson, Amna Khalid, 2012-03-12 Over the last several decades historians of public health in Britain's colonies have been primarily concerned with the process of policy making in the upper echelons of the medical and sanitary administrations. Yet it was the lower level staff that formed the backbone of public health systems in the colonies. Although they constituted the bases of many colonies' public health machinery, there is no consolidated study of these individuals to date. *Public Health in the British Empire* addresses this gap by bringing together historians studying intermediary and subordinate staff across the British Empire. Along with investigating the duties and responsibilities of medical and non-medical intermediary and subordinate personnel, the contributors to this volume show how the subjectivity of these agents influenced the manner in which they discharged their duties and how this in turn shaped policy. Even those working as low level assistants and aids were able to affect policy design. In this way *Public Health in the British Empire* brings into sharp relief the disaggregated nature of the empire, thereby challenging the understanding of the imperial project as an enterprise conceived of and driven from the center.

Blood Ground Elizabeth Elbourne, 2002-12-03 *Blood Ground* traces the transition from religion to race as the basis for policing the boundaries of the white community. Elbourne suggests broader shifts in the relationship of missions to colonialism as the British movement became less internationalist, more respectable and more emblematic of the British imperial project. It shows that it is symptomatic that many Christian Khoekhoe ultimately rebelled against the colony. Missionaries across the white settler empire brokered bargains: rights in exchange for cultural change, for example. But that brought Aboriginal peoples within the aegis of empire but ultimately were only partially and ambiguously fulfilled.
