Green Budget Reform Robert Gale, Stephan Barg, 2014-04-08 This volume explores 25 case studies of fiscal measures that have been adopted successfully by governments in North America and Europe to reduce environmental degradation. Each study lays out the implementation issues and problems faced and compares the effectiveness of the measure against its expectations. The political implications are also discussed and the text draws on common themes and lessons to be gained from the measures so far. The volume is divided into sections on energy, agriculture, air and water pollution, and waste management. *Sustainable Or Alternative Agriculture* Jayne T. MacLean, 1991 **Green Budget Reform** , Wetlands and Agriculture , 1998 **The Impact of Federal Programs on Wetlands: The Everglades, Coastal Louisiana, Galveston Bay, Puerto Rico, California's Central Valley, Western Riparian Areas, Southeastern and Western Alaska, The Delmarva Peninsula, North Carolina, Northeastern New Jersey, Michigan, and Nebraska** United States. Dept. of the Interior, 1994 **Valuing Rural Amenities** OECD, 2001-01-12 This volume reviews a range of different valuation methodologies, stated preferences, cost-benefit revealed preferences, and others, and looks at how these different approaches influence choices in rural policy. *The Natural Wealth of Nations* David Roodman, 2014-04-08 Every year the world's governments spend over US 700 billion subsidizing activities that harm the environment. *The Natural Wealth of Nations* shows how cutting these wasteful subsidies can actually boost the economy, save tax, and help the environment. By raising taxes on harmful activities like air pollution whilst cutting taxes on payrolls and profits, pollution is discouraged and both work and investment boosted. In a comprehensive global survey, *The Natural Wealth of Nations* provides examples from Sweden to Spain to Malaysia of the growing number of countries that are successfully using these market-based approaches to clean up their environments. This is an accessible practical book offering concrete proposals for cleaning up the world's environment and overcoming ecological ignorance. **Innovative Biological Technologies for Lesser Developed Countries** , 1985 *The Impact of Federal Programs on Wetlands* United States. Department of the Interior, 1994 Beneath the Bottom Line , **Land-Value Taxation** Kenneth C. Wenzer, 1999 These essays examine the merits and shortcomings of land value taxation, which has a benign economic influence, and how it compares and contrasts with the conventional property tax. **The Coastal South and the Everglades** Joan R. Hartmann, 1994 **A National Policy of "no Net Loss" of Wetlands** , 1991 Introduction Jon Goldstein The Policy Context Ralph E. Heimlich Costs of Wetlands Protection and Restoration Policies Positive and Normative Approaches Peter J. Parks and Randall A.
