## **Reason And Hope Selections From The Jewish Writings Of Hermann Cohen:**

**Reason and Hope** Hermann Cohen,1993      **Reason and Hope** Eva Jospe,1993      **Reason and Hope** Hermann Cohen,1971      *Judaism and Modernity* Gillian Rose,2017-03-28 A reinterpretation of thinkers from Benjamin and Rosenzweig to Simone Weil and Derrida *Judaism and Modernity* Philosophical Essays challenges the philosophical presentation of Judaism as the sublime other of modernity Here Gillian Rose develops a philosophical alternative to deconstruction and post modernism by critically re engaging the social and political issues at stake in every reconstruction

**The Weimar Moment** Leonard V. Kaplan,Rudy Koshar,2012-01-01 The lessons that we learn from the brilliance of the scholarship from Weimar Germany and its continued relevance to the contemporary scene define the spirit of the essays in this volume Academic analysis is the beginning of institutional response to avoid reoccurrence of past political nihilism and catastrophe This volume presents a predicate for such effective defense      *An Introduction to Modern Jewish Philosophy* Claire Elise Katz,2013-11-19 How Jewish is modern Jewish philosophy The question at first appears nonsensical until we consider that the chief issues with which Jewish philosophers have engaged from the Enlightenment through to the late 20th century are the standard preoccupations of general philosophical inquiry Questions about God reality language and knowledge metaphysics and epistemology have been of as much concern to Jewish thinkers as they have been to others Moses Mendelssohn for example was a friend of Kant Hermann Cohen s philosophy is often described as neo Kantian Franz Rosenzweig wrote his dissertation on Hegel And the thought of Emmanuel Levinas is indebted to Husserl In this much needed textbook which surveys the most prominent thinkers of the last three centuries Claire Katz situates modern Jewish philosophy in the wider cultural and intellectual context of its day indicating how broader currents of British French and German thought influenced its practitioners But she also addresses the unique ways in which being Jewish coloured their output suggesting that a keen sense of particularity enabled the Jewish philosophers to help define the whole modern era Intended to be used as a core undergraduate text the book will also appeal to anyone with an interest how some of the greatest minds of the age grappled with some of its most urgent and fascinating philosophical problems      **Jewish Philosophy: The Basics** T.M. Rudavsky,2025-09-05 This book introduces students and interested readers to two thousand years of Jewish philosophy from its earliest inception to the current era Fourteen chapters cover major figures in the medieval modern and contemporary periods as well as important themes and topics that have been part of Jewish thought for centuries Questions and topics covered include What is Jewish philosophy At what point does the introduction of secular knowledge dilute destroy or strengthen the basic teachings found in Jewish sources Is it possible to harmonize the domains of science and religion How can philosophy be married to a particular religious tradition Containing a comprehensive list of authors as well as suggestions for further reading at the end of each chapter *Jewish Philosophy The Basics* offers an excellent starting point for anyone seeking an engaging and accessible introduction to the rich content of Jewish philosophy Key

Features and Benefits Covers traditional topics in Jewish philosophy with an emphasis on philosophers struggles to reconcile faith and reason These topics include the existence and nature of God prophecy miracles and divine providence the problem of evil nationalism Jewish mysticism and the status of women Clearly explains the important contributions from historical and contemporary thinkers like Judah Halevi Moses Maimonides Baruch Spinoza Moses Mendelssohn Martin Buber Joseph Soloveitchik and many others Emphasizes the interactions with the secular intellectual world upon Jewish philosophy ranging from the rediscovery of Aristotle in the medieval world to the rise of modern science as well as the importance of modern thinkers including Descartes Kant Hegel Heidegger and others Provides an overview of contemporary issues in Jewish philosophy including Zionism and the status of women in Judaism After Evil Robert Meister, 2011-01-05 Mainstream human rights discourse speaks of such evils as the Holocaust slavery or apartheid in ways that put them solidly in the past Its elaborate techniques of transitional justice encourage future generations to move forward but the false assumption of closure enables those who are guilty to elude responsibility This approach to history common to late twentieth century humanitarianism doesn't presuppose that evil ends only when justice begins Rather it assumes that a time before justice is the moment to put evil in the past Merging examples from literature and history Robert Meister confronts the problem of closure and the resolution of historical injustice He boldly challenges the empty moral logic of never again or the theoretical reduction of evil to a cycle of violence and counterviolence that is broken once evil is remembered for what it was Meister calls out such methods for their deferral of justice and susceptibility to exploitation Specifically he spells out the moral logic never again in relation to Auschwitz and its evolution into a twenty first century doctrine of the Responsibility to Protect

Essays in Jewish Philosophy in the Modern Era Nathan Rotenstreich, 2023-12-14 This volume contains a collection of fifteen essays on Jewish Philosophy The essays deal with Moses Mendelssohn Hermann Cohen Franz Rosenzweig Martin Buber Abraham J Heschel and Gershom G Scholem The book starts with a lucid overview of nineteenth century Jewish Philosophy it can be regarded as a companion volume to the author's Jewish Philosophy in Modern Times Nathan Rotenstreich 1914 1993 was Professor of Philosophy at the Hebrew University of Jerusalem and Vice President of the Israeli Academy of Sciences and Humanities Anti-Semitism and Its Metaphysical Origins David Patterson, 2015-02-09 This book articulates a deeper understanding of the phenomenon of Jew hatred as a metaphysical aspect of the human soul Proceeding from the Jewish thinking that the anti Semites oppose David Patterson argues that anti-Semitism arises from the most ancient of temptations the temptation to be as God and thus to flee from an absolute accountability to and for the other human being Jewish Cryptotheologies of Late Modernity Agata Bielik-Robson, 2014-08-13 This book aims to interpret Jewish Philosophy in terms of the Marrano phenomenon as a conscious clinamen of philosophical forms used in order to convey a secret message which cannot find an open articulation The Marrano phenomenon is employed here in the domain of modern philosophical thought where an analogous tendency can be seen the clash of an open idiom and a secret meaning

which transforms both the medium and the message Focussing on key figures of late modern twentieth century Jewish thought Hermann Cohen Gershom Scholem Walter Benjamin Franz Rosenzweig Theodor Adorno Ernst Bloch Jacob Taubes Emmanuel Levinas and Jacques Derrida this book demonstrates how their respective manners of conceptualization swerve from the philosophical mainstream along the Marrano secret curve Analysing their unique contribution to the unfinished project of modernity including issues of the future of the Enlightenment modern nihilism and post secular negotiation with religious heritage this book will be essential reading for students and researchers with an interest in Jewish Studies and Philosophy

**Kinship and Consent** Daniel L. Elazar, 2020-03-09 A major dimension of modern Jewish life has been the revival of conscious political activity on the part of the Jewish people whether through reestablishment of the State of Israel new forms of diaspora community organization or the common Jewish fight against anti-Semitism Precisely because contemporary Jewry has moved increasingly toward self

**The Internal Foe** Jeremy F. Worthen, 2008-12-18 The relationship between Christianity and other religions is a vital issue in the world today This book provides a fresh perspective by exploring how Christian theology has been shaped over two millennia by interaction with its original religious other continuing Judaism It begins by describing the origins of the classic framework in Christianity that correlates claims about the gospel with judgments about Judaism as resistance to the new thing God has done in Jesus Christ This framework binds Christianity to the task of interpreting Jewish presence which then renders engaging with Judaism as well as rehearsing judgments about it integral to Christian theology's development The central chapters of the book demonstrate this in relation to three pivotal periods of Western history 1050 1300 CE early modernity and the first half of the twentieth century They reveal the classic framework to have been remarkably resilient despite sometimes radical adaptation before in and after modernity The insights of Franz Rosenzweig about Judaism as Christianity's internal foe resonate deeply with the book's historical analysis Does this mean that non relativistic Christian theology must remain intrinsically anti Jewish The book concludes that it need not if it can renounce its historic stance of hermeneutical comprehension

**The Cambridge Companion to Judaism and Law** Christine Hayes, 2017-02-17 The Cambridge Companion to Judaism and Law provides a conceptual and historical account of the Jewish understanding of law

**Historicism and Its Problems** Ernst Troeltsch, 2024-10-01 This is a translation of Ernst Troeltsch's last 1923 major work It is an exhaustive study of the methods of historiography and of German French English and Italian philosophies of history during the nineteenth century It is motivated by the purpose of developing the proper concept of historical development for overcoming bad historicism i.e. unlimited relativism with good historicism with relativity not relativism and determining how values drawn from history can be used to shape the future It concludes with a sketch of the unwritten second volume on the material philosophy of history

**The Rise of Eurocentrism** Vassilis Lambropoulos, 2019-10-08 In the controversy over political correctness the canon and the curriculum the role of Western tradition in a post modern world is often debated To clarify what is at stake Vassilis

Lambropoulos traces the ideology of European culture from the Reformation focusing on a key element of Western tradition the act of interpretation as a distinct practice of understanding and a civil right Championed by Protestants insisting on independent interpretation of scripture this ideal of autonomy ushered in the era of modernity with its essentialist philosophy of universal man and his aesthetic understanding of the world After explaining the dominance of European culture through the combined archetypes of Hebraism reason and morality and Hellenism spirit and art Lambropoulos shows how the rule of autonomy has been transformed into the aesthetic disinterested contemplation of things in themselves Arguing that it is time to restore the socio political dimension to the movement of autonomy he proposes that a genealogy of the Hebraic Hellenic archetypes can help us evaluate more recent models like the Afrocentric one and redefine the controversy surrounding education Eurocentrism and cultural politics

**The Neo-Kantian Reader** Sebastian Luft,2024-11-01 The latter half of the nineteenth and the early part of the twentieth century witnessed a remarkable resurgence of interest in Kant s philosophy in Continental Europe the effects of which are still being felt today The Neo Kantian Reader is the first anthology to collect the most important primary sources in Neo Kantian philosophy with many being published here in English for the first time It includes extracts on a rich and diverse number of subjects including logic epistemology metaphysics philosophy of science and transcendental idealism Sebastian Luft together with other scholars provides clear introductions to each of the following sections to the authors as well as to each text placing them in historical and philosophical context the beginnings of Neo Kantianism including the work of Hermann von Helmholtz Otto Liebman Friedrich Lange and Hermann Lotze the Marburg School including Hermann Cohen Paul Natorp and Ernst Cassirer the Southwest School including Wilhelm Windelband Heinrich Rickert Emil Lask and Hans Vaihinger responses and critiques including Moritz Schlick Edmund Husserl Rudolf Carnap and the Davos dispute between Martin Heidegger and Ernst Cassirer The Neo Kantian Reader is essential reading for all students of Kant nineteenth and twentieth century philosophy history and philosophy of science and phenomenology as well as to those studying important philosophical movements such as logical positivism and analytic philosophy and its history
