The Making of Islamic Economic Thought Sami Al-Daghistani, 2022-01-06 Interrogating the development and conceptual framework of economic thought in the Islamic tradition pertaining to ethical philosophical and theological ideas this book provides a critique of modern Islamic economics as a hybrid economic system From the outset Sami Al-Daghistani is concerned with the polyvalent methodology of studying the phenomenon of Islamic economic thought as a human science in that it nurtures a complex plenitude of meanings and interpretations associated with the moral self By studying legal scholars theologians and Sufis in the classical period Al-Daghistani looks at economic thought in the context of Shar'a's moral law Alongside critiquing modern developments of Islamic economics he puts forward an idea for a plural epistemology of Islam's moral economy which advocates for a multifaceted hermeneutical reading of the subject in light of a moral law embedded in a particular cosmology of human relationality metaphysical intelligibility and economic subjectivity

The Philosophy of Religion in Post-Revolutionary Iran Heydar Shadi, 2018-11-16 This book explores the intellectual discourse in post-revolutionary Iran It focuses on Abdolkarim Soroush a leading Muslim liberal thinker whose

theory of religion is regarded as highly relevant to the current theological and intellectual dynamics in the Islamic world The Philosophy of Religion in Post Revolutionary Iran discusses why and how Soroush's thought has developed from an Islamic apologetic modernist theology in the 1970s to a liberal theory about religion in post revolutionary Iran Through a close and detailed analysis of Soroush's main theories the book argues that Soroush's thought evolved through reception of post positivist epistemology and interaction with Islamism in practice into a historicist and pluralist theory of religion a theory that regards religion including Islam as being a contextual and historical dialogue between man and the Absolute The book also highlights some shortcomings of Soroush's reform project Specifically it notes that Soroush consciously or unconsciously has not yet admitted many extensive consequences of his theories such as those relating to historicity of religious rituals ibadat or recognition of the post Mohammadan revelations and religions In addition some other features and implications of Soroush's thought such as a historical critical approach to the Koran post secular and post Islamist theologies and his dialogical approach that goes beyond the Orientalism Occidentalism dichotomy are discussed Providing a detailed overview on this leading Muslim thinker this book will appeal to students and scholars of Islamic Philosophy Middle East Studies and Philosophy of Religion *Freedom of Expression in Islam* Muhammad Khalid Masud, Kari Vogt, Lena Larsen, Christian Moe, 2021-01-28 In Muslim countries apostasy and blasphemy laws are defended on the grounds that they are based on Islamic Shari'a and intended to protect religion But blasphemy and apostasy laws can be used both to suppress thought and debate and to harass religious minorities both inside and outside Islam This book comprising contributions from Muslim scholars experts and activists critically and constructively engages with the theological historical and legal reasoning behind the most restrictive state laws around the world to open up new ways of thinking The book focuses on the struggle within Muslim societies in Iran Egypt Pakistan and Indonesia where blasphemy and apostasy laws serve powerful groups to silence dissent and stifle critical thought The first part of the book covers the development of the law in shifting historical circumstances and surveys the interpretations of Qur'anic verses that seem to affirm freedom of religion The second part examines the present politics and practices of prosecuting alleged blasphemers and or apostates in Muslim countries The third part looks to the future and where reforms of the law could be possible Debates on Islam and freedom of expression are often cast in polarizing terms of rights versus religion East versus West This volume avoids such approaches by bringing together a diverse group of Muslim scholars and activists with the knowledge commitment and courage to contest repressive interpretations of religion and provide a resource for reclaiming the human rights to freedom of expression and belief

Dietrich Bonhoeffer's Christian Humanism Jens Zimmermann, 2019-06-13 Jens Zimmermann locates Bonhoeffer within the Christian humanist tradition extending back to patristic theology He begins by explaining Bonhoeffer s own use of the term humanism and Christian humanism and considering how his criticism of liberal Protestant theology prevents him from articulating his own theology rhetorically as a Christian humanism He then provides an in depth portrayal of Bonhoeffer s theological anthropology and establishes that Bonhoeffer s Christology and attendant anthropology closely resemble patristic teaching The volume also considers Bonhoeffer s mature anthropology focusing in particular on the Christian self It introduces the hermeneutic quality of Bonhoeffer s theology as a further important feature of his Christian humanism In contrast to secular and religious fundamentalisms Bonhoeffer offers a hermeneutic understanding of truth as participation in the Christ event that makes interpretation central to human knowing Having established the hermeneutical structure of his theology and his personalist configuration of reality Zimmermann outlines Bonhoeffer s ethics as

Christformation Building on the hermeneutic theology and participatory ethics of the previous chapters he then shows how a major part of Bonhoeffer's life and theology namely his dedication to the Bible as God's word is also consistent with his Christian humanism

Religious Statecraft Mohammad Ayatollahi Tabaar, 2018-05-08 Since the 1979 revolution scholars and policy makers alike have tended to see Iranian political actors as religiously driven dedicated to overturning the international order in line with a theologically prescribed outlook This provocative book argues that such views have the link

between religious ideology and political order in Iran backwards Religious Statecraft examines the politics of Islam rather than political Islam to achieve a new understanding of Iranian politics and its ideological contradictions Mohammad Ayatollahi Tabaar traces half a century of shifting Islamist doctrines against the backdrop of Iran's factional and international politics demonstrating that religious narratives in Iran can change rapidly frequently and dramatically in accordance with elites threat perceptions He argues that the Islamists gambit to capture the state depended on attaining a monopoly over the use of religious narratives Tabaar explains how competing political actors strategically develop and deploy Shi'a inspired ideologies to gain credibility constrain political rivals and raise mass support He also challenges readers to rethink conventional wisdom regarding the revolution Ayatollah Khomeini the U S embassy hostage crisis the Iran Iraq War the Green Movement nuclear politics and U S Iran relations Based on a micro level analysis of postrevolutionary Iranian media and recently declassified documents as well as theological journals and political memoirs Religious Statecraft constructs a new picture of Iranian politics in which power drives Islamist ideology

Islam and the Orientalist World-system

Khaldoun Samman, Mazhar Al-Zo'by, 2015-11-17 Featuring Immanuel Wallerstein Joseph Massad Marnia Lazreg and other well known and emerging new authors this book seeks a more accurate understanding of Islam and Islamic societies role and relations to global cultural and economic realities The book confronts a trend today of analyzing Islam as a cultural system that stands outside of and even predates modernity The authors see this trend as part of a racist discourse unaware of the realities of contemporary Islam Islamic societies today are products of the world capitalist system and cannot be understood as being separate from its forces The authors offer a more carefully constructed and richer portrait of Islamic societies today and forcefully challenge the belief that Islam is not part of nor much affected by the modern world system
