Reason Informed By Faith Foundations Of Christian Morality:

Reason Informed by Faith Richard M. Gula, 1989 Excellent textbook introduction to the basic issues of fundamental moral theology that considers all of today's moral issues *Christian Ethics, Volume 1* Karl-Heinz Peschke, 2012-08-21 This recent edition of *Christian Ethics Volume I* is a thoroughly revised and updated version of fundamental moral theology. As in the previous editions, the author makes himself an interpreter of the demands of Vatican Council II and its request that moral theology be rooted more fully in Holy Scripture. At the same time, account is taken of the new developments in the field of ethics. New issues of actual concern are taken up such as the deontological and teleological conditions of moral norms, the confrontation between conscience and civil or ecclesiastical law, the communal roots of Christian identity, the requirement of liberty and the ethical compromise. The book addresses itself to all who are interested in the moral teaching of the Christian faith and endeavors to be a helpful instrument to this end. Happiness and the Christian Moral Life Paul J.

Wadell, 2012-02-16 *Happiness and the Christian Moral Life* introduces students to Christian Ethics looking at ethics as a path to the good life and happiness rather than a strict set of rules or regulations. Revised and updated throughout, the second edition maintains the book's distinctive focus on happiness. Each chapter now features a list of suggested readings to point students and instructors towards further resources. Other changes to the second edition include a more fully developed account of Augustine's understanding of happiness, new discussions of how technology shapes relationships and happiness, and consideration of the relationship between the natural law and the virtues. The Christian Moral Life Timothy F.

Sedgwick, 2008-11-01 A book to enjoy and savour. As a gentle and reverent depiction of whole practice of Anglican moral theology and practice, it is splendid. *The Anglican Theological Review* Written in a style accessible to non-specialists, this book provides teachers, pastors, counselors, and general readers with an ideal introduction to Christian ethics. It renews the topic of Christian ethics by showing readers that faithful moral living is achieved through the daily practices of grace and godliness. The author first explores the foundations of Christian ethics as seen by both Catholics and Protestants and then develops a constructive view of morality as a way of life. Taking into account the central themes of Christian ethics, he shows that effective piety is built on spiritual disciplines that deepen our experience of God: prayer, worship, self-examination, simplicity, and acts of hospitality. **Catholic Moral Theology and Social Ethics** Christina Astorga, 2013-12-01 Proposing a new method for moral theology, Christina Astorga seeks to recast our understanding of the discipline by drawing from the faith vision of the entire theological enterprise, including scripture, dogmatic theology, social ethics, and spirituality. Catholic Moral Theology in the United States Charles E. Curran, 2008-04-11 In this magisterial volume, Charles E. Curran surveys the historical development of Catholic moral theology in the United States from its 19th-century roots to the present day. He begins by tracing the development of pre-Vatican II moral theology that, with the exception of social ethics, had the limited purpose of training future confessors to know what actions are sinful and the degree of sinfulness. Curran then explores and

illuminates the post Vatican II era with chapters on the effect of the Council on the scope and substance of moral theology the impact of Humanae vitae Pope Paul VI s encyclical condemning artificial contraception fundamental moral theology sexuality and marriage bioethics and social ethics Curran s perspective is unique For nearly 50 years he has been a major influence on the development of the field and has witnessed first hand the dramatic increase in the number and diversity of moral theologians in the academy and the Church No one is more qualified to write this first and only comprehensive history of Catholic moral theology in the United States

Ethics and Spirituality Charles E. Curran, 2014 This volume compiles writings by leading moral theologians and ethicists on an important emerging topic in the field of ethics As spirituality asserts its broad humanistic interdisciplinarity and moral theology emerges from its fixation on sin to address broader questions of human formation and Christian discipleship the need for the two disciplines to be in dialogue is clear

Greater Good Garth L. Hallett, 1995-09-01 Garth L Hallett provides the first thorough systematic exposition and defense of proportionalism in Christian ethics Prominent in both philosophical and theological ethics proportionalism judges the morality of acts by their proportion of good and evil Hallett proposes judging acts using a norm he calls Value Maximization He defines this norm and offers a full response to such critics of all forms of proportionalism as Finnis and Grisez The author assesses the norm s moral and theological validity in and of itself in dialogue with the encyclical Veritatis Splendor and in comparison with various rival viewpoints stressing natural law divine commands respect for persons inviolable goods proportionate ends irreducible rights and agent centered ethics He appraises the norm s overall significance showing its rootedness in Christian tradition its inclusiveness and amplitude and its relevance to those seeking a foundation for Christian ethical thought and moral activity

What is Good? A.C. Grayling, 2011-07-21 A C Grayling answers the most important question How do we live a good life One of the most fundamental questions in our life is to find out what we value what principles we want to live by and which codes we will use to guide our behaviour Most of us want to live a good life But what in today s secular society does good actually mean To classical Greeks the acquisition of knowledge the enjoyment of the senses creativity and beauty

were all aspects of life to strive for Then came the volcanic declarations of St Paul and his fundamentalist ideas on sin and human nature In WHAT IS GOOD A C Grayling examines these and other proposals on how to live a good life from the heroic ideals of the Greek poets to Kant s theories on freedom and the UN Declaration on Human Rights Taking Faith Seriously Mary Jo. Bane,Brent. Coffin,Richard Higgins,2009-06-30 Whether simply uneasy or downright hostile the relation between religion and liberal democracy in this country has long been vexed and complex and crucial to what America is and aspires to be Amid increasingly contentious exchanges over fundamentalism abortion rights secularism and pluralism this book reminds us of the critical role that religion plays in the health and well being of a democracy Attentiveness to Vulnerability Daniel J. Fleming,2019-04-24 This book is an attempt to develop a dialogue between the philosophy of Emmanuel Levinas Jean Porter s Thomistic theory of the natural law and the virtue of solidarity as expressed in Catholic Social Teaching It seeks to explore the implications that such a dialogue would have for our understanding of moral reasoning Attentiveness to Vulnerability rests on the hypothesis that it is possible to develop a set of robust links between these thinkers and bodies of thought markedly different as they are in terms of philosophical disposition and framework Such links specify the ethical implications of Levinas thought and develop Porter s theory in an original way This work requires further specification through a developed anthropology which allows for expansion within the tradition of Catholic theological ethics The inclusion of Levinas and a focus on the virtue of solidarity allows for an advancement of virtue theory and theological ethics to the extent that the virtue of solidarity becomes a key aspect of any ethical reasoning **Voting and Holiness** Nicholas P. Cafardi,2012 A collection of essays by noted Catholic scholars on how Catholics should participate in the political process

From What We Should Do to Who We Should Be Benedict Chidi Nwachukwu-Udaku,2011-08-05 HIV AIDS constitutes a global problem A good number of scholars from different nationalities multiple rationalities religious sensibilities theological intelligibilities and ethical cultural and ecclesiastical backgrounds have affirmed that this worldwide quagmire constitutes a global health problem and social malady which does not have a well defined geographically limited spread The global nature of HIV AIDS as seen in the statistics does not however undermine the fact that the effects of this sickness are not felt proportionally from one nation to another This book proposes to situate the local as a veritable site of empowerment for communities dealing with HIV AIDS as it is the case with the African continent The author of this book over and above the way the problem of HIV AIDS has been constructed projected and reviewed decided to situate this epidemic of the 20th Century within the socio cultural and political context of the Nigerian nation with particular reference to the Igbo people The task of contextualizing this problem reveal the identity of the author as an Igbo and as a theologian who engages the indigenous ethical principles unsophisticated traditional wisdom cultural and religious values of his people in offering solutions that resonate the cultural identity of his people in dialogue with modern and post modern constructs Primary Source Readings in Christian Morality Thaddeus Ostrowski,Robert J.
