*Reason and Unreason in Society*, 1940      *Reason and Unreason in Society*. (Repr.) Morris Ginsberg, 1956      *Reason and unreason in society* Morris Ginsberg, 1965      Michael Oakeshott Selected Writings Collection Michael Oakeshott, 2014-08-26 A collection of 6 volumes of Oakeshott's work Notebooks 1922-86 Early Political Writings 1925-30 The Concept of a Philosophical Jurisprudence Vocabulary of a Modern European State Lectures in the History of Political Thought and What is History      **The Concept of a Philosophical Jurisprudence** Michael Oakeshott, 2011-10-26 This volume brings together for the first time over a hundred of Oakeshott's essays and reviews written between 1926 and 1951 that until now have remained scattered through a variety of scholarly journals periodicals and newspapers A new editorial introduction explains how these pieces including the lengthy essay on the philosophical nature of jurisprudence that occupies an important position in Oakeshott's work illuminate his other published writings The collection throws new light on the context of his thought by placing him in dialogue with a number of other major figures in the humanities and social sciences during this period including Leo Strauss A N Whitehead Karl Mannheim Herbert Butterfield E H Carr Gilbert Ryle and R G Collingwood      **The Anatomy of the Holocaust** Raul Hilberg, Walter H. Pehle, René Schlott, 2019-11-07 A multifaceted look at historian Raul Hilberg tracing the evolution of Holocaust research from a marginal subdiscipline into a vital intellectual project I would recommend this book to both Holocaust historians and general readers alike The breadth and depth of Hilberg's research and his particular insights have not yet been surpassed by any other Holocaust scholar Jewish Libraries News Reviews Though best known as the author of the landmark 1961 work *The Destruction of the European Jews* the historian Raul Hilberg produced a variety of archival research personal essays and other works over a career that spanned half a century *The Anatomy of the Holocaust* collects some of Hilberg's most essential and groundbreaking writings many of them published in obscure journals or otherwise inaccessible to nonspecialists in a single volume Supplemented with commentary and notes from Hilberg's longtime German editor and his biographer From the Introduction This selection by the editors from the multitude of his published texts focuses on Hilberg's intellectual interests as a Holocaust researcher Among other topics they deal with the bureaucracy of the Holocaust the number of victims the role of the Judenrat Jewish councils and the function of the railway and the police in the extermination process The scholarly impulses extending from Hilberg's work remain remarkable and virulent almost a decade after his death 2 They deserve to be readily accessible in one place to historians and the interested public in the new compilation offered here Many of the debates influenced by Hilberg are not yet resolved The texts presented can be quite revealing in light of these controversies      Handbook on the Geographies of Power Mat Coleman, John Agnew, 2018-07-27 The so called spatial turn in the social sciences means that many researchers have become much more interested in what can be called the spatialities of power or the ways in which power as a medium for achieving goals is related to where it takes place Most famous authors on the subject such as Machiavelli and

Hobbes saw power as entirely equivalent to domination exercised by some over others Though this meaning is hardly redundant understandings of power have become more multidimensional and nuanced as a result of the spatial turn Much recent writing in human geography for example has rigorously extended use of the term power beyond its typical understanding as a resource that pools up in some hands and some places to a medium of agency that has different effects depending on how it is deployed across space and how actors cooperate or not to give it effect To address this objective the book is organized thematically into four sections that cover the main areas in which much of the contemporary work on geographies of power is concentrated bodies economy environment and energy and war **Paranoia: A Study in**

**Diagnosis** A. Fried,J. Agassi,2012-12-06 There is a curious parallel between the philosophy of science and psychiatric theory The so called demarcation question which has exercised philosophers of science over the last decades posed the problem of distinguishing science proper from non science in particular from metaphysics from pseudo science from the non rational or irrational or from the untestable or the empirically meaningless In psychiatric theory the demarcation question appears as a problem of distinguishing the sane from the insane the well from the mentally ill The parallelism is interesting when the criteria for what fails to be scientific are seen to be congruent with the criteria which define those psychoses which are marked by cognitive failure In this book Dr Yehuda Fried and Professor Joseph Agassi a practicing psychiatrist and a philosopher of science respectively focus on an extreme case of psychosis paranoia as an essentially intellectual disorder that is as one in which there is a systematic and chronic delusion which is sustained by logical means They write Paranoia is an extreme case by the very fact that paranoia is by definition a quirk of the intellectual apparatus a logical delusion p 2

*Jewish Tradition and the Challenge of Darwinism* Geoffrey Cantor,Marc Swetlitz,2008-09-15 Darwin's theory of evolution transformed the life sciences and made profound claims about human origins and the human condition topics often viewed as the prerogative of religion As a result evolution has provoked a wide variety of religious responses ranging from angry rejection to enthusiastic acceptance While Christian responses to evolution have been studied extensively little scholarly attention has been paid to Jewish reactions Jewish Tradition and the Challenge of Darwinism is the first extended meditation on the Jewish engagement with this crucial and controversial theory The contributors to Jewish Tradition and the Challenge of Darwinism from several academic disciplines and two branches of the rabbinate present case studies showing how Jewish discussions of evolution have been shaped by the intersections of faith science philosophy and ideology in specific historical contexts Furthermore they examine how evolutionary theory has been deployed when characterizing Jews as a race both by Zionists and by anti Semites Jewish Tradition and the Challenge of Darwinism addresses historical and contemporary as well as progressive and Orthodox responses to evolution in America Europe and Israel ultimately extending the history of Darwinism into new religious domains Group Problems in Crime and Punishment Hermann Mannheim,2013-08-21 First published in 1998 This is Volume IX of the fifteen in the Sociology of Law and Criminology series This is a collection of mainly

previously published periodicals articles reports or reviews on group problems in crime and punishment The material has throughout been revised in 1955 and brought up to date by adding brief introductory or concluding remarks and further references to recent legislation literature and other subsequent developments

Welch,1995-08-10 Studies of the causes of wars generally presuppose a realist account of motivation when statesmen choose to wage war they do so for purposes of self preservation or self aggrandizement In this book however David Welch argues that humans are motivated by normative concerns the pursuit of which may result in behaviour inconsistent with self interest He examines the effect of one particular type of normative motivation the justice motive in the outbreak of five Great Power wars the Crimean war the Franco Prussian war World War I World War II and the Falklands war Realist theory would suggest that these wars would be among the least likely to be influenced by considerations other than power and interest but the author demonstrates that the justice motive played an important role in the genesis of war and that its neglect by theorists of international politics is a major oversight     *Idea of Commercial Society in the Scottish Enlightenment* Christopher J Berry,2015-04-08 Christopher Berry explains why Enlightenment thinkers considered commercial society to be wealthier and freer than earlier forms looking at key works from Adam Smith David Hume and Adam Ferguson alongside lesser known figures     **Reason and Unreason in Society** Morris Ginsberg,1948     **John Locke: Problems and Perspectives** John W.
