black mayor of Gary Indiana in 1967 the response of Gary's white businessmen was to move the entire downtown to the suburbs thereby weakening the city core Meanwhile white business and institutional leaders in Atlanta Detroit and Newark worked with black mayors heading those majority black cities to rebuild their downtowns and neighborhoods Why not Gary Robert A Catlin who served as Mayor Hatcher's planning advisor from 1982 to 1987 here analyzes the racial conflicts that tore Gary apart He asserts that two types of majority black cities exist Type I including Atlanta Baltimore Detroit and Newark have Fortune 500 corporate headquarters major universities and large medical centers institutions that are placebound and their leaders must work with black mayors Type II cities like Gary lack these resources thus their white leaders feel less compelled to cooperate with black mayors Unfortunately in Gary's case black politicians and white executives fell victim to pettiness and mistrust and as a result Gary and the entire northwest Indiana region suffered Racial Politics and Urban Planning is required reading for citizens interested in urban affairs Leaders in cities such as Albany and Macon Georgia Monroe Louisiana Mount Vernon New York and Pine Bluff Arkansas should also take note Those cities have just become majority black and are in the Type II category Will they learn from Gary or are they doomed to repeat its mistakes

The Social Divide Margaret Weir, 1998-02-01 A Brookings Institution Press and Russell Sage Foundation publication The extraordinary swings in the scope and content of the policy agenda during the first Clinton administration revealed a fundamental partisan divide over the social role of the federal government This book argues that the recent conflicts over social policy represent key elements in strategies that parties designed in an attempt to consolidate their hold over the federal government Long frustrated by divided government each party exceeded its electoral mandate in hopes of enacting major policy reforms aimed to shift

politics in their direction for the foreseeable future The book traces the overreaching and limited legislative success that characterized the first Clinton administration s approach to three distinctive features of politics and policymaking the polarization of political elites the predominance of advertising campaigns and intense interest group politics as political parties have ceased to mobilize ordinary people and the unprecedented role that budgetary concerns now play in social policymaking Although neither party managed to enact its major transforming agenda Congress did pass new policies most notably welfare reform that together with a host of other changes in the states and the private sector altered the landscape for social policy The poor have been the biggest losers as Democrats and Republicans have fought to win the middle class over to their vision of the future The authors first analyze the institutions and tools of policymaking including Congress the political use of public opinion polling and the politics of the deficit They then consider policies designed to win over the middle class including health care policy employer provided social benefits wages and jobs and crime policy Last they address policies targeted at the disadvantaged including welfare affirmative action and urban policy In addition to the editor the contributors include John Ferejohn Lawrence R Jacobs Robert Y Sha
