Rebuilding Cleveland The Cleveland Foundation and Its Evolving Urban Strategy:

Rebuilding Cleveland Diana Tittle, 1992 *Rebuilding Cleveland* is a critical study of the role that The Cleveland Foundation the country's oldest community trust has played in shaping public affairs in Cleveland Ohio over the past quarter century Drawing on an examination of the Foundation's private papers and more than a hundred interviews with Foundation personnel and grantees Diana Tittle demonstrates that The Cleveland Foundation with assets of more than 600 million has provided continuing catalytic leadership in its attempts to solve a wide range of Cleveland's urban problems The Foundation's influence is more than a matter of money Tittle shows The combined efforts of professional philanthropists and a board of trustees traditionally dominated by Cleveland's business elite but also including members appointed by various elected officials have produced innovative civic leadership that neither group was able to achieve on its own Through an examination of the Foundation's ongoing and sometimes painful organizational development Tittle explains how the Foundation came to be an important catalyst for progressive change in Cleveland *Rebuilding Cleveland* takes the reader back to 1914 when Cleveland banker Frederick C Goff invented the concept of a community foundation and pioneered a national movement of social scientists business leaders and government officials that made philanthropy a more effective force for private involvement in public affairs Tittle follows the Foundation through the 1960s when it began a major new initiative to establish itself as a civic agenda setter and problem solver to the present as a new generation of Foundation leaders continues to build upon this renewed sense of purpose

Ballots and Bullets James Robenalt, 2018-07-01 On July 23 1968 police in Cleveland battled with black nationalists The dramatic shootout in the Glenville neighborhood left ten dead and over fifteen wounded The event sparked days of heavy rioting and raised myriad questions Were these shootings an ambush by the nationalists Or were the nationalists defending themselves from an imminent police assault Mystery still surrounds how the urban warfare started and the role the FBI might have played in its origin Cleveland's story intersected with with some of the most important African American figures of the time Dr Martin Luther King and Malcolm X both came to Cleveland

shaping the debate over how to address systemic racism Should it be with nonviolence or armed self defense Malcolm X first delivered his iconic The Ballot or the Bullet speech in Cleveland Three years later in 1967 Carl Stokes with King s help became the first black mayor of a major US city The ballot seemed to have triumphed over the bullet and then Dr King was assassinated In the spring of 1968 while Mayor Stokes kept peace in Cleveland and Bobby Kennedy came to deliver his Mindless Menace of Violence speech nationalists used an antipoverty program Stokes created in King s honor to buy rifles and ammunition Ballots and Bullets examines the revolutionary calls for addressing racism through guerrilla warfare in America s streets It also puts into perspective the political aftermath as racial violence and rebellions in most American cities led to white backlash and provided lift to the counterrevolution that brought Richard Nixon to power effectively marking an end to President Johnson s War on Poverty Fifty years later many politicians still call for law and order to combat urban unrest The Black Lives Matter movement and continued instances of police misconduct and brutality show that the cycle of race based violence continues The root causes racism and poverty remain largely unaddressed

Jewish philanthropic institutions reflected the state's growing investment in capitalism against democratic interests. But well before that Jewish philanthropy had already entered into a tight relationship with the governing forces of American life reinforcing and even transforming the nation's laws and policies. The American Jewish Philanthropic Complex uncovers how capitalism and private interests came to command authority over the public good in Jewish life and beyond.

A Mental Revolution Daniel Nelson, 1992. A Mental Revolution includes eight original essays that analyze how the scientific management principles developed by legendary engineer Frederick W. Taylor have evolved and been applied since his death in 1915. Taylor believed that a business or any other complex organization would operate more effectively if its practices were subjected to rigorous scientific study. His classic *Principles of Scientific Management* spread his ideas for organization planning and employee motivation throughout the industrialized world. But scientific management because it required in Taylor's words a complete mental revolution was highly disruptive and Taylor's famous time motion studies especially when applied piecemeal by many employers who did not adopt the entire system helped make the movement enormously unpopular with the organized labor movement. Though its direct influence diminished by the 1930s Taylorism has remained a force in American business and industry up to the present time. The essays in this volume discuss some of the important people and organizations involved with Taylorism throughout this century including Richard Feiss and Mary Barnett Gilson at Joseph Feiss Frank and Lillian Gilbreth and Mary Van Kleeck and explore the influence of scientific management at the Bedaux Company, the Link Belt Company and Du Pont. Chapters on the Taylor movement's influence on university business education and on Peter Drucker's theories round out the collection. Written by some of the finest scholars of the scientific management movement, A Mental Revolution provides a balanced and comprehensive view of its principles, evolution and influence on business, labor, management and education.

Where the River Burned David Stradling, Richard Stradling, 2015-05-07. In the 1960s Cleveland suffered through racial violence, spiking crime rates and a shrinking tax base as the city lost jobs and population. Rats infested an expanding and decaying ghetto. Lake Erie appeared to be dying and dangerous air pollution hung over the city. Such was the urban crisis in the Mistake on the Lake. When the Cuyahoga River caught fire in the summer of 1969 the city was at its nadir, polluted and impoverished, struggling to set a new course. The burning river became the emblem of all that was wrong with the urban environment in Cleveland and in all of industrial America. Carl Stokes, the first African American mayor of a major U.S. city, had come into office in Cleveland a year earlier with energy and ideas. He surrounded himself with a talented staff and his administration set new policies to combat pollution, improve housing, provide recreational opportunities and spark downtown development. In *Where the River Burned*, David Stradling and Richard Stradling describe Cleveland's nascent transition from polluted industrial city to viable service city during the Stokes administration. The story culminates with the first Earth Day in 1970 when broad citizen engagement marked a new commitment to the creation of a

cleaner more healthful and appealing city Although concerned primarily with addressing poverty and inequality Stokes understood that the transition from industrial city to service city required massive investments in the urban landscape Stokes adopted ecological thinking that emphasized the connectedness of social and environmental problems and the need for regional solutions He served two terms as mayor but during his four years in office Cleveland's progress fell well short of his administration's goals Although he was acutely aware of the persistent racial and political boundaries that held back his city Stokes was in many ways ahead of his time in his vision for Cleveland and a more livable urban America
