**Recent Turkish Coin Hoards and Numismatic Studies** C. S. Lightfoot, 2017-10-01 Twelve new studies of Greek and Roman coins from Anatolia **Numismatic Literature** ,1992 **Colonial Geopolitics and Local Cultures in the Hellenistic and Roman East (3rd century BC - 3rd century AD)** Hadrien Bru, Adrian George Dumitru, Nicholas Sekunda, 2021-12-23 What changes in the material culture can we observe when a state is overwhelming a local population with soldiers katoikoi and civil officials or merchants What were the mutual influences between native and colonial cultures This collection addresses these questions and many more focusing on the Hellenistic and Roman East **American Journal of Numismatics** ,1995 **The Customs Law of Asia** M. Cottier, M. H. Crawford, C. V. Crowther, J. L. Ferrary, B. M. Levick, O. Salomies, M. Wörrle, 2008-12-18 The Roman Empire was based on law and it was vital for rulers and ruled that laws should be understood They were often given permanent form in stone or bronze This book transcribes translates and fully illustrates with photographs the inscription more than 155 lines in its damaged state that carries the regulations drawn up over nearly two centuries for the customs dues of the rich province of Asia western Turkey The regulations taken from Roman archives were set up in Greek in Ephesus and the book provides a rendering of the text back into Latin The damaged text is hard to restore and to interpret Six scholars offer line by line commentary and five essays bring out its significance from the Gracchi to Nero for Rome's government and changing attitudes towards provincial subjects for the historical geography of the Empire for its economic history and for the social life of Roman officials The Image of Political Power in the Reign of Nerva, AD 96-98 Nathan T. Elkins, 2017 At age 65 Nerva assumed the role of emperor of Rome just sixteen months later his reign ended with his death Nerva's short reign robbed his regime of the opportunity for the emperor's imperial image to be defined in building or monumental art leaving seemingly little for the art historian or archaeologist to consider In view of this paucity studies of Nerva primarily focus on the historical circumstances governing his reign with respect to the few relevant literary sources The Image of Political Power in the Reign of Nerva AD 96-98 by contrast takes the entire imperial coinage program issued by the mint of Rome to examine the self representation and by extension the policies and ideals of Nerva's regime The brevity of Nerva's reign and the problems of retrospection caused by privileging posthumous literary sources make coinage one of the only ways of reconstructing anything of his image and ideology as it was disseminated and developed at the end of the first century during the emperor's lifetime The iconography of this coinage and the popularity and spread of different iconographic types as determined by study of hoards and finds and as targeted towards different ancient constituencies offers a more positive take on a little studied emperor Across three chapters Elkins traces the different reverse types and how they would have resonated with their intended audiences concluding with an examination of the parallels between text and coin iconography with previous and subsequent emperors The Image of Political Power in the Reign of Nerva AD 96-98 thus offers significant new perspectives on the agents behind the selection

and formulation of iconography in the late first and early second century showing how coinage can act as a visual panegyric similar to contemporary laudatory texts by tapping into how the inner circle of Nerva's regime wished the emperor to be seen

**The Numismatic Chronicle**, 1997 The rules of the Numismatic Society of London bound with New Series 1 **The Silver Coinage of Septimius Severus and His Family, 193-211 A.D.** Haim Gitler, Matthew Ponting, 2003 *Eulimene*, 2002 **Ashmolean Museum, Oxford: Asia Minor, Caria to Commagene (except Cyprus)** Ashmolean Museum, 2013

The Hunterian Museum, University of Glasgow, Part I John Goddard, 2004-07-08 The publication of the great eighteenth century collection of William Hunter in Glasgow University marks an important stage in the British SNG project This catalogue of the first half of the Hunterian's Roman Provincial coins illustrates the 2428 coins produced in the West and East as far as Commagene Greek Imperial coins have perhaps still to be fully appreciated in the context of the Roman Empire From the death of Caesar to the reign of Diocletian almost a thousand cities in the provinces issued coins with types and inscriptions that symbolize their cultural identity The coins published in this substantial volume offer a wealth of information about many aspects of local life in that period including religion architecture and administration **Turkey** Çiğdem Balım-Harding, 1999 Situated between two continents the Turkish Republic emerged in 1923 as the successor to the multinational Ottoman Empire A young secular Republic with an old history Turkey is a diverse and complex country in terms of social composition politics culture and economy where cultures and races coexist This dynamism is apparent in Turkey's economy with its rapidly developing financial markets an energetic entrepreneurial class a thriving industrial base and fast growing communications Today Turkey is striving to consolidate its democracy but it also faces other challenges On the one hand it wishes to maintain its Islamic tradition but on the other it desires to be part of the West In addition it seeks to find a balance between its traditional role in Western defence strategy and its new regional role in the Middle East Eastern Europe the Caucasus and Central Asia This bibliography fully updates the original volume published in 1982 *The Naval Aristocracy of Hellenistic Rhodes* Vincent Gabrielsen, 1997 This study posits that the distinction of Hellenistic Rhodes exemplified by economic prosperity internal stability military might and high political esteem among foreign powers can be directly linked to the naval aristocracy The book contends that a constantly publicised pride in naval experience was paramount to the self perception of the upper class It was the basis of their role in the military political and commercial infrastructure By analysing the role of the wealthy who personally owned the ships used both for warfare and commerce their financial responsibility for personnel and the ramifications of this power Gabrielsen explains the organisation of the society as a whole By providing economic security the aristocracy promoted domestic peace that in turn allowed for expansion overseas thereby re securing their own power and labour forces The navy safeguarded mercantile routes
