Recharting The Caribbean Land Law And Citizenship In The British Virgin Islands:

Recharting the Caribbean Bill (William) M. Maurer, 2025-10-01 If as many cultural critics have asserted the world is becoming more like the Caribbean then the task of charting what we mean by the Caribbean is an urgent one This careful study of the British Virgin Islands BVI calls attention to the ways in which ideas about nature and choice have come to justify a social order in which half the population is deemed not to belong and is denied legal rights The BVI one of Britain's few remaining colonial possessions has become an important destination point for Caribbean migrants and a center for international financial services Bill Maurer traces how the BVI came to be defined legally and popularly as a territorial entity and how BVI islanders came to define themselves as a people sharing a culture He argues that law has been central to the construction of ethnic racial and cultural differences that create boundaries between peoples and places and that facilitate the exploitation of labor the exclusion of people from the political process and the globalization of capital *Recharting the Caribbean* will be important reading for anthropologist legal scholars and historians of colonial discourse Bill Maurer is Assistant Professor of Anthropology University of California at Irvine *Recharting the Caribbean* Bill Maurer, 2000 Weaves a story of statecraft and law making of power and the construction of identity *Recharting the Caribbean* William M. Maurer, 1994 *Land, Law and Environment* Allen Abramson, Dimitrios Theodossopoulos, 2000-11-20 In ten essays anthropologists mostly focus more on the practical rather than cultural and ideological issues of postcolonial legacies in land law contemporary claims on ancestral lands and conservation issues from Australia to West Africa Abramson is with U College London Theodossopoulos is at the U of Wales Lampeter The book is distributed by Stylus Annotation copyrighted by Book News Inc Portland OR *Land and Territoriality* Michael Saltman, 2020-05-26 In the past territorial conflict usually involved major powers seeking hegemony over strategic spaces and resources More recently however the decline of opposing global power blocs has elevated ethnicity to a prime cause of conflict over land This book considers the multiple roles ethnicity plays in fostering territorial conflicts both violent and non violent across the globe While land disputes relating to nationalism have resulted in the loss of human life in some regions in others ties between ethnicity and land are asserted more peacefully Nationalism and challenges to the validity of the links between people and places have caused widespread bloodshed in the disputed territory of Palestine involving competing claims of Arabs and Jews have led to war In North America however indigenous Indians claims to land are settled in the courts rather than through violence This book shows how human behaviour is affected by the multiple ways in which people identify with land topography and natural resources In doing so it highlights the growing trend towards defining physical space in specific ethnic contexts associated with a contemporary world that facilitates global movement *Rebordering the Mediterranean* Liliana Suárez-Navaz, 2004-08-01 Offering a rich ethnographic account this book traces the historical processes by which Andalusians experienced the shift from being poor emigrants to northern Europe to becoming privileged citizens of the southern borderland of the European

Salvaging Empire James J. A. Blair, 2023-08-15 Salvaging Empire probes the historical roots and current predicaments of a twenty first century settler colony seeking to control an uncertain future through resource management and environmental science Four decades after a violent 1982 war between the United Kingdom and Argentina reestablished British authority over the Falkland Islands Las Malvinas in Spanish a commercial fishing boom and offshore oil discoveries have intensified the sovereignty dispute over the South Atlantic archipelago Scholarly literature on the South Atlantic focuses primarily on military history of the 1982 conflict However contested claims over natural resources have now made this disputed territory a critical site for examining the wider relationship between imperial sovereignty and environmental governance James J A Blair argues that by claiming self determination and consenting to British sovereignty the Falkland Islanders have crafted a settler colonial protectorate to extract resources and extend empire in the South Atlantic Responding to current debates in environmental anthropology critical geography Atlantic history political ecology and science and technology studies Blair describes how settlers have asserted indigeneity in dynamic relation with the environment Salvaging Empire uncovers the South Atlantic s outsized importance for understanding the broader implications of resource management and environmental science for the geopolitics of empire

Ethnographies of law are historically associated with anthropology and the study of far away places and people In contrast this volume underscores the importance of ethnographic research in analyzing law in all societies particularly complex developed nations By exploring recent ethnographic research by socio legal scholars across a range of disciplines the volume highlights how an ethnographic approach helps in appreciating the realities of legal pluralism the subtle contradictions in any legal system and how legal meaning is constantly reproduced on the ground through the cultural frames and practices of peoples everyday lives *The Vanishing Hectare* Katherine Verdery, 2018-05-31 In most countries in Eastern Europe and the former Soviet Union the fall of communism opened up the possibility for individuals to acquire land Based on Katherine Verdery s extensive fieldwork between 1990 and 2001 *The Vanishing Hectare* explores the importance of land and land ownership to the people of one Transylvanian community Aurel Vlaicu Verdery traces how collectivized land was transformed into private property how land was valued what the new owners were able to do with it and what it signified to each of the different groups vying for land rights Verdery tells this story about transforming socialist property forms in a global context showing the fruitfulness of conceptualizing property as a political symbol as a complex of social relations among people and things and as a process of assigning value This book is a window on rural life after socialism but it also provides a framework for assessing the neo liberal economic policies that have prevailed elsewhere such as in Latin America Verdery shows how the trajectory of property after socialism was deeply conditioned by the forms property took in socialism itself this is in contrast to the image of a tabula rasa that governed much thinking about post socialist property reform **Transnational**

and the UK wield over international capital markets and the adaptability of existing public international law to deal with the challenges wrought by globalisation

Sweetness in the Blood James Doucet-Battle, 2021-03-16 A bold new indictment of the racialization of science Decades of data cannot be ignored African American adults are far more likely to develop Type 2 diabetes than white adults But has science gone so far in racializing diabetes as to undermine the search for solutions In a rousing indictment of the idea that notions of biological race should drive scientific inquiry *Sweetness in the Blood* provides an ethnographic picture of biotechnology's framings of Type 2 diabetes risk and race and importantly offers a critical examination of the assumptions behind the recruitment of African American and African descent populations for Type 2 diabetes research James Doucet Battle begins with a historical overview of how diabetes has been researched and framed racially over the past century chronicling one company's efforts to recruit African Americans to test their new diabetes risk score algorithm with the aim of increasing the clinical and market value of the firm's technology He considers African American reticence about participation in biomedical research and examines race and health disparities in light of advances in genomic sequencing technology Doucet Battle concludes by emphasizing that genomic research into sub-Saharan ancestry in fact underlines the importance of analyzing gender before attempting to understand the notion of race No disease reveals this more than Type 2 diabetes *Sweetness in the Blood* challenges the notion that the best approach to understanding managing and curing Type 2 diabetes is through the lens of race It also transforms how we think about sugar filling a neglected gap between the sugar and molasses sweetened past of the enslaved African laborer and the high fructose corn syrup and corporate fed body of the contemporary consumer laborer
